Team	Implementation Agency	Project	Status	Performance Indicators	Funding Sources	SACOG Funding	In-Kind / Other Funding
Moving Students on Campus at Sacramento State	California State University, Sacramento (Sac State)	Sacramento State Campus: Olli Autonomous Shuttle Two autonomous vehicles traveling on Moraga Way to transport students on and around campus	Concluded	Anticipated: Ridership data Acceptance of service Modifications/scaling of service	SACOG Civic Lab and Local Motors	\$90,000	\$321,000
	City of Rancho Cordova	City of Rancho Cordova Business Park: Olli Autonomous Shuttle Proposed autonomous vehicle route in Business Park across from City Hall to transport employees and guests on and around the business park	Not Launched: Pending Board Approval of Contract Anticipated Launch Summer 2019	Anticipated: Ridership data Acceptance of service Modifications/scaling of service	SACOG Civic Lab and Local Motors	\$90,000	\$321,000
Mitigating Congestion in Apple Hill	El Dorado County	Apple Hill Shuttle: Close One Lane of Carson Road Use El Dorado Transit services to operate shuttle on one closed lane of Carson Road during peak season with vehicle parking at end of route	Concluded	24,256 total passenger trips 3,032 average trips per day 45 minute average wait time reduction	SACOG TDM Traditional Grant	\$150,000	\$0
	El Dorado County	Apple Hill Wayfinding: Traveler Information and Ride Matching Second phase of pilot includes wayfinding information and traveler services to guests of Apple Hill	Not Launched: Finalizing Design with SacRegion511 Vendor, Anticipated Launch Fall 2019	Anticipated: Reductions in congestion/traffic delay Changes in transportation behavior Modifications/scaling of service	SACOG Civic Lab	\$0	\$50,000 (estimate)
Mobility Options on Franklin Blvd.	Sacramento Regional Transit	Franklin Blvd.: SacRT SmaRT Ride Microtransit Service On-demand microtransit service on Franklin Blvd. provided by SacRT	Launched	Anticipated Report from SacRT	Sacramento Transportation Authority	\$0	\$400,000
Woodland Mobility Hub	Yolo County Transportation District (YCTD)	YCTD Mobility Center: Feasibility Study Part of Yolo County Transportation District (YCTD) ongoing transit center study to determine forward-thinking mobility solutions.	Launched	Future look at transportation services in 5, 10, 15 years to determine need for forward-thinking mobility hubs	YCTD	\$0	\$0

Team	Implementation Agency	Project	Status	Performance Indicators	Funding Sources	SACOG Funding	In-Kind / Other Funding
Suburban First/Last Mile Solutions	Sacramento Regional Transit	City of Citrus Heights: SacRT SmaRT Ride Microtransit Service On-demand microtransit service in Citrus Heights provided by SacRT	Launched	Anticipated Report from SacRT	Sacramento Transportation Authority	\$0	\$700,000
	City of Rancho Cordova	City of Rancho Cordova: Transloc Microtransit Simulations, Modeling, and Service On-demand microtransit service to complement and/or replace Cordovan routes	Simulations Launched Service Not Launched	Simulation Results: Assumes replacement of Cordovan 75 rides per day (from 38) 10 minute average wait time 20 minute average trip time	SACOG Civic Lab and Transloc	\$43,000	\$93,000
	City of Sacramento	North Natomas: Transloc Microtransit Simulations and Modeling On-demand microtransit service to complement existing JIBE Express commuter service. Project team is determining whether they will request funding for service of the system.	Concluded	Simulation Results: Assumes mid-day service Assumes 50 rides per day 3.5 rides per hour 5.9 minute average wait time 5.6 minute average trip time	SACOG Civic Lab and Transloc	\$25,000	\$93,000
Workforce Transportation for Youth	Paratransit, Inc.	Elk Grove Unified School District: Outreach and Transportation for Youth in New Internships or Jobs Individualized travel training and transportation for students with new jobs or internships	Outreach Launched Transportation Services Not Launched: Anticipated Launch Summer 2019	225 youth reached 75 participants 22 sources of referrals Anticipated: Year 2 Transportation Services Deployed	Sacramento Transportation Authority	\$0	\$400,000
City of Davis Amtrak First/Last Mile	City of Davis	Davis Amtrak Station: Congestion Mitigation Pilot Comprehensive mobility pilot including Transloc Microtransit simulations and modeling, Lyft subsidy, and Carzac's mobile-app ridematching service	Not Launched: Pending City of Davis Council Approval, Anticipated Launch Unknown	Anticipated: Ridership data Acceptance of service Modifications/scaling of service	SACOG Civic Lab	\$344,500	\$0
Rural Transit in Knight's Landing	Yolo County Transportation District (YCTD)	Knight's Landing: Yolo County Transportation District Microtransit Service On-demand microtransit service to complement existing YCTD paratransit service	Not Launched: Anticipated Launch Summer 2019	Anticipated: Ridership data Acceptance of service Modifications/scaling of service	SACOG Civic Lab	\$132,795	\$0

\$875,295 \$ 2,378,000

Total Investment \$ 3,253,295.00
