

Potential SACOG-led Planning Grant Applications

Grant Program	Concept Area	Potential Focus	Potential Partners
Strategic Partnerships	Transportation Pricing Pilot Design	Design a pilot project to explore approaches to implement mileage-based user fees that assess potential benefits or impacts to rural and lower income households, and tests the concept of incentives as well as fees.	LA Metro, SCAG, MTC, Caltrans
Strategic Partnerships - Transit	Emergency/Evacuation Route Planning/Preparedness	Using climate resiliency planning work to identify threats to our region and the impact of developing transportation technologies, identify the coordination needed for mass evacuation, the maximization of existing resources, e.g. emergency vehicle utilization, and new challenges for executing evacuations.	Transit operators, EDCTC, PCTPA, state agencies, human services, non-profit agencies
Sustainable Communities or Strategic Partnerships - Transit	Mobility Accelerator Program	Planning work to develop an ongoing mobility accelerator program for SACOG staff to provide technical assistance to member agencies and other planning partners.	Member jurisdictions, universities
Sustainable Communities	Blueprint	Re-visit the Blueprint to incorporate updated regional growth projections, the last 15 years of transportation advancements, regional development patterns, and challenges and opportunities presented to the Sacramento region.	RTPAs
