

SACOG's Progress in Racial Equity Action Plan Implementation

February 2024

How is REAP implementation going?

SACOG is in its second year of implementing our Racial Equity Action Plan (REAP). We have seen substantial learning from our work, but progress has been slower than planned. Despite the slow progress, as staff compiled this report, we also observed that there are many operations, work program, and board practices activities underway that are small but important steps toward not one, but several goals of this plan. Several of these activities are major work program efforts that the SACOG board will be reviewing and acting on, such as: update of our long-range transportation and land use plan, updating our federal funding grant programs, launching a mobility zones planning process, and more. We want to share these efforts with the REI Working Group in 2024 to ask for their guidance on: how principles of meaningful community engagement can be integrated into them, how to develop these programs so they can help SACOG achieve its racial equity goals, and for the next phase of the REI Initiative, what updates or adjustments should be made to the REAP to increase its effectiveness and positive impact.

Board Practices

SACOG kicked off the year with a lot of work toward the goal that **the SACOG board deepens its understanding of how race/ethnicity, income, and geography (rural/urban) affects the social outcomes of communities throughout the SACOG region (BP 1)**. At its February meeting, the SACOG board heard an REI refresher presentation. One of the REI Working Group members and several board members contributed to the presentation and explanation of REI work to date, including the working group's orientation to the Racial Equity Action plan and development of principles of meaningful community engagement. Working Group members also spoke of the historic reasons and current needs to continue this REI work. In response to the feedback survey, one board member noted they learned or better understood from the presentation "that REI work can be accomplished in a non-divisive way through education, patient, honest conversations and a commitment to embrace our community with love." In addition, SACOG's board chair invited all board members to read [The Color of Law](#), by Richard Rothstein, and participate in a book discussion later in the year.

Our next major Board Practices effort will be the [REI-focused tour in Woodland](#) on March 21, 2024.

Programs

SACOG continues toward its goal to **invest and strengthen partnerships with community representatives, leaders, and organizations (PGM 1)**. In our last report out, we talked about how the Engage, Empower, Implement (EEI) program and the community-based organizations (CBO) mini grant program each had a good turnout of interested organizations. Through that program we learned that CBOs are willing and interested to work with us. We still have a lot of work to do to improve our list of CBOs and establish regular communication cycles, but SACOG now has more connections with CBOs than we had in the past. SACOG also partnered with 12 CBO grantees during the first phase of public outreach for the Blueprint plan, to: provide education through a "workshop in a box" concept, encourage participation from a population more representative of the diversity within the region, and provide methods of engagement tailored to communities that have been historically underrepresented in planning and associated outreach efforts. SACOG staff received valuable feedback from community members who may not typically attend formal workshops. The 12 CBO grant recipients accounted for over half of all the [survey responses](#) that were collected. After a successful first year, staff are now developing a second round of CBO grants to continue to leverage community voices in SACOG's Blueprint planning and implementation.

Operations

We are continuing to focus on training for staff, with our first training of the year happening in March for the Management Team. This is a two-part series on capacity building (OPS 2). We continue to work on a broader effort to recruit for open positions, and we are tracking the demographics of applicants so that we can look over time if there are gaps in any particular demographic group applying for positions. We have developed draft procedures for hiring managers and interview panelists to ensure that we are applying best practices in candidate review and selection and we run a process that mitigates for potential biases in selection (OPS 1). Looking ahead, this summer we will hold our second summer internship program. That program is currently being planned and will launch before the next REI Working Group Meeting (OPS 2). Finally, we have started to collect demographic information on the firms who respond to formal requests for proposals and will analyze that data. Later this year, we will be updating our disadvantaged business enterprise goal methodology, which is utilized to set a goal for contracting with Federal Transit Administration funds (OPS 3).

About this Report

Please note that while the tasks and objectives within this report are being measured quantitatively, we acknowledge that this work is qualitative in nature. Objectives and tasks are individually measured as a way to gauge progress made to both one-time specific efforts and efforts that establish processes or best practices across our agency that will be ongoing. Even if an objective or task is marked at 100%, it does not mean that it won't be done again.

To help differentiate between one-time efforts and efforts to establish an ongoing practice, look for the following icons:

Terms Used in this Report

The following list defines the terms used throughout this report.

[You can view SACOG's Race, Equity, and Inclusion Glossary of Terms, by clicking this link.](#)

Goals

Broad primary outcomes to which effort and actions are directed in an organization. They are the “whats,” not the “hows.” An organization might have multiple goals to achieve.

Objectives

Also known as "tasks." Both measurable and specific, it quantifies the thoughts and sets a target so that the strategy can be planned around it. In other words, objectives are measurable step or tasks an organization takes to achieve its goals.

Actions

The sub-steps necessary to achieve an objective. They are assigned to an individual role or team and have a timeline to completion.

Measures

Classifications of raw data such as a number or value. It answers the question, “how much was done?”

Indicators

Signs or signals that something exists or is true.

Overall Status

Not Started

Task isn't scheduled to begin yet or work has not begun yet.

In Progress

Notes

This task is to establish an ongoing practice of annual training for staff. Several training opportunities were provided to staff in 2023 and staff will do the same in 2024. These trainings provide the educational basis for working towards the overall goal of an inclusive workplace.

Objective 1C Develop and provide annual an learning academy that provides in-depth racial equity training (multi-day training) for staff that focuses on how to apply racial equity and inclusion practices in SACOG’s programs and planning work.

Notes

Staff is working on identifying a few options that are already built out academies with these focus areas. The next steps will be identifying which staff would be the best to participate in the academy. This task is behind schedule but staff hopes to find something that will work for this calendar year. This serves as a deeper level of education toward making the workplace more inclusive.

Objective 1D Provide ongoing support to staff to listen, learn and support one another in creating an inclusive workplace where all current and future employees feel they belong.

Notes

It is now standard practice to share all job postings to social media and LinkedIn. There is a more unified recruiting presence across these platforms. The work that is being done in recruiting is making progress toward the overall goal by diversifying the outreach for jobs and making hiring managers better equipped through the recruitment process.

This year staff are focused on improving the summer internship program. There is also a focus on tracking and assessing demographics for YLA students and college-age interns.

Operations Goal 3

Reduce barriers to SACOG procurement and contracting process to create more opportunity for Black, Indigenous, Asian, Pacific Islander, Hispanic/Latino, and communities of color, along with low-income rural, urban, and other underrepresented communities.

Notes

Staff are making good progress on Goal 3A to fully understand where there has been less DBE participation in SACOG Procurements. In August 2023, staff implemented some procurement policy and procedure changes that will help with our REAP efforts. The value from demographic procurement and contract data collected in Goal 3A will be seen when assessed in conjunction with both the upcoming Barriers to Procurement survey results from DBE Businesses and lessons gathered from other local agencies and partners (in Goal 3B) to identify more policy and procedural changes that will increase DBE participation.

Objective 3B Review procurement processes and partner with other local, state, and federal government agencies to engage more businesses in the procurement process.

Notes

Progress and results of Goal 3B will be seen later in the efforts due to the initial information/data/feedback gathering activities connecting with DBEs and external agencies/partners doing similar work. The data has to be analyzed in conjunction with the reported barriers to provide a Resource Guide that provides the information the businesses need, and to help make further policy and procedural changes. Goal 3A activities are expected to be completed in the near term, enabling staff to create the Procurement Guide in Goal 3B available this summer. Results of Measures 2 and 3 will be later as they require time to see the impact of the Resource Guide and policy/procedure changes, which will be measured by both participation data and anecdotal feedback from DBEs in the region.

Programs Goal 1

Increase engagement with community representatives of Black, Indigenous, Asian, Pacific Islander, Hispanic/Latino, and communities of color, along with low-income rural, urban, and other underrepresented communities to help shape SACOG’s projects and programs.

Objective 1A Invest in and strengthen partnerships with community representatives, leaders, and organizations by establishing regular meetings with CBOs, funding CBOs to work with SACOG to engage community members, and maintaining regular communications with CBOs.

Notes

As a result of implementing this task, staff have become more aware of how tribes are already engaged in federal, state, and jurisdictional level partnerships and collaborations, including areas of interest to SACOG (e.g., transportation, emergency preparedness, economic development). Staff have identified gaps in projects and programs around tribal participation and engagement, and started to work with several of the tribes in the region to identify what comes next as staff builds relationships for the long-term.

Programs Goal 2

Increase funding for programs and projects that prioritize REI and/or specifically engage underrepresented and underserved communities in the SACOG region.

Notes

The implementation of this action was set to begin during January 2024. We are pushing the schedule back and focusing on identifying a staff lead.

Board Practices Goal 1

The SACOG board deepens its understanding of how race/ethnicity, income, and geography (rural/urban) affects the social outcomes of communities throughout the Sacramento region.

Objective 1A Agendize at least two board workshops a year from speakers both within and outside of the region on foundational REI concepts and best practices. Priority topics will include emerging equity issues and trends in transportation, housing, land use; impact of past inequitable policies and practices in the region; cultural literacy and/or a history of the region through a race/ethnicity lens.

SACOG staff are working on REI workshop topics for this year. The March board workshop is anticipated to highlight food access and economic prosperity. The board chair has also requested board members read, and later this year discuss, The Color of Law. Staff looks forward to input on topics after the board hears the yearly REI Refresher presentation.

Objective 1B Hold an annual REI primer/refreshers session for new and returning board members in the first quarter of the calendar year. The annual session will describe SACOG’s REI journey to date, including key findings and board actions.

SACOG updated the REI refresher presentation and presented as an information item to the SACOG Board on February 15, 2024. One of the REI Working Group public members was able to participate in the presentation, and several REI Working Group board members also participate. 16 board members returned surveys with helpful questions and comments. 2 responded they somewhat understand SACOG's REI work and 14 responded they have a better understanding of SACOG's REI work.

This year's tour overlaps with a green zone, highlighting how RUCS and Prosperity Strategy are being implemented through programs at AgStart and Center for Land Based Learning. The tour will also see how grants through SACOG help build new housing in the Yolano Donnelly project.

Board Practices Goal 2

The SACOG board includes racial equity impacts in its triple bottom line decisions.

Objective 2A By January 2024, SACOG's Board will formally incorporate measures of accountability within its policy approval process to prioritize CBO collaboration in policy development and implementation processes prior to board action on policy decisions.

Notes

This specific objective has not been implemented, but the work within other efforts is helpful as staff thinks about what this will look like. Measuring something like this is difficult, and staff needs to ensure a tool for measurement is created that is also inclusive of what CBOs want to see. Staff want to be intentional on how they are at the project specific level and using that to continue to develop a process on long-term engagement (like Blueprint, EE,I and Mobility Zones).

Objective 2B By January 2024, establish and implement a process to regularly assess the equity impacts of proposed policy decisions through the consistent application of REI best practices.

Board Practices Goal 3

The Board maintains consistent engagement with racial equity action plan implementation process.

Objective 3A By September 2024, SACOG will formalize a process that the board will use to monitor regional racial equity indicators such as economic, demographic, land use, transportation, and housing outcomes in order to track the impact of the racial equity action plan.

Objective 3B

The REI working group, comprised of board members and non-board members, will oversee implementation of this REAP in 2023-2024 and, based on review of REAP progress reports, make recommendations to the SACOG board of any changes to the REAP to increase its effectiveness.

Notes

REI Working Group members have been generous in offering their time to do ad hoc work with staff on specific REAP activities. In this last quarter, staff have reached out to REI Working Group members for ad hoc feedback on the equity indicators for SACOG's Regional Monitoring Report. Staff also invited external members of the REI WG to participate in or watch the REI Refresher presentation to the SACOG board in February.

SACOG PRESENTS

Annual Racial Equity Action Plan Tour:

Woodland & Yolo County

March 21, 2024 | 8:00 a.m. – 9:50 a.m. (Before the Board Meeting)

Woodland Ag Museum, 1958 Hays Ln, Woodland

Please don't be late. Shuttle will leave at 8:00 a.m.

Board members and partners are invited on a walking tour through downtown Woodland to learn about how this ag community in Yolo County is working to enhance the connection between its urban and rural roots to provide housing, economic opportunities, and food to community members who need it the most.

This tour is part of SACOG's Racial Equity Action Plan (REAP) and the board of director's goal to deepen understanding of how race/ethnicity, income, and geography affect the social outcomes of communities throughout the Sacramento region.

HIGHLIGHTS

AgStart Facilities: AgStart is a nonprofit incubator in the heart of Woodland providing support to agriculture and health entrepreneurs. The organization provides an important step for new ventures in the food and ag space in the Sacramento region by providing lab and experiment space on a small scale that startups don't typically have access to. Attendees will have an opportunity to tour the space and learn more.

Yolano Donnelly Public Housing and Expansion Project: Yolo County Housing Authority and the City of Woodland are working to convert a public housing site just east of downtown Woodland. The city received a grant from SACOG to study what a potential expansion could look like and plans are in motion to convert the 132-unit site into a 400-unit property for mixed incomes, mixed use, and mixed housing and commercial space. Tour attendees will have an opportunity to see the current facilities and envision the changes that will be happening at the space.

Farm Business Incubator and Mobile Food Hub: The Center for Land Based Learning will be joining the board meeting to give a presentation about the nonprofit's Farm Business Academy Incubator and Mobile Food Hub programs. The programs work together to offer a new ecosystem to provide a business stream for budding farmers and provide healthy food to underserved communities in the region.

Outreach and Engagement

*Pop Up Workshops
CBO Grant Program
Public Survey*

Overview

The Triple Bottom Line Policy Framework adopted by the SACOG Board, commits to take a proactive and genuine approach to engage representatives of Black, Indigenous, Asian, Pacific Islander, Hispanic/Latino, and communities of color along with rural, urban, and under-resourced communities to help shape the strategies and policy priorities in the 2025 Blueprint. To do this, SACOG visited 27 of 28 local cities and counties to host 'Pop Up' public workshops. By meeting residents at local events or hot spots, SACOG staff were able to receive valuable feedback from community members who may not typically attend formal workshops; thus, broadening the reach of the Blueprint engagement efforts and increasing the feedback that staff was able to collect. The pop-up workshops spanned six months, beginning in March and concluding in August of 2023. SACOG staff hosted 30 pop-up workshops, from which 2,790 survey responses were collected. Pop ups were held at local farmer's markets, transit hubs during commute hours, libraries, and local events like the Winters Youth Day and SacToMoFo's Food Truck Mania in Elk Grove.

To broaden the survey effort and maximize

the number of responses collected, SACOG introduced the Public Outreach and Engagement Grant Program to partner with community-based organizations (CBOs). The program was included in SACOG's Racial Equity Action Plan as a tactic to encourage survey participation from a population more representative of the diversity within the region, and to provide methods of engagement tailored to communities that have been historically underrepresented in planning and associated outreach efforts. The program solicited applications from interested community partners to conduct outreach between February and June of 2023 which overlapped with the timeframe for which the pop ups were completed. The program offered grant awards ranging from \$1,000 to \$5,000, depending on the level of effort proposed by the applicant. Just over \$50,000 in total was awarded to 12 CBOs selected from throughout the region who then used this grant funding to support outreach and engagement activities for the 2025 Blueprint. The 12 CBO grant recipients accounted for over half of all the survey responses that were collected.
