

2023-2026 Metropolitan Transportation Improvement Program

SACOG

Sacramento Area
Council of
Governments

BOARD MEMBERS AND MEMBER JURISDICTIONS

Karm Bains, Sutter County
Krista Bernasconi, City of Roseville
Gary Bradford, Yuba County
Chris Branscum, City of Marysville
Pamela Bulahan, City of Isleton
Trinity Burruss, City of Colfax
Jan Clark-Crets, Town of Loomis
Rich Desmond, Sacramento County
Lucas Frerichs, City of Davis
Sue Frost, Sacramento County
Jill Gayaldo, City of Rocklin
Lakhvir Ghag, City of Live Oak
Bonnie Gore, Placer County
Martha Guerrero, City of West Sacramento
Shon Harris, City of Yuba City
Rick Jennings, City of Sacramento
Paul Joiner, City of Lincoln
Patrick Kennedy, Sacramento County
Mike Kozlowski, City of Folsom
Rich Lozano, City of Galt
Porsche Middleton, City of Citrus Heights
Pierre Neu, City of Winters
David Sander, City of Rancho Cordova
Michael Saragosa, City of Placerville
Don Saylor, Yolo County
Jay Schenirer, City of Sacramento
Matt Spokely, City of Auburn
Tom Stallard, City of Woodland
Darren Suen, City of Elk Grove
Wendy Thomas, El Dorado County
Rick West, City of Wheatland
Amarjeet Benipal, Ex-Officio Member

SACOG MISSION

Provide leadership and a dynamic, collaborative public forum for achieving an efficient regional transportation system, innovative and integrated regional planning, and high quality of life within the greater Sacramento region.

A Guide to the Metropolitan Transportation Improvement Program

Introduction

The federally required Transportation Improvement Program (TIP or FTIP), called the Metropolitan Transportation Improvement Program (MTIP)¹ in the Sacramento Region, is a comprehensive listing of transportation projects that receive federal funds, require a federal action, or are regionally significant. The Sacramento Area Council of Governments (SACOG),² as the federally designated Metropolitan Planning Organization (MPO) for the six-county Sacramento Region, prepares and adopts the MTIP every two years.

The MTIP covers a four-year period and must be financially constrained by year, meaning that the amount of dollars committed to the projects (also referred to as “programmed”) must not exceed the amount of dollars estimated to be available. The MTIP must include a financial plan that demonstrates that programmed projects can be implemented. Adoption of the MTIP must be accompanied by an evaluation and determination of air quality conformity.³ Federal regulations also require an opportunity for public comment prior to MTIP approval.

Transit, highway, local roadway, bicycle and pedestrian investments are included in the MTIP. Apart from some improvements to the region’s airports and the Port of Sacramento, all regionally significant transportation projects or projects requiring federal action are part of the MTIP. All projects included in the MTIP must be consistent with the long-range regional transportation plan. The current plan for the SACOG region is the 2020 Metropolitan Transportation Plan/Sustainable Communities Strategy (2020 MTP/SCS).⁴

The 2023 MTIP: Features and Highlights

Below are some features and highlights of the 2023 MTIP:

1. Addresses the federal requirements as identified in the Infrastructure Investment and Jobs Act (IIJA), enacted November 15, 2021. Approximately every four to six years, Congress adopts, and the President signs a transportation act—an authorization to spend tax dollars on highways, streets, roads, transit, and other transportation related projects.
2. Covers four years of programming: federal fiscal years (FFY) 2023 through 2026.
3. Includes approximately 437 projects total (90 individually listed transportation projects and 347 grouped projects in 26 grouped project listing categories).
4. Programs over \$2.1 billion of the over \$4 billion of reasonably available federal, state, and local funding during the four years of the MTIP.
5. Refer to Chart 1 below, which breaks down the 2023 MTIP Expenditure Summary across five project categories- **Road Maintenance and Rehabilitation**; **Transit Operations and Maintenance**; **Road and Highway Expansion**; **Transit Expansion**; and **bicycle and pedestrian projects, safety projects, system operations projects, and other related projects**.

Chart 1 below shows the % of total funds between FYs 2023 and 2026 that will be spent on the transportation project categories depicted below.

Chart 1. 2023 MTIP Expenditure Summary by Project Category

Investment Decisions: 2020 MTP/SCS and the MTIP

The 2020 MTP/SCS, which was approved by SACOG in November 2019, guides and prioritizes all SACOG's programming decisions. The plan lays out a transportation investment and land use strategy to support a prosperous region, with access to jobs and economic opportunity, transportation options, and affordable housing that works for all residents. The plan also lays out a path for improving our air quality, preserving open space and natural resources, and helping California achieve its goal to reduce greenhouse gas emissions that contribute to climate change. The 2020 MTP/SCS invests \$35 billion and proactively links transportation, land use and air quality. Additionally, the 2020 MTP/SCS gives individuals more options for how to get around, with investments in walking, biking, and transit as well as roadway improvements. It focuses on four priority policy areas:

1. Build vibrant places for today's and tomorrow's residents
2. Foster the next generation of mobility solutions

3. Modernize the way we pay for transportation infrastructure

4. Build and maintain a safe, reliable, and multimodal transportation system

The plan prioritizes fixing and operating the existing system, with more than half of total investments, around \$21 billion, going toward maintaining roads and highways, and operating transit services. Of this, our region will spend \$12.6 billion on road and highway maintenance and \$8.1 billion on transit operations and vehicle purchases.

Almost \$9 billion of the \$35 billion budget is anticipated to fund transportation system expansion. Of this capacity budget, \$6.8 billion will go to road and highway expansion projects, including operational, safety, and multi-modal elements as part of large capital projects. More than two-thirds of that road capacity investment will be on existing streets and roads. These investments will focus on the areas of the region where growth is expected and where congestion exists today or is likely to occur based on future growth patterns. The other \$2 billion of capacity increases will go to large transit capital expansion projects such as extending light rail to Natomas, improving heavy rail service into Placer County, or other infrastructure investments to facilitate enhanced bus service like Bus Rapid Transit.

To build a multimodal system that is safe and efficient for all users, \$5.6 billion of the \$35 billion budget goes to dedicated bicycle and pedestrian infrastructure; safety programs and improvements; operational improvements to get more out of existing infrastructure; and programs to connect residents with options and services that will allow them to leave their cars at home and reduce the need for ever-expanding roads and highways.

Chart 2. 2020 MTP/SCS Expenditure Summary by Project Category

2020 MTP/SCS Consistency

Projects in the 2023 MTIP are required by federal regulations to be consistent with the 2020 MTP/SCS. For this reason, the adoption of the 2023 MTIP is accompanied by Amendment #2 to the 2020 MTP/SCS. Only projects consistent with the 2020 MTP/SCS are included in the 2023 MTIP. SACOG reviews projects for consistency with the 2020 MTP/SCS as they are amended into the MTIP. Consistency also includes the requirement that project costs in the MTIP do not exceed those in the funding constrained investment plan of the 2020 MTP/SCS. SACOG updates the MTP/SCS every four years. The next planned update to the MTP/SCS is anticipated for 2024. SACOG will post regular updates on the plan development process on our website at: <https://www.sacog.org/2024-blueprint-mtpscs>

MTIP Four Year Cycle

Four years of programming are contained in the 2023 MTIP, federal fiscal years (FFYs) 2023 through 2026. In addition, prior year and estimated funding for projects in future years (beyond the four years that comprise the 2023 MTIP) are included for information.

MTIP Development & Public Participation Process

SACOG is committed to a public involvement process that is transparent, proactive, provides comprehensive information, timely public notice, full public access to key decisions, and opportunities for continuing involvement. We followed all the steps outlined below in the development of the 2023 MTIP.

Interagency Coordination and Review

SACOG develops the MTIP in cooperation with the Placer County Transportation Planning Agency (PCTPA) and the El Dorado County Transportation Commission (EDCTC), the Regional Transportation Planning Agencies (RTPAs) for Placer and El Dorado counties respectively. This process is defined in the Memoranda of Understanding executed by SACOG, PCTPA, EDCTC, and the Secretary of Housing, Business, and Transportation for the State of California.

Preparation of the MTIP and its subsequent amendments are made in coordination with the Regional Planning Partnership (Partnership) and the Transit Coordinating Committee (TCC). Their constituent members include individual cities and counties, transit operators, PCTPA, EDCTC, Native American tribes, Caltrans, five local air districts, transportation advocates, federal agencies, and other state agencies. The Partnership and the TCC provide forums for the region's transportation industry to contribute to the policymaking and programming activities of SACOG and to facilitate coordination within the region. Also, the Partnership and the TCC play a role in the selection of funding for projects that get programmed in the MTIP.

Most of the projects in the 2023 MTIP have been carried over from the prior 2021-24 MTIP. To decide which projects to carryover, we asked project sponsors to indicate which of their projects in the 2021-24 MTIP had been completed, deleted, or delayed. We also asked sponsors to update the projects that needed to be carried over. In some cases, sponsors nominated new projects already identified in the 2020 MTP/SCS. Usually, for a project to be listed in the MTIP, it should contain work during the 2023 timeframe.

In addition to reviewing consistency with the 2020 MTP/SCS, we review projects for financial constraint, accuracy, clarity, and model projects to determine that they will not affect the region's air quality conformity. This preliminary list of projects is then circulated for interagency review.

Public Review

Following interagency review, the MTIP circulates for 30 days of public review and comment, consistent with procedures identified in SACOG's Public Participation Plan (PPP).⁵ We post notices and send the notice to an extensive list, including transportation agencies; other state, federal and tribal agencies; and transportation interests with the objective of continuing the consultation process for transportation planning and investments in the Sacramento region. We also make the document available online. In order to receive oral comments, we host a public hearing. After the close of the public comment period, we compile comments and provide our response (Appendix 11). This review process is defined in detail within the PPP. The notice of public involvement activities and time established for public review and comments on the MTIP satisfy Federal Transit Administration (FTA) Program of Projects (POP) requirements, as defined in FTA Circular 9030.1E.

Adoption and Final Approval

After the written comment period, the MTIP is presented to SACOG's Transportation Committee, where a public hearing is held. After its review, the committee decides whether to forward the document to the Board of Directors for adoption. After board adoption, we send it to the Caltrans Office of Federal Programs for inclusion into the California Federal Statewide Transportation Improvement Program (FSTIP). After review and approval by Caltrans, the FSTIP is forwarded to the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) for their review and approval. Joint approval by FHWA and FTA of the MTIP and of the accompanying conformity analysis constitutes the final approval of the MTIP.

Development Schedule

2023 MTIP, 2020 MTP/SCS Amendment #2, and Draft Conformity Analysis

January 24, 2022	Call for Updates to MTIP Project List
March 11	Deadline for submittals
March 14 – June 30	SACOG review of submittals, determination of financial constraint, determination of regional significance, identification of grouped project listings, air quality modeling, and air quality conformity analysis.
	SACOG also incorporates CTC Staff recommendation to MTIP.
July 5 - 10	Interagency Review of Draft MTIP, Draft 2020 MTP/SCS Amendment #2, and Draft Conformity Analysis
July 14 – August 12	Public Comment Period
August 4	Transportation Committee: Public Hearing

August 17	Transit Coordinating Committee Presentation
August 24	Regional Planning Partnership Presentation
September 1	Transportation Committee: Board Recommendation
September 15	Board Adoption of MTIP
September 30	Final MTIP due to Caltrans
October 10 – 31	Statewide FSTIP Public Comment Period
November 16	Caltrans submits FSTIP (which includes SACOG MTIP) to FHWA and FTA
December 16, 2022	Final MTIP & Air Quality Conformity Determination approval by Federal DOT

Relationship of the MTIP to Other Federal and State Transportation Programs

FSTIP

Just as each metropolitan region is required to develop a federal TIP, each state is required to develop a Federal Statewide Transportation Improvement Program (FSTIP)⁶ pursuant to federal regulations. The FSTIP includes all projects with federal funds, those that require a federal action, and regionally significant transportation projects throughout the state.

In California, regional TIPs are included in the FSTIP without modification once approved by the relevant Metropolitan Planning Organization and Caltrans. Next the FSTIP receives final approval when FHWA and FTA make their required financial constraint and air quality findings. Projects must be in the FSTIP before funding authorities, such as FTA, FHWA, or Caltrans, can “obligate” funds (i.e., commit funds to contract) and therefore, before sponsors can spend any of these monies.

STIP

The California Transportation Commission (CTC)⁷ is required to biennially adopt a State Transportation Improvement Program (STIP)⁸. The STIP is a comprehensive listing of all major projects to be funded from specified state funding revenues, including certain federal funds that flow directly to the state. As a result, the projects that are included in the STIP are included in the regional TIPs and the FSTIP as well. (“STIP” is also used to refer to the fund types programmed in the STIP.)

The STIP consists of elements developed at the state level by Caltrans and at the regional level by Regional Transportation Planning Agencies (RTPAs).

ITIP

Caltrans proposes an element of the STIP known as the Interregional Transportation Improvement Program, or ITIP. The ITIP comprises a portion of STIP funding intended to address transportation infrastructure needs that cross metropolitan boundaries and link the state’s

transportation system. For example, intercity rail and interregional highways are included in the ITIP. (“ITIP” is also used to refer to the fund type programmed in the ITP.)

RTIP

The regions propose an element of the STIP known as the Regional Transportation Improvement Program, or RTIP. The RTIP comprises a portion of the STIP funding to address transportation infrastructure needs within a region. As the RTPAs in the region, SACOG, PCTPA and EDCTC approve RTIPs for the Sacramento region. The RTIPs are then forwarded to the CTC for approval. The CTC works with the regional agency if modifications are needed to the submitted program of projects.

Fund Sources Programmed in the MTIP

The 2023 MTIP programs transportation funding from a wide variety of sources. All of these fund sources have eligibility criteria that a project must meet in order to be considered for the fund source. Most projects have more than one source of funding. Several of the major funding sources are:

Federal Transit Administration Programs

1. Section 5307 Urbanized Area Formula
2. Section 5309a Fixed Guideway Capital Investment Grants
3. Section 5309b New and Small Starts (Capital Investment Grants)
4. Section 5309c Bus and Bus Related Grants
5. Section 5310 Enhanced Mobility of Seniors and Individuals with Disabilities
6. Section 5311 Formula Grants for Rural Areas
7. Section 5337 State of Good Repair Grants
8. Section 5339 Bus and Bus Facilities Formula Grants

Federal Highway Administration Programs

9. Regional Surface Transportation Program (RSTP), also known as Surface Transportation Block Grant Program (STBGP)
10. Congestion Mitigation and Air Quality Program (CMAQ)
11. Highway Bridge Program (HBP)⁹
12. Active Transportation Program (ATP)¹⁰
13. Highway Safety Improvement Program (HSIP)
14. Transportation Alternatives Program (TAP)
15. Highway Infrastructure Program (HIP)
16. Various safety programs
17. High Priority Projects and other earmarks
18. Coronavirus Response and Relief Supplemental Appropriations Act (CRRSAA)
19. Federal Discretionary programs from the Infrastructure Investment and Jobs Act (IIJA), or Bipartisan Infrastructure Law (BIL)

State, Regional, and Local Programs

If state or local funds are used to match federal dollars, or if they are attached to projects that require federal approval, or if the project is considered to be regionally significant, then the associated state and local funds must be reported in the MTIP. Otherwise, state and local funds do not have to be programmed in the MTIP. State and local fund sources can include the following:

20. State Transportation Improvement Program (STIP), comprising the Regional Transportation Improvement Program (RTIP) and the Interregional Transportation Improvement Program (ITIP)¹¹
21. Road Repair and Accountability Act (SB 1), approved in April 2017
22. Proposition 1A and 1B Bonds, approved by voters in 2006, which include Corridor Mobility Improvement Account (CMIA), Trade Corridors Improvement Fund (TCIF), and Public Transportation Modernization, Improvement, and Service Enhancement Account (PTMISEA) funds and other bond programs
23. Transportation Development Act (TDA) & State Transit Assistance (STA) funds
24. Proceeds from Measure A, the Sacramento County half-cent transportation sales tax¹
25. Transportation Impact Fees
26. Gas Tax
27. Various other funds programmed to regionally significant, locally funded projects

Air Quality Conformity

Under federal law and regulations, SACOG must analyze the MTIP to determine if it conforms to the Sacramento Region's approved federal air quality plans, known as the State Implementation Plan (SIP)¹². we model motor vehicle emissions, considering all projects in the MTIP and 2020 MTP/SCS. The emissions must not exceed the Motor Vehicle Emissions Budget (MVEB) identified in the SIP and approved by the Environmental Protection Agency (EPA)¹³. In instances where EPA has not approved a budget, we evaluate emissions output using an interim test. In addition, the MTIP must provide for the timely implementation of strategies to reduce emissions that are in the SIP, called Transportation Control Measures (TCMs).

Air quality conformity (conformity) is a method to ensure that federal funding and approval go to those transportation activities that are consistent with air quality goals. Conformity applies to transportation plans, TIPs, and projects funded or approved by FHWA or FTA in areas that do not meet or previously have not met air quality standards for ozone, carbon monoxide, particulate matter types, or nitrogen oxides. These areas are known as "nonattainment areas" or "maintenance areas," respectively. A conformity determination demonstrates that the total emissions projected for a plan or program are within the emissions limits (budgets) established by the SIP, and that TCMs are implemented in a timely fashion.

We analyze the projects in the MTIP and 2020 MTP/SCS, using a prescribed computer model and process, and makes a finding that those projects, if completed, would not contribute to air pollution that exceeds the amount specified in the region's clean air plan.

¹ Note: While the 2020 MTP/SCS assumes additional sales tax measure funding sources, the 2023 MTIP does not.

Transportation Control Measure (TCM) Implementation

SACOG's TCMs are recorded in Appendix D of the [Sacramento Regional 2008 NAAQS 8-Hour Ozone Attainment and Reasonable Further Progress Plan](#).¹⁴ The MTIP and 2020 MTP/SCS provide for the timely completion or implementation of the TCMs. In addition, SACOG must document that nothing in the MTIP or 2020 MTP/SCS interferes with the implementation of any TCM in the applicable implementation plan, and priority is given to TCMs. Documentation of the timely implementation of these measures is contained in the Air Quality Conformity Analysis that accompanies the 2023 MTIP.

As of July 11, 2022, SACOG has only one remaining active TCM commitment, the Spare the Air public education program. SACOG has committed to fund it through 2024. Funding for Spare the Air is included in the 2023 MTIP under Spare the Air Phase 3, VAR56201, which is part of the Grouped Project Listing "Grouped Projects for Activities that Do Not Lead to Construction."

Grouped Project Listings in the MTIP

Federal regulations 23 CFR 450.218(j) allows MPOs to group together projects that are not considered to be of appropriate scale for individual listing. Such projects may be grouped by function, work type or geographical area and must be consistent with the classifications under 23 CFR 771.117(c) and (d) and/or 40 CFR part 93. SACOG groups projects in accordance with the Grouped Project Listing Guidelines as developed by Caltrans in 2010.¹⁵ The grouped project listings are consistent with the "Exempt Project" classification contained in the EPA Transportation Conformity Regulation (40 CFR part 93).

Revisions to the MTIP – Administrative Modifications and Amendments

Because of the fluctuating nature of transportation projects nearing implementation, circumstances dictate that changes be made to the MTIP following its adoption. Federal regulations allow for two types of revisions to the MTIP: "administrative modifications" and "amendments." SACOG processes amendments infrequently, about two to four per year, while administrative modifications occur more often, about 12 per year. Amendments take longer to process, as long as four to six months. In contrast, administrative modifications usually take one or two weeks, or they may take as little as a day.

Types of Revisions

Consistent with the policies above, SACOG has further defined Administrative Modifications and Amendments by a classification system which consists of five "Types" of revisions, each with specific action, review, public participation, and approval. The information on this classification system can be found in SACOG's PPP. The five MTIP Revision Types are:

1. Administrative Modification
2. Amendment Due to Funding Changes
3. Amendment of Exempt/Non-Regionally Significant Projects
4. Amendment Requiring a Conformity Determination
5. Amendment Requiring a Conformity Determination and a New Regional Emissions Analysis

Administrative Modification Criteria and Delegated Authority

In August 2011, Caltrans delegated authority to SACOG to unilaterally approve administrative modifications to the MTIP and FSTIP. No further approval from the state or federal government is required for administrative modifications.

In December 2019, FHWA, FTA, and Caltrans agreed on revised administrative modification/amendment procedures to clarify what types of changes and what threshold of changes qualify as an administrative modification and which qualify as requiring an amendment.

Project Selection in the MTIP

Project Selection as Interpreted by Federal Regulations

The federal regulations (23 CFR 450.332) require that SACOG describe how it chooses which programmed projects will be “selected,” which means “delivered” or “obligated.” In other words, we must document how we decide which projects will start federally reimbursed work. “Project selection,” as termed in federal regulations, does not apply to how projects are selected to receive transportation funds.

SACOG treats the entire MTIP as a list of programmed projects that may be delivered in any year of the MTIP. Per federal regulations, all projects in the first year of the MTIP constitute an “agreed to” list of projects for project selection purposes and no further project selection action is required for the implementing agency to proceed with projects. Projects in the current year have priority for a period of time early in the federal fiscal year before we open delivery to projects from the second, third, and fourth years of the MTIP.

At the beginning of each federal fiscal year SACOG adopts a Delivery Plan Process that lays out how the procedures for the upcoming year. No further selection action is necessary.

Expedited Project Selection Procedures

All federal funds may be delivered within the four-year period of the 2023 MTIP without necessitating an amendment to the MTIP. Federal regulations allow for the movement of projects (advancing and delaying) within the four-year period of the MTIP and FSTIP subject to procedures agreed to by partnering agencies, including the State and transit operators within the region. SACOG, as the MPO for the six-county Sacramento Region, has a process in place that is consistent with the Expedited Project Selection Procedures (EPSP) outlined in 23 CFR 450.332.¹⁶

SACOG also acknowledges that any advancement or delay of projects within the four-year element of the MTIP through the EPSP will not invalidate the financial constraint of the MTIP.

Financial Constraint

The MTIP must be financially constrained, meaning that the amount of funding programmed must not exceed the amount of funding estimated to be reasonably available. This constraint requirement applies to each of the four program years. In developing the 2023 MTIP, SACOG has taken into consideration the transportation funding revenues expected to be available during the four years of the MTIP (FFY 2021 through 2024) and has found the 2023 MTIP to be financially constrained by program and by year.

The MTIP shall include a project, or an identified phase of a project, only if full funding can reasonably be anticipated to be available for the project within the time period contemplated for completion of the project. Because the SACOG region is an air quality non-attainment area, only projects with committed or identified funding may be programmed in the first two years of the MTIP. The last two years of programming must be reasonably available.¹⁷

Fiscal constraint requirements encompass both the operation and maintenance of capital projects in the MTIP and the estimated costs of maintaining and operating the transportation system. The framework of both SACOG's 2020 MTP/SCS and the 2023 MTIP meet this requirement.

The 2023 MTIP is mostly a compilation of previously programmed projects, reflecting previous programming actions by SACOG, PCTPA, or EDCTC. The 2023 MTIP includes projects approved and funded by transportation agency partners. The 2023 MTIP also includes available state funds, including Senate Bill 1, Proposition 1B, and State Transportation Improvement Program (STIP) funds, utilizing the latest fund estimates released by the State.

SACOG continuously monitors developments in funding programs and the funding needs of transportation projects, as reflected by the MTIP project listing. Any significant changes will be reviewed by SACOG and its transportation partners; and, if needed, SACOG will take appropriate actions, such as a MTIP amendment, to maintain the financial constraint state of the MTIP.

Targets for Delivering Transportation Funds

Delivering transportation projects within the estimated cost, scope, and schedule has been one of the key issues in state transportation policy for many years. Most notably, SB 45—Kopp (Chapter 622, Statutes 1997) and AB 1012—Torlakson (Chapter 783, Statutes of 1999) established penalties for not delivering projects funded with STIP, STBGP/RSTP, or CMAQ funds within certain prescribed deadlines.

SB 45 and AB 1012 give regions, counties, and sponsors incentives to deliver projects more quickly by creating negative consequences—projects stand to lose their funding if not delivered according to schedule. Under AB 1012, regions must obligate STBGP/RSTP and CMAQ funds apportioned to them within three years, or the state will redirect the funding to other projects. SB 45 established a complex series of project delivery deadlines for projects in the STIP. If these deadlines are not met, the funds are redirected to other projects, in some cases, outside of the SACOG Region.

The SACOG Region continues to maintain an excellent project delivery record. This outstanding delivery record is due to the hard work of project sponsors, Caltrans Local Assistance, SACOG's education and coordination efforts, and our regional delivery policies. SACOG staff constantly monitor this process to maintain the region's delivery record and to ensure that the maximum amount of federal funds continue to flow into the region. This monitoring includes responding to increased scrutiny for federal and state funding deadlines, the current economic environment, and anticipating future federal and state policies regarding the availability of transportation funding.

1. **Federal Requirements (IIJA)** – STBGP/RSTP and CMAQ funds (among other programs) must be obligated within 4 years of apportionment. The state loses those funds not obligated to FHWA.
2. **State Requirements (AB 1012)** – STBGP/RSTP and CMAQ funds must be obligated within 3 years of apportionment. The region loses those funds not obligated to the state.

Title VI Compliance

It is SACOG's policy to comply with state and federal laws and regulations including Title VI of the Civil Rights Act of 1964, Americans with Disabilities Act of 1990 (ADA)¹⁸ and other federal discrimination laws and regulations, as well as the Unruh Civil Rights Act of 1959¹⁹, the California Fair Employment and Housing Act (FEHA)²⁰, and other California State discrimination laws and regulations. SACOG does not discriminate on the basis of race, color, sex, creed, religion, national origin, age, marital status, ancestry,

medical condition, disability, sexual orientation, or gender identity in conducting its business. SACOG prohibits discrimination by its employees, contractors, and consultants.²¹

Investments made in the MTIP must be consistent with Title VI and must support Environmental Justice. Title VI prohibits discrimination on the basis of race, color, income, and national origin in programs and activities receiving federal financial assistance. Similarly, Environmental Justice is defined by EPA as “the fair treatment and meaningful involvement of all people, regardless of race, color, sex, national origin, or income, with respect to the development, implementation and enforcement of environmental laws, regulations, and policies.” Public outreach to and involvement of individuals in low income and minority communities covered under Title VI, are critical to regional planning and programming decisions. The fundamental principles of environmental justice include:

1. Avoiding, minimizing or mitigating disproportionately high and adverse health or environmental effects on minority and low-income populations;
2. Ensuring full and fair participation by all potentially affected communities in the transportation decision-making process; and
3. Preventing the denial, reduction or significant delay in the receipt of benefits by environmental justice populations and low-income communities.

Environmental Justice in the Development of the MTIP

Projects selected for inclusion in the MTIP are consistent with the 2020 MTP/SCS as required by federal law. The decision process for projects included in SACOG’s MTIP considers Title VI and Environmental Justice requirements. As part of the development of the 2020 MTP/SCS, SACOG conducted a rigorous Environmental Justice and Title VI Analysis.²² SACOG also engaged in a rigorous Communications and Outreach²³ process. Key outreach efforts included:

4. Eight public workshops on policy choices related to the MTP/SCS.
5. An on-line survey that reduced the barrier of having to attend in person to participate.
6. An Equity Working Group was established to gather feedback on the methodology for the Environmental Justice Analysis in the plan and outreach strategies, particularly in low-income communities and communities of color.
7. Implementing outreach best practices that resonate with the target community, reduce barriers for engagement, and are clear and transparent with outreach intentions and how the community’s input will be used. The public workshops conducted were heavily focused on being in locations where traditionally underrepresented residents faced fewer barriers to participation; and employed non-traditional engagement, such as tactical engagement and storytelling.

Environmental Justice in the Federal Funding Selection Process

Additionally, as part of the SACOG process for selecting projects to receive federal funds, applicants must formally describe in writing their agency’s efforts to address and account for environmental justice at a project level. Specifically, applicants must describe the kind of outreach to the community and to other stakeholders that they have or plan to undertake. Applicants must identify if low-income or minority members of the community are given an opportunity to fully participate in the outreach. Finally, applicants must evaluate the benefits and burdens of the project with regard to low income and minority members of the community.

System Preservation, Operation, and Maintenance Costs

As mentioned above, the MTIP must be financially constrained, meaning that the amount of funding programmed must not exceed the amount of funding estimated to be reasonably available. Included in this is the requirement that the MTIP demonstrate that the region's federally supported facilities are being adequately operated and maintained. The frameworks of both SACOG's current 2020 MTP/SCS and 2023 MTIP account for the expenditures and costs of system preservation, operations, and maintenance.

Past Spending on Local Street Pavement

From 2018 to 2021, local governments in the SACOG region spent an average of \$397.6 million per year on road maintenance and reconstruction for the region's more than 20,000 lane miles of city and county roads. The level of investment in maintenance and reconstruction fluctuated drastically from year to year, peaking to \$441.7 million in 2020.²⁴

The *California Statewide Local Streets and Roads Needs Assessment* (Assessment) is a biannual report that details the conditions of the streets and roads in the state²⁵. The Assessment is the result of work by a coalition of transportation and local government groups, including the California State Association of Counties, League of California Cities, County Engineers Association of California, Los Angeles County, California Regional Transportation Planning Agencies, and the California Rural Counties Task Force. The assessment ranks road conditions using a Pavement Condition Index (PCI) with values of zero (failed condition) to 100 (good to excellent condition). The latest update in 2020 ranks the average condition of the state's local streets and roads in the "at risk" category with a score of 66. Table 1 below, **PCI and Needs by County**, shows the PCI scores, number of lane miles, and total 10-year maintenance and rehabilitation need as identified in the *Assessment* for the six counties in the SACOG region. The total need for the region equates to roughly over \$670 million annually over the next 10 years, a 28% increase over the projected 10-year need costs from the 2018 Assessment. Compared to current expenditures, there is a \$277.2 million-dollar annual gap in funding for road maintenance and rehabilitation.

Table 1. Pavement Index Score (PCI) and Needs by County

(in millions of 2021 dollars)

County	2018 PCI	2020 PCI	% Change	Lane Miles	10-Year Need
El Dorado	63	63	0%	2,684	\$627
Placer	64	67	+4.7%	4,322	\$967
Sacramento	60	58	-3.3%	10,961	\$3,348
Sutter	69	59	-14.5%	2,079	\$486
Yolo	58	57	-1.7%	2,696	\$817
Yuba	66	67	+1.5%	1,504	\$503
Region				24,246	\$6,748

The resources available for road maintenance and rehabilitation are not keeping pace with escalating costs. Preventive maintenance is necessary for controlling long-term costs, but the funds available for maintenance are the local shares of the gas tax, sales tax funds, and local general funds, which may not be adequate to maintain these facilities.

Maintenance and rehabilitation accounted for about 81% of the typical local road expenditures from 2018 to 2021. Generally, federal and state funds are not available to assist with routine maintenance.

However, for more extensive work, such as rehabilitation and reconstruction, SACOG uses federal and state funds to help local governments bring these roads back to a good state of repair.

In the last decade, local road conditions in the SACOG region have declined. Between 2010 and 2020, roadway conditions dropped from an average pavement condition index score of 67 to a score closer to 61.

Chart 3. Local Streets and Roads Pavement Conditions, SACOG Counties, 2008-2020

Maintaining Our Transportation System is Critical

The current 2020 MTP/SCS prioritizes preservation of the existing transportation system when making investment decisions with revenues that can be used for maintenance and rehabilitation purposes. In 2017, California instituted State Senate Bill 1 (SB 1), providing more than \$100 million annually to the region in a much-needed influx of funding to help fix and maintain the state's road, highway, and transit systems. The 2020 MTP/SCS identifies long-term funding strategies including mileage-based user fees and tolling to help make up much of the gap between our region's needs and current sources of revenue. Cities and counties throughout the region are looking to local option sales taxes, loans backed by future SB 1 funding, or allocations from general funds as potential sources of funding to supplement transportation budgets. The new federal transportation bill, the Infrastructure Investment and Jobs Act (IIJA), also includes increased funding for repairing and maintaining bridges, transit systems, and other infrastructure.

Performance Based Planning: How the MTIP Addresses It

Background

Federal rules require that the MTIP “be designed such that once implemented, it makes progress toward achieving the performance targets established under § 450.306(d).” Also, the MTIP “shall include, to the maximum extent practicable, a description of the anticipated effect of the MTIP toward achieving the performance targets identified in the MTP, linking investment priorities to those performance targets.”²⁶

The Moving Ahead for Progress in the 21st Century Act (MAP-21, 2012) established requirements for MPOs to coordinate with transit providers, set performance targets, and integrate those performance targets and performance plans into their planning documents by certain dates. The most recent federal transportation act, IIJA, carries forward the Performance Based Planning. Beginning in 2018, federal rules required that state departments of transportation and MPOs implement federal performance measures. In response, FHWA and FTA worked with state and regional agencies to identify performance measures that meet the requirements.

In California, Caltrans is directly responsible for submitting performance targets and periodic progress reports to federal agencies on an annual basis. MPOs are required to establish targets for the same performance measures on all public roads in the MPO planning area within 180 days after the state establishes each target. MPOs may elect to support the statewide targets, establish numerical targets specific to their region, or use a combination of both approaches. Furthermore, each MPO must incorporate these short-range targets into their planning and programming processes, including long-range plan and MTIP.

Part 1: Performance Measure Targets

FHWA Performance Measures

The federal performance measures defined by the Federal Highway Administration (FHWA) are categorized into three performance management (PM) focus areas. Each focus area includes an associated set of metrics for which statewide and regional targets must be set.

PM 1: Transportation Safety

Motor Vehicle Collisions

- Number of motor vehicle collision fatalities
- Rate of motor vehicle collision fatalities per 100 million VMT
- Number of motor vehicle collision serious injuries
- Rate of motor vehicle collision serious injuries per 100 million VMT

Non-Motorized Fatalities and Serious Injuries

- Number of non-motorized fatalities and serious injuries

PM 2: National Highway System (NHS) Pavement and Bridge Condition

NHS Pavement Condition

- Percentage of Interstate System pavement in ‘good’ condition
- Percentage of non-interstate NHS pavement in ‘good’ condition
- Percentage of Interstate System pavement in ‘poor’ condition

- Percentage of non-interstate NHS pavement in 'poor' condition

NHS Bridge Condition

- Percentage of NHS bridges in 'good' condition
- Percentage of NHS bridges in 'poor' condition

PM 3: NHS Performance, Interstate System Freight Movement, and CMAQ Program Performance

NHS Performance

- Percent of Interstate System mileage reporting reliable person-mile travel times
- Percent of non-interstate NHS mileage reporting reliable person-mile travel times

Interstate Freight Movement

- Percent of Interstate system mileage reporting reliable truck travel times

CMAQ Program Performance

- Annual hours of peak-hour excessive delay per capita
- Total emissions reduction by criteria pollutant (PM10, PM2.5, Ozone, CO)
- Percent of non-single occupancy vehicle (SOV) travel

FTA Performance Measures

In addition to the three PM focus areas defined by FHWA, the Federal Transit Administration (FTA) established performance measures and reporting requirements for transit asset management (TAM) and transit safety.

Performance metrics for TAM focus on the maintenance of our regional transit system in a state of good repair. Transit safety performance monitoring is focused on assessment of the number of transit incidents resulting in fatalities or serious injuries and transit system reliability.

FTA issued the TAM Final Rule (49 CFR §625 et seq.), effective October 1, 2016, to implement MAP-21 transit asset management provisions. This final rule mandates a National TAM System, defines 'State of Good Repair' (SGR), and requires transit providers to develop TAM plans. The Metropolitan Transportation Planning Final Rule (23 CFR §450.206) outlines the timelines and processes by which states, MPOs, and transit providers must coordinate in the target setting process.

The FTA PM focus areas and associated metrics are as follows:

Transit Asset Management (TAM)

- Equipment: Share of non-revenue vehicles that meet or exceed useful life benchmark
- Rolling Stock: Share of revenue vehicles that meet or exceed useful life benchmark
- Infrastructure: Share of track segments with performance restrictions
- Facilities: Share of transit assets with condition rating below 3.0 on FTA Transit Economic Requirements Model (TERM) scale²⁷

Transit Safety

- Number of transit-related fatalities
- Number of transit-related injuries
- Number of transit system safety events
- Transit system reliability

Public Transit Agency Safety Plan

On July 19, 2018, the FTA published the Public Transportation Agency Safety Plan (PTASP) Final Rule (49 CFR §673.15) regulating how Chapter 53 grantees would have to implement federally mandated safety

standards. The rule's effective date was July 19, 2019, and the compliance date was initially set for July 20, 2020. Considering the extraordinary operational challenges presented by the COVID-19 public health emergency, FTA issued a Notice of Enforcement Discretion effectively extending the PTASP compliance deadline from July 20, 2020, to December 31, 2020. The MPO's initial transit safety targets are to be set within 180 days of receipt of the safety performance targets from the transit agencies. The MPO then revisits its targets based on the schedule for preparation of its system performance report that is part of the MTP. The first MTP or MTIP update or amendment to be approved on or after July 20, 2021, is required to include the MPO's transit safety targets. See FTA's COVID-19 FAQs page for more information about the Notice.²⁸

The final rule specifically requires transit agencies receiving federal funds to develop a safety plan and annually self-certify compliance with that plan. The National Public Transportation Safety Plan identifies four performance measures that must be included in the transit agency safety plans: number of fatalities, number of injuries, safety events, and system reliability. Each transit agency must make its safety performance targets available to MPOs to assist in the planning process and to coordinate, to the maximum extent practicable, with the MPO in selecting regional transit safety targets.

How SACOG Addresses Each Performance Management Group

Below are the targets associated with each performance measure for SACOG.

TRANSPORTATION SYSTEM SAFETY (PM 1)

Table 1 – Safety Performance Management (PM 1): Fatalities and Injuries

Performance Measure	Data Source	5-Yr. Rolling Average Target for 2022	Percent Change for 2022
Number of Fatalities	FARS	3,491.8	-3.61%
Rate of Fatalities (per 100M VMT)	FARS & HPMS	1.042	-2.00%
Number of Serious Injuries	SWITRS	16,704.2	1.66%
Rate of Serious Injuries (per 100M VMT)	SWITRS & HPMS	4.879	1.66%
Number of Non-Motorized Fatalities and Non-Motorized Severe Injuries	FARS & SWITRS	4,684.4	-3.61% for Fatalities and 1.66% for Serious Injuries

Note: The targets shaded gray are set in coordination with Office of Traffic Safety (OTS).

SACOG has elected to support the state targets for PM 1 rather than establishing region-specific numerical targets. Safety is integral to our planning and programming process. Specifically, we begin most transportation planning efforts with a preliminary analysis of the challenges facing the transportation system within the project area. This ongoing effort continually identifies new issues and feeds them into the planning process. For instance, SACOG or a sponsor in the region may initiate a corridor study or project study report that provides details on the types of challenges and system deficiencies found in a portion of the region. Within such a report, the sponsor will set out a goal to improve overall transportation safety along the corridor. Data analyses focus on identifying intersections, accident information, or existing design features that can benefit from the safety

enhancements. This is then followed by more detailed investigation of the types of strategies that can be used to reduce the number and severity of accidents.

Cumulatively, these planning studies suggest strategies and recommend capital projects for the long-range MTP/SCS and the MTIP. For example, SACOG's Unmet Transit Needs process provides the public opportunities to raise any safety and security issues on public transit.

NATIONAL HIGHWAY SYSTEM PAVEMENT AND BRIDGE CONDITION (PM 2)

Maintaining our mobility assets in a cost-effective manner is critical to reducing long-term costs for pavement and bridge rehabilitation. The statewide targets for infrastructure condition supported by SACOG include the following 2-year and 4-year targets to maintain interstate, non-interstate and bridges on the National Highway System (NHS) by a percentage of maintained lane miles as shown below.

PM 2: NATIONAL HIGHWAY SYSTEM PAVEMENT AND BRIDGE CONDITION (4-year NHS Targets, 1/1/2020 to 12/31/2021)		Values
Percentage of Interstate System pavement in 'Good' condition		44.5%
Percentage of non-interstate NHS pavement in 'Good' condition		22.9%
Percentage of Interstate System pavement in 'Poor' condition		3.8%
Percentage of non-interstate NHS pavement in 'Poor' condition		7.2%
Percentage of NHS bridges in 'Good' condition		70.5%
Percentage of NHS bridges in 'Poor' condition		4.4%

PM 3: NHS Performance, Interstate System Freight Movement, and CMAQ Program Performance

PM 3 - NHS Performance, Interstate System Freight Movement, and CMAQ Program Performance	
Performance Measure	Target
NHS Performance	
Percent of Interstate System mileage reporting reliable person-mile travel times	66%
Percent of non-Interstate NHS mileage reporting reliable person-mile travel times	74%
Interstate Freight Movement	

Percent of Interstate system mileage reporting reliable truck travel times	1.67%
CMAQ Program Performance	
Annual hours of peak-hour excessive delay per capita	14.70%
Total emissions reduction by criteria pollutant (PM10, PM2.5, Ozone, CO)	13162.01
Percent of non-single occupancy vehicle (SOV) travel	24%

TRANSIT ASSET MANAGEMENT

FTA defines transit asset management (TAM) as “the strategic and systematic practice of procuring, operating, inspecting, maintaining, rehabilitating, and replacing transit capital assets to manage their performance, risks, and costs over their life cycles for the purpose of providing safe, cost-effective, and reliable public transportation.”

The TAM targets below were produced collaboratively with regional transit agencies based on their agency TAM plans and local targets. In developing the targets, SACOG reviewed and considered the transit operators’ TAM plans (including identified goals, objectives, measures, and targets), thereby incorporating them into the metropolitan planning process.

We will continue to work with the region’s transit operators and county transportation commissions to seek ways to improve the methodology, data collection and analysis for future RTP updates, and to continue engaging in a regional discussion about transit state of good repair and the need for additional funding.

This section presents the TAM performance measures and targets adopted by transit operator. The table below provides a summary of the performance measures designated as TAM.

<i>Transit Asset Management Performance Measures</i>		
Asset Category	Performance Measurement	Asset Class Examples
Rolling Stock - (revenue service vehicles) (Age)	Percentage of revenue vehicles within a particular asset class that have met or exceeded useful life benchmark (ULB).	40-foot bus, 60-foot bus, vans, automobiles, locomotives, rail vehicles
Equipment – (non-revenue) service vehicles (Age)	Percentage of vehicles that have met or exceeded their ULB.	Cranes, prime movers, vehicle lifts, tow trucks, vans, automobiles
Infrastructure-rail fixed-guideway track, signals, and systems (Condition)	Percentage of track segments, signal, and systems with performance restrictions.	Signal or relay house, interlockings, catenary, mechanical, electrical and IT systems

Stations/Facilities (Condition)	Percentage of facilities within an asset class, rated below 3 on the <u>Transit Economic Requirements</u> <u>Model</u> scale.	Stations, depots, administration, parking garages, terminals, shelters
------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------

Targets are the threshold for the maximum percentage of assets at or exceeding acceptable standards. In most cases for the 2017-19 target-setting process, providers set targets that are approximately equivalent to their current performance. In future years, staff will work with the providers of public transportation to collate performance.

Transit Asset Management (TAM) Targets				
Reporting Entity	Rolling Stock	Equipment	Facilities	Infrastructure
	(Pct of revenue vehicles > ULB)	(Pct of non-revenue vehicles > ULB)	(Pct of facilities < TERM scale 3)	(Pct of track segments with restrictions)

Part 2: How the MTIP Makes Progress Toward PM Targets

SACOG has designed the MTIP so that, once implemented, it will make progress toward achieving these federal performance targets. SACOG, Caltrans, the California Transportation Commission, FHWA, FTA, Congress, project sponsors, and transit operators have all selected projects for funding that advance the region's goals. Below we review the performance target categories, the strategies for addressing these targets, and the associated investments.

PM 1 Investments

Many of the projects programmed in the FTIP improve safety. For some, safety is the primary aim, and for others, safety may be a component.

The MTIP contains projects funded within three programs dedicated to improving safety:

1. Active Transportation Program (ATP)
2. Highway Safety Improvement Program (HSIP)
3. State Highway Operations and Protection Program (SHOPP) Collision Reduction

ATP

The ATP is used to fund bicycle and/or pedestrian projects. Since people are more vulnerable while walking or biking as compared to traveling in a vehicle, any project that helps them do so is likely to yield safety benefits. The ATP further emphasizes safety by allotting points for projects applications that promise to reduce the rate or number of pedestrian and bicyclist fatalities and injuries.

Both SACOG and the California Transportation Commission participate in setting the selection criteria for funding projects through ATP. Both agencies make addressing safety a priority.

HSIP

The HSIP directly addresses safety. The program's stated purpose is to "achieve a significant reduction in traffic fatalities and serious injuries on all public roads, including non-State-owned public roads and roads on tribal land." Successful project applications promise to reduce fatalities and injuries. The program is designed to focus local efforts on locations/corridors with the greatest safety needs and countermeasures with lower costs.

Caltrans Local Assistance, with input from an advisory committee, sets the selection criteria for funding projects through HSIP.

SHOPP Collision Reduction

The SHOPP is the State Highway System's "fix-it-first" program that funds repairs and preservation, emergency repairs, safety improvements, and some highway operational improvements on the State Highway System (SHS). All SHOPP projects are limited to capital improvements that do not add capacity (no new highway lanes) to the SHS, though some new auxiliary lanes are eligible for SHOPP funding. The Collision Reduction category is one of eight categories that make up the SHOPP, with the intention

to reduce the number or severity of collisions; within this category are two programs:

1. 201.010 - Safety Improvements: reactive approach based on analysis of collision history
2. 201.015 - Collision Severity Reduction: proactive approach targeted to reduce the potential for traffic collisions based on past performance of roadway characteristics

201.010 – Safety Improvements

This program is designed to reduce the number or severity of collisions on the State Highway System. Projects with a safety index above 200 qualify as safety improvement projects. Projects may be individual locations where the collision history indicates a pattern potentially correctable by a safety improvement, such as unsafe traffic (school zone signals included), wet pavement corrections, curve corrections, shoulder widening, left-turn channelization, etc. All proposed projects will be verified by HQ Office of Traffic Safety Programs in the Division of Traffic Operations before being certified as safety improvement projects.

This task also includes sites identified in monitoring programs to reduce collisions for motorists, such as for wrong-way collisions, multilane, cross-median collisions, two-and three-lane cross center-line collisions and run-off-the-road collisions. It also includes non-motorized modes, such as pedestrian and bicycle facilities.

It does not include relocating existing highways or projects that would add new through lanes or upgrade existing highways to a higher classification, such as conventional to expressway, regardless of the safety benefits. This task does not include projects where the prime purpose is reducing congestion.

Improving a highway, generally on existing alignment, to improve standards of width, grade, alignment or other geometric consideration is new highway construction that is included in STIP programs.

201.015 - Collision Severity Reduction

This program seeks to upgrade existing highway safety features within the roadbed's clear recovery area, resulting in reduced collisions and/or severity. Projects will include new guardrail end treatments and crash cushions, rumble strips, glare screen, rock fall mitigation, overcrossing pedestrian fencing, crosswalk safety enhancements, and improvements that prevent roadway departure.

The program is designed to be proactive in enhancing safety on the State Highway System. As such, this program will not be subject to a safety index analysis but will define projected collision severity reduction numerically. Projects will be prioritized based on the projected collision severity reduction benefits.

2022 SHOPP Collision Reduction Numbers (Statewide)

A total of 733 projects are included in the 2022 SHOPP that was adopted by the CTC in March 2022. The 2022 SHOPP is valued at \$17.9 billion, which includes reservation amounts for several programs, including the Collision Reduction Program. The SHOPP Collision Reduction Program currently has 116 programmed safety projects totaling \$1,447,532,000. The SHOPP reserves \$1,188,000,000 for the 201.010 Safety Improvement program. The reserved amount will address future safety improvements as they are identified.

Caltrans, with approval from the CTC, sets the selection criteria for funding projects through the SHOPP.

SACOG's Funding Programs

SACOG typically issues a call for projects for its regional funding programs every two years. The guidelines may change from cycle to cycle to reflect the goals and values of a new MTP/SCS, to implement goals of the board, and to respond to the comments from the public and potential applicants.

SACOG's process for how it selects projects for funding with CMAQ, RSTP/STBG, STIP, ATP, and other sources is described on our [Transportation Funding Page](#).²⁹

In spring 2021 we selected projects from our most recent funding round, the competitive Regional and Community Design programs of the 2021 Regional Funding Round. We programmed over \$160 million of CMAQ, RSTP, STIP, CRRSAA, and HIP funding. The 2021 Regional Program, consistent with the 2020 MTP/SCS and the board's direction, makes "Safety and Security" one of the eight performance objectives. Applicants seeking funding based on this performance objective had to provide qualitative narrative information and quantitative data to support their application. SACOG provided a tool, called the Project Performance Assessment (PPA) to collect data on the various objectives.

The intent of the 2021 Community Design Program was to use regional transportation funding to promote the construction of land use developments (or land use and related projects) that lead to fewer vehicle miles traveled and more walking, biking, and transit use. Many Community Design projects may improve safety, such as bicycle and pedestrian facilities and traffic calming. Applicants also had to use the PPA tool. The tool provides the following safety data indicators:

1. **Total Collisions** – number of injury and fatality collisions along the corridor between 2014 and 2018. This metric is applied to show if the facility has a high number of overall collisions.
2. **Collisions Rate** – the five-year TIMS collision average along the facility per 100 million vehicle miles travelled. This metric is applied to show if the facility has a high rate of collisions.
3. **Percent of Fatal Collisions**- the percent of all collisions that result in a fatality. Is used to show collision severity.
4. **Percent Bike/Ped Collisions** – the percent of all collisions that involved a person biking or walking. This metric is applied to show if people biking and walking are involved in collisions.
5. **Collision Heat Map** – This additional map shows collisions in the project area. This map can serve as a visual to where there is a concentrated history of crashes.

Summary of PM 1 MTIP Investments

The table below shows that, of the 437 projects in the MTIP, at least 78 projects are primarily focused on safety. The total cost of those safety projects is \$828 million dollars with \$194 million programmed to be encumbered during the four years of the MTIP, 2023-2026.

And these are just the projects that primarily address safety. While other projects are not primarily about safety, nearly every capital project must take safety into account and usually contributes to safety. For instance, the typical pavement rehabilitation project, at a minimum, repaints lanes and crosswalks, which help with visibility and safety. Rather than take credit for projects that contribute in part to safety, the table below only lists those projects primarily focused on safety.

Summary Table of Safety Programs and Projects

	Number of Projects	Funding in the 4-Year Element	Total Project Cost
Safety Projects	78	\$194,446,126	\$828,375,095
Non-Safety Projects	359	\$1,828,272,784	\$8,609,723,845
Total	437	\$2,022,718,910	\$9,438,098,940

Note: Total Project Cost includes funding that is outside the four years of the MTIP, which includes all prior year project funding and may include future unfunded need stretching as far out as 2040.

Table of Safety Programs by Funding Category

Fund	Number of Projects	% of Projects	Total Project Funding (All Years)	% of Total Project Funding	Funding in the 4-Year Element	% of Funding in the 4-Year Element
ATP	27	35%	\$327,774,756	40%	\$112,370,000	58%
HSIP	22	28%	\$95,733,082	12%	\$21,644,910	11%
SHOPP Collision	17	22%	\$355,504,620	43%	\$33,659,000	17%
Subtotal ATP, HSIP, SHOPP	66	85%	\$779,012,458	94%	\$167,673,910	86%
Safety Projects funded by Other Programs	12	15%	\$49,362,637	6%	\$26,772,216	14%
Total Safety All Programs	78	100%	\$828,375,095	100%	\$194,446,126	100%

Note: Some projects may overlap due to overlapping fund sources. Total cost and number of projects of all safety programs therefore may be larger than the actual total program.

Safety Project Highlights

A significant SHOPP Collision project is the Caltrans SUT-99 Lomo Crossing project (CAL21378) with a total project cost of \$12,310,000, of which \$11 million is programmed in the four years of the MTIP. The project will reduce the number and severity of collisions at the intersection, with a completion year of 2025.

NATIONAL HIGHWAY SYSTEM PAVEMENT AND BRIDGE CONDITION (PM 2)

The four years of the MTIP contains **\$535 million in road rehabilitation and bridge maintenance projects**. These are mostly made up of HBP and SHOPP funding, but the MTIP contains millions of funds from other sources aimed at achieving PM 2 targets.

Local Funds

Cities and counties spend billions each year to maintain local roads and bridges. They derive their funding from a myriad of sources. In a survey of California jurisdictions, for local funds alone, there are more than a hundred different sources of taxes and fees report to be spent on pavement.³⁰ Some examples of local funding sources include:

- Local sales taxes
- Development impact fees
- General funds
- Various assessment districts – lighting, maintenance, flood control, special assessments, community facility districts
- Traffic impact fees
- Traffic safety/circulation fees
- Utilities (e.g., stormwater, water, wastewater enterprise funds)
- Transportation mitigation fees
- Parking and various permit fees
- Flood control districts
- Enterprise funds (solid waste and water)
- Investment earnings
- Parcel/property taxes
- Indian reservation roads
- Indian gaming funds
- Vehicle registration fees
- Vehicle code fines
- Underground impact fees
- Transient occupancy taxes
- Capital Improvement Program (CIP) reserves/capital funds

Local Funds tend to pay for non-regionally significant road maintenance, safety, and bridge projects. Even so, some of the PM 2 projects in the MTIP owe their funding to Local Funds.

State Funds

HUTA

The Highway Users Tax Account (HUTA), more commonly known as the state gas tax, is still the single largest funding source for cities and counties.

SB 1

California doubled down on PM 2 when it approved Senate Bill 1 on April 28, 2017. SB 1 increased several taxes and fees to raise more than \$5 billion annually in new transportation revenues. Moreover, SB 1 provides for inflationary adjustments, so that purchasing power does not diminish as it has in the past. SB 1 prioritizes funding towards maintenance, rehabilitation, and safety improvements on state highways, local streets and roads, and bridges and to improve the state's trade corridors, transit, and active transportation facilities.

Many SB 1 funds are not captured in the MTIP because this document focuses on federally funded and regionally significant projects, while SB 1 is a non-federal fund that tends to pay for non-regionally significant road maintenance, safety, and bridge projects. Even so, some of the PM 2 projects in the MTIP owe their funding to SB 1.

Federal HBP

The Highway Bridge Program (HBP) provides federal aid to local agencies to replace and rehabilitate deficient, locally owned, public highway bridges. In California, the HBP is a state-maintained program that is funded primarily by federal National Highway Performance Program (NHPP) funds. The HBP is intended to remove structural deficiencies from existing local highway bridges to keep the traveling public safe.³¹ The HBP provides about \$288 million annually for bridge projects. Off-system bridges are usually funded at 100% HBP, while on system bridges are funded at 88.53% HBP. An exception to the federal participating rate is "high-cost" bridges, in which sponsors enter into agreements with Caltrans Local Assistance and agree on a federal participating rate which may not equal 100% or 88.53%.

SHOPP

The SHOPP is already described above under PM 1. Two of the eight categories of the SHOPP that address PM 2 are Bridge Preservation and Roadway Preservation.

Although the SHOPP is a program, it is often thought of as a fund source as well. The FTIP lists the fund source for most SHOPP projects as "SHOPP Advance Construction." Caltrans blends funds from HUTA, SB 1, and federal highway funds into SHOPP, and "SHOPP Advance Construction" is a placeholder for what could be federal or state funds.

SHOPP Bridge Preservation

SHOPP Bridge Preservation category includes following programs:

- 201.110 – Bridge Rehabilitation and Replacement
- 201.111 – Bridge Scour Mitigation
- 201.112 – Bridge Rail Replacement and Upgrade
- 201.113 – Bridge Seismic Restoration
- 201.119 – Capital Bridge Preventative Maintenance Program
- 201.322 – Transportation Permit Requirements for Bridges

The 2022 SHOPP has 117 Bridge Preservation projects totaling \$2,422,402,000 which includes future need/contingency dollars. The SHOPP does not have a reservation for Bridge Preservation.

SHOPP Roadway Preservation

SHOPP Roadway Preservation category includes following programs:

- 201.120 – Roadway Rehabilitation
- 201.121 – Pavement Preservation
- 201.122 – Pavement Rehabilitation
- 201.150 – Roadway Protective Betterments
- 201.151 – Drainage System Restoration
- 201.170 – Signs and Lighting Rehabilitation

The 2022 SHOPP has 306 Roadway Preservation projects totaling \$9,874,173,000 which includes future need/contingency dollars. The SHOPP does not have a reservation for Roadway Preservation.

Table of PM2 Projects funded by HBP, SHOPP Bridge Preservation, and SHOPP Roadway Preservation

Category	Number of Projects	% of Projects	Total Project Cost	% of Total Project Cost	Funding in the 4-Year Element	% of Funding in the 4-Year Element
Pavement Condition Projects	50	11%	\$1,511,177,278	16%	\$211,848,028	10%
Bridge Condition Projects	68	16%	\$1,300,928,415	14%	\$323,007,659	16%
Total Pavement and Bridge Condition Projects	118	27%	\$2,812,105,693	30%	\$534,855,687	26%
Non-Pavement and Bridge Condition Projects	319	73%	\$6,625,993,247	70%	\$1,487,863,223	74%
Total FTIP Investments	437	100%	\$9,438,098,940	100%	\$2,022,718,910	100%

SACOG's Funding Programs

SACOG programs also address PM 2 goals. In the 2021 Regional Funding Round we programmed over \$164 million of CMAQ, RSTP, STIP, CRRSAA, and HIP funding. The 2021 Regional Program, consistent with the 2020 MTP/SCS and the board's direction, prioritized Fix-it-First. Applicants seeking funding based on this performance objective had to provide qualitative narrative information and quantitative data to support their application. SACOG provided a tool, called the Project Performance Assessment (PPA) to collect data on how well the project meets the program's objectives.

Furthermore, within the 2021 Regional Program exists the Maintenance & Modernization program category, which was for non-expansion project requests of \$5 million or less that improve the management and condition of existing transportation assets. The following table shows the inputs we collect and the data they measure.

Data Inputs	Data Measure	Data Provided By
<i>Roadway and bike/ped indicators</i>		
Pavement condition	Pavement Condition Index (PCI)	Applicant
Facility use	Average Daily Traffic (ADT)	Applicant
Facility use	Multi modal daily travel volumes	Applicant (optional)
ITS infrastructure age	Age of ITS infrastructure requested for replacement	Applicant (optional)
<i>Transit vehicle replacement indicators</i>		
Useful life	Percent of fleet exceeding FTA's default useful life benchmark	Applicant
Fleet condition	Average vehicle mileage	Applicant

One notable PM 2 project,, Mosquito Rd/South Fork American River Bridge Replacement (ELD19340), with a total cost of \$79,314,000, is funded by the Highway Bridge Program. The current bridge is one lane wide (9 feet), 80 years old, and is in such a bad condition that ambulances and other emergency vehicles are not allowed to use the bridge. See picture below.

Mosquito Bridge²

² Photo Courtesy of Great Bicycle Rides in El Dorado County

PM 3 Investments

The MTIP also contains funding for projects that help the region attain the targets under PM 3.

SHOPP Mobility

The SHOPP Mobility category include following programs:

201.310 – Operational Improvements

201.315 – Transportation Management Systems

201.321 – Weigh Stations & Weigh-In-Motion Facilities

201.310 – Operational Improvements

The primary purpose of this program element is to improve traffic flow on existing State highways by reducing congestion and operational deficiencies at spot locations. Operational improvement projects do not expand the design capacity of the system.

Examples of Operational Improvements projects include, but are not limited to:

- Interchange modifications (but not to accommodate traffic volumes that are significantly larger than the existing facilities were designed for)
- Ramp modifications (acceleration - deceleration/weaving)
- Auxiliary lanes for merging or weaving between adjacent interchanges
- Curve corrections/improve alignment
- Signals and/or intersection improvements
- Two-way left-turn lanes
- Channelization
- Turnouts
- Shoulder widening

201.315 – Transportation Management Systems

The primary purpose of this program element is to improve traffic flow on existing State highways by addressing system-wide congestion through system management techniques. Transportation Management Systems facilitate the real time management of the State highway system by providing accident and incident detection, verification, response, and clearance. These systems provide State highway system status information to travelers.

Examples of Transportation Management System projects include, but are not limited to:

- Traffic sensors
- Changeable message signs
- Close circuit television cameras
- Ramp meters
- Communications systems
- Highway advisory radio
- Traffic signal interconnect projects
- Traffic management systems housed in Transportation Management Centers (TMCs), including the necessary software and hardware (excluding facilities)
- TMC interconnect projects

201.321 – Weigh Stations & Weigh-in-Motion Facilities

The primary purpose of this program element is to provide for Commercial Vehicle Enforcement Facilities (commonly called Weigh Stations) and Weigh-in-Motion (WIM) systems. The Weigh Stations are needed to support the Commercial Vehicle Enforcement Plan; Truck safety, size and weight regulations are enforced by the California Highway Patrol reducing truck related accidents or incidents and protection our highways from premature damage. The WIM sites provide data for federally required data systems and special studies, design and maintenance strategies, size and weight policies, enforcement and planning strategies, and the traffic and truck volumes publications.

The 2022 SHOPP features 65 Mobility projects programmed totaling \$1,748,406,000 which includes future need/contingency dollars. The SHOPP does not have a reservation for Mobility.

SB 1 Trade Corridor Enhancement Program (Including National Highway Freight Program)

The purpose of the Senate Bill 1 (SB 1) Trade Corridor Enhancement Program (TCEP) is to provide funding for infrastructure improvements on federally designated Trade Corridors of National and Regional Significance, on California's portion of the National Highway Freight Network, as identified in California Freight Mobility Plan, and along other corridors that have a high volume of freight movement. The Trade Corridor Enhancement Program will also support the goals of the National Highway Freight Program, the California Freight Mobility Plan, and the guiding principles in the California Sustainable Freight Action Plan.

This statewide, competitive program will provide approximately \$300 million per year in state funding and approximately \$515 million in National Highway Freight Program funds if the federal program continues under the next federal transportation act.

Eligible applicants apply for program funds through the nomination of projects. All projects nominated must be identified in a currently adopted regional transportation plan. The Commission is required to evaluate and select submitted applications based on the following criteria:

- Freight System Factors – Throughput, Velocity, and Reliability
- Transportation System Factors – Safety, Congestion Reduction/Mitigation, Key Transportation Bottleneck Relief, Multi-Modal Strategy, Interregional Benefits, and Advanced Technology
- Community Impact Factors – Air Quality Impact, Community Impact Mitigation, and Economic/Jobs Growth
- The overall need, benefits, and cost of the project
- Project Readiness – ability to complete the project in a timely manner
- Demonstration of the required 30% matching funds
- The leveraging and coordination of funds from multiple sources
- Jointly nominated and/or jointly funded

Truck Travel

Nearly all mobility projects—especially those on freeways—also help truck travel and goods movement. However, some projects are particularly helpful for trucking, such auxiliary lanes, truck climbing lanes, improvements on farm-to-market routes. And some projects are primarily about freight, such as truck rest-stops and freight studies.

CMAQ

The CMAQ program supports improving air quality and relieving congestion. The purpose of the CMAQ program is to fund transportation projects or programs that will contribute to attainment or maintenance of the National Ambient Air Quality Standards (NAAQS) for ozone, carbon monoxide (CO), and particulate matter (both PM10 and PM2.5).

SACOG, in coordination with EDCTC and PCTPA, programs \$24.5 million in CMAQ funds per year. SACOG, EDCTC, and PCTPA program CMAQ through funding rounds to projects that produce cost-effective emission benefits of criteria pollutants, measured in kg/day.

PM 3 Table

Category	# of projects	\$ in 4 years	\$ Total
Interstate Reliability Projects	8	\$0	\$117,850,000
Non-Interstate Reliability Projects	1	\$22,020,000	\$24,630,000
Truck Travel Time Projects	0	\$0	\$0
CMAQ Projects	67	\$409,513,044	\$2,364,940,615
Total PM 3 Projects	76	\$431,533,044	\$2,507,420,615

Transit Asset Management Performance

The MTIP includes funding from multiple FTA sources for projects that support Transit Asset Management. Transit Asset Management category projects may be supported by state, local, and other federal funding sources (e.g., flexible CMAQ and RSTP). The funding and the program of projects in the MTIP will enable our transit operators to achieve their respective transit asset management performance targets. Examples of these projects include rural and urban capital assistance programs; rolling stock acquisition, maintenance, and overhauls; bus fleet rehabilitation and replacement; track and rail yard maintenance and improvements; and maintenance of passenger facilities. Key projects that address Transit Asset Management are:

1. Sac RT, Purchase New Low-Floor Light Rail Vehicles, REG18064: \$12 million in FTA funds and \$23 million SB 1 with a total cost of \$47 million.
2. Unitrans, Unitrans Operating Assistance, UNI10476: \$6.4 million FTA 5307 and \$22 million in local revenues with a total cost of \$28.5 million.

The table below lists the amount of transit asset management programmed in the MTIP.

Category	Number of Projects	Total Project Cost	Funding in the 4-Year Element
Transit Asset Projects	58	\$1,160,490,923	\$223,497,902

Summary of Transit Safety Performance MTIP Investments

The table below shows that the MTIP has \$309 million in projects that address transit safety and/or transit reliability

It can be challenging to distinguish between transit projects primarily for safety/reliability from those that aren't. Nearly every transit project takes safety and or reliability into account and may contribute to safety. For instance, a bus pull-out, which can be mainly for relieving congestion and prioritizing traffic flow, also contributes to passenger safety. Rather than take credit for projects that contribute in part to safety, the table below only lists those projects primarily focused on transit safety and/or transit reliability.

Summary Table of Transit Safety Performance Projects

Category	Number of Projects	% of Projects	Total Project Cost	% of Total Project Cost	Funding in the 4-Year Element	% of Funding in the 4-Year Element
Transit Safety Projects	20	5%	\$309,248,314	3%	\$49,706,125	2%

Note: Total Project Cost includes funding that is outside of the four years of the MTIP, which may include past expended funds and future funding--both funded and unfunded need.

Projects that improve Transit Safety and/or Reliability are funded from a variety of sources, none of which is dedicated solely to improving transit safety and/or reliability. The three largest single sources of funding programmed in the four years of the MTIP are:

1. California Cap and Trade Program (Cap & Trade)
2. FTA 5307
3. Regional Surface Transportation Program/Surface Transportation Block Grant Program (RSTP/STBG)

Transit operators also spend local and state (non-federal) funds toward these performance measures that are not accounted for in the MTIP. Since the MTIP is the programming document for federally funded projects and regionally significant projects, it does not capture the entire picture of project funding for the region.

How to Read the Project Listings

The project listing provides a detailed description for each individual project in the 2023 MTIP. There is only one official project listing, listed in Appendix 6, called the Detailed Project Listing (Individual and Grouped). Nearly every project that is exempt from regional air quality conformity analysis is rolled into a “Grouped Project Listing,” also known as a lump sum.

Both lists contain the following information for each project:

Data Label	Definition
SACOG ID (MTIP #)	A unique number used to identify projects in the MTIP.
Lead Agency	Agency in charge of administering a project.
Project Title	Name or title of the project.
Project Description	Brief description of the project and project location.
Completion Year	The calendar year the project is to be “completed,” that is, open to the public.
County	The county in which the project is located.
EA Number	It is a Caltrans project reference number for federally funded projects.
Exempt Category	Air quality related categories for projects exempt from air quality conformity analysis.
Fiscal Year	The federal fiscal year of revenue/funding. If it says <21, then there are revenues for FFY’s prior to 2021. If it says >24, then there are revenues projected after FFY 2024 (sometimes referred to as “Outer Years”.)
Revenue Source	The funding source.
Phases (3)	The stage of the project for which the specified funds have been programmed. Phases include: 1. Engineering, which includes preliminary engineering, environmental, and final design; 2. Right of way engineering and acquisition, and utility relocation; 3. Construction engineering, construction support, and construction.
Total Cost	Total project funding, including prior and later-year funds.
FFY 2021, ‘22, etc.	Federal Fiscal year. The Federal Fiscal Year (FFY) in the MTIP is from October 1 to September 30 of the following calendar year. The 2023 MTIP covers the four-year period of FFY 2021, FFY 2022, FFY 2023, and FFY 2024. Unlike state fiscal years, FFYs are not represented with a hyphen or a slash but instead as the single year in which the FFY terminates.

SACRAMENTO AREA COUNCIL OF GOVERNMENTS

RESOLUTION NO. XX – 2022

APPROVING THE JOINT CONFORMITY DETERMINATION ON THE 2020 METROPOLITAN TRANSPORTATION PLAN/ SUSTAINABLE COMMUNITIES STRATEGY AMENDMENT #2 (2020 MTP/SCS #2) AND THE 2023 METROPOLITAN TRANSPORTATION IMPROVEMENT PROGRAM (MTIP)

WHEREAS, SACOG, is the designated Metropolitan Planning Organization (MPO) for the Sacramento metropolitan planning area as defined by Section 134(c) of the Federal Highway Act, as well as for the Yuba City-Marysville urbanized area; and

WHEREAS, SACOG and the Secretary of Business, Transportation and Housing have executed memoranda of understanding (MOUs) with both the Placer County Transportation Planning Agency (PCTPA) and the El Dorado County Transportation Commission (EDCTC) which establish a framework of representation for how SACOG will carry out its federal MPO responsibilities in both El Dorado and Placer counties in cooperation and coordination with the agencies and jurisdictions in those areas within the ozone nonattainment area; and

WHEREAS, federal planning regulations require SACOG as an MPO to prepare and adopt a long-range Metropolitan Transportation Plan (MTP) for the region; and

WHEREAS, state law requires SACOG to adopt a Sustainable Communities Strategy (SCS), which SACOG has combined with the MTP; and

WHEREAS, federal planning regulations require SACOG as MPO to prepare and adopt a Metropolitan Transportation Improvement Program (MTIP) for the region; and

WHEREAS, the 2020 MTP/SCS #2 has been prepared to comply with federal and state requirements; and

WHEREAS, the MTIP has been prepared to comply with federal and state requirements; and

WHEREAS, these documents have been developed and reviewed through the public participation process defined in SACOG’s Public Participation Plan; and

WHEREAS, the 2020 MTP/SCS #2, the MTIP, and the corresponding Conformity Analysis are consistent; and

WHEREAS, the MTIP meets all applicable transportation planning requirements pursuant to 23 CFR Part 450; and

WHEREAS, the projects submitted within the MTIP must be financially constrained and the financial plan affirms that funding is available; and

WHEREAS, SACOG has integrated into its metropolitan transportation planning process, directly or by reference, the goals, objectives, performance measures, and targets described in other State transportation plans and transportation processes, as well as any plans developed under 49 U.S.C. Chapter 53 by providers of public transportation, required as part of a performance-based program; and

WHEREAS, the MTIP includes a discussion as to the effect of the programmed investments toward achieving performance targets as required in 23 CFR 450.218(q) and 450.326(d); and

WHEREAS, the 2020 MTP/SCS #2 and the MTIP include a new Conformity Analysis; and

WHEREAS, SACOG must demonstrate conformity pursuant to 40 CFR Part 93 for the 2020 MTP/SCS #2 and MTIP; and

WHEREAS, the 2020 MTP/SCS #2 and the MTIP do not interfere with the timely implementation of the region’s Transportation Control Measures; and

WHEREAS, the 2020 MTP/SCS #2 and the MTIP conform to the applicable State Implementation Plans for air quality; and

WHEREAS, the 2020 MTP/SCS achieved greenhouse gas reduction targets established by the CARB and met the requirements of SB 375; and

WHEREAS, the documents have been widely circulated and reviewed by SACOG advisory committees representing the technical and management staffs of SACOG’s member agencies; representatives of other governmental agencies, including state and federal; representatives of special interest groups; representatives of the private business sector; and residents of the SACOG region consistent with the public participation plan adopted by SACOG; and

WHEREAS, a public hearing was conducted on August 4, 2022, to hear and consider comments on the joint Conformity Determination on the 2020 MTP/SCS #2 and MTIP.

NOW, THEREFORE, BE IT RESOLVED, that SACOG finds the foregoing recitals true and correct and incorporated by this reference.

BE IT FURTHER RESOLVED, that SACOG approves and adopts the joint Conformity Determination on the 2020 MTP/SCS #2 and the MTIP.

BE IT FURTHER RESOLVED, that SACOG finds that the 2020 MTP/SCS #2 and the MTIP are in conformity with the requirements of the Federal Clean Air Act Amendments and applicable State Implementation Plans for air quality.

BE IT FURTHER RESOLVED, that SACOG staff is hereby directed and authorized to work with the California Department of Transportation, the Federal Highway Administration, the Federal Transit Administration, and the U.S. Environmental Protection Agency to make whatever technical changes or corrections are needed to the content, format and organization of the documents to obtain its approval by these agencies.

PASSED AND ADOPTED, this 15th day of September 2022, by the following vote of the Board of Directors:

AYES:

NOES:

ABSTAIN:

ABSENT:

Rick Jennings
Chair

James Corless
Executive Director

**NOTICE OF PUBLIC HEARING
REQUEST FOR COMMENT ON THE ADOPTION OF THE 2023 SACOG MTIP, AMENDMENT #2 TO
THE MTP/SCS, AND AIR QUALITY CONFORMITY ANALYSIS**

The Sacramento Area Council of Governments (SACOG) will hold a public hearing to receive comments on the draft adoption of the 2023 Metropolitan Transportation Improvement Program (MTIP), Amendment #2 to the 2020 Metropolitan Transportation Plan/Sustainable Communities Strategy (2020 MTP/SCS #2), and the accompanying Air Quality Conformity Analysis. We will hold the hearing during the Transportation Committee meeting, which begins at 10:00 a.m., August 4, 2022.

Consistent with California Government Code Section 54953 and Assembly Bill 361, the Transportation Committee, which is a meeting of the Board of Directors, will be held via teleconference and in person. Members of the public are invited to attend in person at SACOG's offices at 1415 L Street, Suite 300, Sacramento, CA 95814, or participate in the meeting over the internet at: <https://sacog.primegov.com/portal/search> Please select the August 4, 2022, Transportation Committee meeting and refer to the posted agenda for how to connect and make comments.

You can download a copy of the documents online at www.sacog.org or by contacting José Luis Cáceres at jcaceres@sacog.org or by phone at 916-340-6218. The public comment period will begin July 14, 2022. For all comments after the August 4 Transportation Committee meeting, please comment in writing to José Luis Cáceres at jcaceres@sacog.org. Comments are welcome through 5:00 p.m., August 12, 2022.

The MTIP is the short-range transportation program for the SACOG region, which includes the counties of Sacramento, Sutter, Yolo, Yuba, and portions of El Dorado and Placer County. The 2020 MTP/SCS is the long-range transportation plan for the SACOG region. The Air Quality Conformity Analysis is a determination on both the MTIP and MTP/SCS #2.

Public notice of public involvement activities and time established for public review and comments on the MTIP will satisfy the POP requirements, as defined in FTA Circular 9030.1E.

Understanding Grouped and Individually Listed Project Reports

Regulatory Background

The MTIP contains individually programmed projects and grouped projects. “Grouped projects” are not called out individually in the MTIP but are gathered into “grouped project listings.” SACOG provides project-level detail for projects that are in grouped project listings. According to federal regulations, some projects must be programmed (i.e., identified) individually, while “Projects that are not considered to be of appropriate scale for individual identification in a given program year may be grouped by function, work type, and/or geographic area using the applicable classifications...” Federal rules also require that grouped projects be exempt for the purposes of air quality conformity and be not regionally significant (23 CFR 250.324.f). The Grouped Project Listing Detail is provided for information and authorization purposes only. According to federal regulations and guidance, grouped projects are not individually programmed, but are actually considered “programmed” as part of their corresponding grouped project listing.

How to Find a Project

In addition to providing a summary, SACOG provides complete detail for individually programmed projects and grouped projects for full disclosure to the public and to project sponsors, as well as for the purposes of project authorization by Caltrans, FHWA, and FTA.

To find a project, consult the Summary in Appendix 5 or the Project Listing in Appendix 6. Projects are sorted as follows:

1. First: Individually Listed Projects (e.g., interchanges and new roads)
These are sorted by county, lead agency, then title.
2. Second: Grouped Project Listings (e.g., road rehabilitation and transit operations)
Here, each grouped project listing is sorted alphabetically by name. Then, under each listing appear projects being revised or added which belong to that grouped project listing. Each project is denoted in red as being a “Sub-Project” of the grouped project listing.

Each individually listed project, grouped project listing, and sub-project from a listing is assigned a project index number to help find that project in the revision.

Why SACOG Groups Projects

SACOG groups small-scale, exempt projects in order to emphasize regionally significant projects and to provide administrative flexibility. By grouping smaller exempt projects, the MTIP conveys that those projects are part of larger, overall efforts by the region to maintain and improve surface transportation through air quality-exempt activities such as transportation studies, road rehabilitation, transit operations, replacement and minor expansion of the transit fleet, safety improvement, and so on. It allows SACOG to demonstrate how a change to a grouped project’s scope, cost, or phasing may be considered a minor change to the grouped project listing as a whole. As a result, FHWA, FTA, and Caltrans afford SACOG greater administrative flexibility to manage the MTIP using administrative modifications.

2023 Metropolitan Transportation Improvement Program

ID	Lead Agency	Title	Description	Cost	Project Index
CAL15881	Caltrans D3	I-5 / SR 113 Connector Phase 2	Phase 2 - Construct northbound I-5 to southbound SR 113 freeway to freeway connection.	\$111,295,137	1
CAL18190	Caltrans D3	US 50 Camino Safety Project ROW	On US 50 near Placerville and Camino, from 0.2 mile west of Still Meadows Road to 0.2 mile east of Upper Carson Road (PM 21.9/24.2): Install median barrier, widen shoulders, construct acceleration/deceleration lane, construct an undercrossing and construct access to the undercrossing from local road. The Camino Safety Project (4E62U) combines US 50 Culvert Rehab and Wildlife Crossing (4H370/CAL20802) and US 50 Camino Safety Project (4E620/CAL18190) for construction. Caltrans is the lead agency for the project. El Dorado County Transportation Division is a participating agency. (HSIP7-03-008). Toll Credits for	\$55,437,620	2
CAL18320	Capitol Corridor JPA	Sacramento to Roseville Third Main Track - Phase 1	On the Union Pacific mainline, from near the Sacramento and Placer County boarder to the Roseville Station area in Placer County: Construct a layover facility, install various Union Pacific Railroad Yard track improvements, required signaling, and construct the most northern eight miles of third mainline track between Sacramento and Roseville (largely all in Placer County), which will allow up to two additional round trips (for a total of three round trips) between Sacramento and Roseville.	\$169,430,000	3
CAL18815	Caltrans D3	SR 70 Passing Lanes - Segments 4 & 5	On SR 70 north of Marysville, from Laurellen Road to Yuba/Butte County line (PM 16.2/25.8): Construct a new continuous passing lane in both directions. The Yuba 70 Segments 4 & 5 project (4F38U) combines SR 70 Safety Improvements - Segments 4 & 5 (4F380/CAL20679) and SR 70 Passing Lanes - Segments 4 & 5 (3F282/CAL18815) for construction.	\$36,000,000	4
CAL18838	Caltrans D3	US 50 HOV Lanes (I-5 to Watt Ave.)	On US 50 in Sacramento County, from I-5 to 0.8 mile east of Watt Avenue (PM L0.2/R6.1): Construct High Occupancy Vehicle (HOV) lanes, widen bridge structures, construct sound walls, incorporate Intelligent Transportation System (ITS) elements into the HOV system, and replace and/or upgrade ancillary facilities including drainage systems, overhead signs, lighting, approach slabs, guard rail, and safety barriers. The US 50 Multimodal Corridor Enhancement project (0H08U) combines the US 50 HOV Lanes project (3F360/CAL18838) and the US 50 Rehab project (0H080/CAL20761) for construction.	\$118,400,000	5

ID	Lead Agency	Title	Description	Cost	Project Index
CAL20466	Caltrans D3	I-5 HOV Lanes - Phase 1	On I-5 in Sacramento County, from US 50 to Morrison Creek (PM 12.9/22.5): Construct High Occupancy Vehicle (HOV) lanes and soundwalls in both directions. The I-5 Corridor Enhancement project (03-0H10U) combines the I-5 HOV Lanes - Phase 1 (03-3C001/CAL20466), I-5 HOV Lanes - Phase 2 (03-3C002/CAL20467), I-5 Road Rehab (03-0H100/CAL20700), I-5 Elk Grove Aux Lane (03-3H570/CAL20777), and the I-5 Fiber Optics (03-4F450/CAL20693) for construction. See 03-3C000 (CAL17840) for PA&ED. . Toll Credits for ENG, ROW	\$40,575,799	6
CAL20467	Caltrans D3	I-5 HOV Lanes - Phase 2	On I-5 in Sacramento County, from just north of Morrison Creek to 1.1 mile south of Elk Grove Blvd. (PM 9.7/13.1): Add High Occupancy Vehicle (HOV) lanes. The I-5 Corridor Enhancement project (03-0H10U) combines the I-5 HOV Lanes - Phase 1 (03-3C001/CAL20466), I-5 HOV Lanes - Phase 2 (03-3C002/CAL20467), I-5 Road Rehab (03-0H100/CAL20700), I-5 Elk Grove Aux Lane (03-3H570/CAL20777), and the I-5 Fiber Optics (03-4F450/CAL20693) for construction. See 03-3C000/CAL17840 for PA&ED.	\$15,000,000	7
CAL20689	Caltrans D3	SR 51 (Capital City) Managed Lanes Project: N St to El Camino Ave	On SR 51, from N Street to 0.5 mile north of El Camino Ave (PM 0.7/4.8): Extend managed lanes, widen the American River Bridge to 10 lanes (4 lanes NB and SB plus managed lane in both directions) and add new Class I bike path on the American River Bridge, new auxiliary lane from Exposition Blvd to E St in both directions, SB auxiliary lane from Arden Way on-ramp to Exposition Blvd off-ramp, replace B St UP, A St OC, and Elvas UP, construct new Capital Corridor 3rd Track UP, widen EB SR 160/SR 51 separation structure, and widen Tribute Rd UC.. Toll Credits for ENG	\$438,740,000	8
CAL20700	Caltrans D3	I-5 Road Rehab	On I-5 in and near the City of Sacramento, from Beach Lake Bridge at Morrison Creek to the American River Bridge #24-0068 (PM 13.0/24.9): Roadway rehabilitation. The I-5 Corridor Enhancement project (03-0H10U) combines the I-5 HOV Lanes - Phase 1 (03-3C001/CAL20466), I-5 HOV Lanes - Phase 2 (03-3C002/CAL20467), I-5 Road Rehab (03-0H100/CAL20700), I-5 Elk Grove Aux Lane (03-3H570/CAL20777), and the I-5 Fiber Optics (03-4F450/CAL20693) for construction.. Toll Credits for ENG, ROW	\$300,600,000	9
CAL21275	Caltrans D3	I-5 Managed Lanes: I-5/US 50 Interchange to Sacramento River	In Sacramento County on I-5 from I-5/US 50 Interchange to Sacramento River: Construct improvements consisting of managed lanes in each direction, auxiliary lanes, and Intelligent Transportation System (ITS) elements. . Toll Credits for ENG, ROW	\$377,810,200	10

ID	Lead Agency	Title	Description	Cost	Project Index
CAL21276	Caltrans D3	I-80 and US 50 Managed Lanes	On I-80 just from the I-80/Kidwell Road interchange in Solano County, through Yolo County, and to the W. El Camino interchange; also on US 50 from the I-80/US 50 interchange to the I-5/US 50 interchange in Sacramento County: Construct improvements consisting of managed lanes in each direction, pedestrian/bicycle facilities, park-n-ride, and Intelligent Transportation System (ITS) elements.. Toll Credits for ENG, ROW, CON	\$465,000,000	11
CAL21372	Caltrans D3	I-5 Corridor Improvement Project – Phase 1 Freight	On I-5 in Sacramento County, from 0.5 mile south of Arena Blvd Interchange to 0.4 mile south of Yolo County line (PM 27.6 /34.3): Construct Intelligent Transportation System infrastructure and the following acceleration, deceleration, and auxiliary lanes: 1.) NB auxiliary lane from Metro Air Parkway On-ramp to Airport Blvd. Off-ramp, 2.) SB auxiliary lane from Airport Blvd. On-ramp to Metro Air Parkway Off-ramp, 3.) SB auxiliary lane from Metro Air Parkway On-ramp to NB SR 99 Off-ramp, 4.) SB auxiliary lane from Arena Blvd. Off-ramp to Arena Blvd. On-ramp, 5.) NB acceleration lane from Airport Blvd. On-ramp to PM 33.5, and 6.) SB auxiliary* lane from Elkhorn Rest Area On-ramp to Airport Blvd. Off-ramp. (Split from CAL21275). Toll Credits for ENG	\$35,750,000	12
ELD15990	El Dorado County	Diamond Springs Pkwy - Phase 1B	Construct new 4-lane divided arterial roadway from Missouri Flat Rd east of Golden Center Dr to a new T-intersection with SR-49 south of Bradley Dr; includes planning, environmental clearance, grading and right of way, required improvements to SR-49 and three new signals. See ELD19348/CIP72375 for Phase 1A and ELD19203/CIP72368 for Phase 2. (CIP72334)	\$33,580,262	13
ELD19180	El Dorado County	US 50/Ponderosa Rd/So. Shingle Rd Interchange Improvements	Interchange Improvements: includes detailed study to identify alternatives and select preferred alternative; widening existing US 50 overcrossing to accommodate 5 lanes, and realignment of WB loop on-ramp, ramp widenings, and widening of Ponderosa Rd, Mother Lode Dr, and So. Shingle Rd; includes PE for all phases; (See ELD19170/CIP71339 and ELD19244/CIP71338). Coordinates with ELD19289/CIP53116, ELD19219/CIP#GP150. Toll Credits for ENG	\$25,391,400	14
ELD19185	City of Placerville	Placerville Dr Bridge Widening	Hangtown Creek Bridge at Placerville Drive, 0.3 mi west of Cold Springs Rd: Replace existing functionally obsolete 2-lane bridge with a new 4-lane bridge.	\$10,423,800	15

ID	Lead Agency	Title	Description	Cost	Project Index
ELD19345	El Dorado County	US 50/El Dorado Hills Blvd Interchange Phase 2B - Eastbound Ramps	Reconstruct eastbound diagonal on-ramp and eastbound loop off-ramp for the ultimate configuration; add a lane to northbound El Dorado Hills Blvd under the overpass (eliminates merge lane and improves traffic flow from the eastbound loop off-ramp); eastbound diagonal on-ramp will be metered and have an HOV bypass. Project split from ELD15630(CIP71323).	\$6,913,484	16
ELD19468	Southeast Connector JPA	Capital SouthEast Connector - E1	In El Dorado Hills, on White Rock Rd between Carson Crossing Dr and Winfield Way: widen from 2 to 4 lanes (Thoroughfare). (To be constructed with Capital SouthEast Connector – D3, SAC24250.)	\$5,200,000	17
ELD19549	El Dorado County Transit	Operating Assistance for Intercity service from Sacramento to South Lake Tahoe	Intercity bus service between Sacramento and South Lake Tahoe	\$250,000	18
PLA15100	City of Roseville	Baseline Road	In Roseville, Baseline Road from Fiddymment Road to Sierra Vista Western edge west of Watt Avenue: Widen from 2 to 4 lanes.	\$12,852,055	19
PLA15105	Placer County	Baseline Road Widening (Phase 1)	Baseline Rd, from City of Roseville to Palladay Road: widen from 2 to 4 lanes	\$19,200,000	20
PLA15270	Placer County	Antelope Road	North Antelope Road, from Sacramento County line to PFE Road: Widen from 2 lanes to 4 lanes.	\$1,892,300	21
PLA15390	Placer County	Sierra College Boulevard (Phase 1)	Sierra College Boulevard, in vicinity of Bickford Ranch Road: widen from 2 to 4 lanes (and signalization).	\$2,280,000	22
PLA15660	City of Roseville	Baseline Rd. Widening	In Roseville, Baseline Rd., from Brady Lane to Fiddymment Road: widen from 3 to 4 lanes.	\$6,106,889	23
PLA15760	City of Roseville	Pleasant Grove Blvd. Widening	In Roseville, Pleasant Grove Blvd., from Foothills Blvd. to Woodcreek Oaks Blvd.: Widen from 4 to 6 lanes.	\$7,000,000	24
PLA15850	City of Roseville	Roseville Road Widening	Widen Roseville Rd. from 2 to 4 lanes Between Cirby Way and southern city limit.	\$2,500,000	25
PLA18390	Placer County	Placer Creek Drive (Phase 1)	Placer Creek Drive (formerly Dyer Lane), from Baseline Road to Town Center Avenue: construct 2 lane road.	\$1,400,000	26
PLA18490	Placer County	PFE Rd. Widening	PFE Rd, from Watt Ave. to Walerga Rd: Widen from 2 to 4 lanes and realign.	\$13,085,000	27
PLA20700	Placer County	Watt Avenue Widening (Phase 1)	Watt Avenue, Sacramento County to Dyer Lane: widen from 2 lanes to 4 lanes.	\$2,600,000	28
PLA25044	Placer County	Sunset Boulevard Widening (Phase 1)	Widen Sunset Boulevard from State Route 65 to Cincinnati Avenue from 2 to 6 lanes. Project includes widening Industrial Blvd / UPRR overcrossing from 2 to 6 lanes.	\$51,250,000	29

ID	Lead Agency	Title	Description	Cost	Project Index
PLA25170	Placer County	Sunset Boulevard Extension (Phase 1)	Sunset Blvd, from Foothills Boulevard to Fiddymment Rd: Construct a 4-lane road	\$12,238,000	30
PLA25299	Placer County	Placer Parkway (Phase 1)	In Placer County: Between SR 65 and Foothills Boulevard; Construct phase 1 of Placer Parkway, including upgrading the SR 65/Whitney Ranch Parkway interchange to include a southbound slip off-ramp, southbound loop on-ramp, northbound loop on-ramp, six-lane bridge over SR 65, and four-lane roadway extension from SR 65 (Whitney Ranch Parkway) to Foothills Boulevard.	\$70,000,000	31
PLA25378	City of Roseville	Santucci Blvd. Extension Ph 1	City of Roseville, Santucci Blvd. (North Watt Ave.): Extend four lanes from Vista Grande Blvd. to Pleasant Grove Blvd.	\$6,500,000	32
PLA25463	Placer County	Baseline Road Widening (Phase 2)	Baseline Road from Palladay Road to Sutter County: widen from 2 to 4 lanes	\$29,000,000	33
PLA25479	Placer County	Placer Vineyards Road (Phase 1)	Placer Vineyards Road (formerly 16th Street), from Sacramento/Placer County line to Baseline Road: Construct new 2-lane road	\$7,890,000	34
PLA25501	City of Roseville	Washington Blvd/Andora Undercrossing Improvement Project	In Roseville, widen Washington Blvd from 2 to 4 lanes, including widening the Andora Underpass under the UPRR tracks, between Sawtell Rd and just south of Pleasant Grove Blvd.	\$29,300,000	35
PLA25529	PCTPA	SR 65 Capacity & Operational Improvements Phase 1	SR 65, from Galleria Blvd. to Lincoln Blvd., make capacity and operational improvements. Phase 1: From Blue Oaks Blvd. to Galleria Blvd., construct third lane and HOV/transit priority lane on southbound SR 65, and an auxiliary lane from Pleasant Grove Blvd. to Galleria Blvd. on southbound SR 65, including widening Galleria Blvd. southbound off-ramp to two lanes.. Toll Credits for ENG	\$31,060,000	36
PLA25535	Placer County	Watt Ave. Bridge Replacement	Watt Ave./Center Joint Ave., over Dry Creek, 0.4 mi north of P.F.E. Rd.: Replace existing 2 lane bridge with a 4 lane bridge.. Toll Credits for CON	\$28,872,721	37
PLA25538	City of Roseville	Vista Grande Arterial	In Roseville, from Fiddymment Rd west to Westbrook Blvd, construct new 4-lane arterial.	\$6,500,000	38
PLA25539	City of Roseville	Blue Oaks Blvd. Extension Phase 2	In Roseville, Blue Oaks Blvd., from Westbrook Dr. to Santucci Blvd. (formerly Watt Ave.), extend 2 lanes.	\$6,350,000	39
PLA25576	PCTPA	I-80 Eastbound Auxiliary Lane and I-80 Westbound 5th Lane	In Roseville and Rocklin: Between SR 65 and Rocklin Rd. on eastbound I-80, and east of Douglas Blvd. to west of Riverside Ave. on westbound I-80. Construct eastbound I-80 auxiliary lane, including two-lane off-ramp to Rocklin Rd, and construct 5th lane on westbound I-80, including reducing Douglas Boulevard off-ramp from 2-lanes to 1-lane. (PCTPA is applying for \$26.13 m SB1 discretionary funding.). Toll Credits for ENG, ROW	\$42,261,623	40
PLA25598	Placer County	SR 49 Widening A	SR 49, from Bell Road to Locksley Lane: Widen from 4 lanes to 6 lanes.	\$8,350,650	41

ID	Lead Agency	Title	Description	Cost	Project Index
PLA25649	PCTPA	I-80/SR 65 Interchange Improvements Phase 2	In Placer County: Between Douglas Blvd. and Rocklin Road; Reconfigure I-80/SR 65 interchange to widen southbound to eastbound ramp from 1 to 2 lanes, widen southbound to westbound ramp from 2 to 3 lanes, widen westbound to northbound ramp from 1 to 2 lanes, and replace existing eastbound to northbound loop ramp with a new 3 lane direct flyover ramp (including full middle structure for East Roseville Viaduct), construct collector-distributor roadway parallel to eastbound I-80 between Eureka Road off-ramp and SR 65, and widen Taylor Road from 2 to 4 lanes between Roseville Parkway and Pacific Street.	\$591,500,000	42
PLA25677	City of Lincoln	Lincoln Blvd Streetscape Improvement Project Phase 4	The overall goal of the Lincoln Boulevard Streetscape Improvement Project is to provide for a more pedestrian, bicycle, and neighborhood Electric Vehicles (NEV) friendly environment along and across the main street through the City. This will be accomplished by closing gaps between and improving existing sidewalks, upgrading and shortening pedestrian crossings with curb bulb outs and ADA compliant pedestrian ramps, and installing combined Class 2 bike lanes and NEV lanes along Lincoln Boulevard. This project will continue the streetscape improvements to construct improved sidewalks, curb bulb outs, curb ramps, and traffic signal improvements on Lincoln Boulevard between 1st Street and 2nd Street and at the intersections of Lincoln Boulevard at 7th Street.	\$1,614,734	43
PLA25680	City of Roseville	Roseville Parkway Widening	In Roseville, on Roseville Parkway, widen from 6 to 8 lanes from just east of Creekside Ridge Drive to Gibson Drive (E).	\$11,200,000	44
PLA25681	City of Roseville	Blue Oaks Blvd Bridge Widening	In Roseville, on Blue Oaks Blvd between Washington Blvd and Foothills Boulevard, widen from 4 to 8 lanes, including Bridge over Industrial Ave./UPRR tracks.	\$23,000,000	45
PLA25682	City of Roseville	Roseville Parkway Extension	In Roseville, extend 4-lane Roseville Parkway approx. 3,750' from Washington Blvd. to Foothills Blvd., including new 4-lane bridge over Industrial Ave./UPRR tracks	\$22,500,000	46
PLA25687	City of Lincoln	East Joiner Parkway Overcrossing	In Lincoln: Widen East Joiner Parkway overcrossing from 4 to 6 lanes from Ferrari Ranch Road to Sterling Parkway	\$12,400,000	47
PLA25689	City of Lincoln	East Joiner Parkway Widening Phase 2	In Lincoln: Widen East Joiner Parkway from 2 to 4 lanes from Twelve Bridges Drive to Del Webb Blvd north.	\$10,568,251	48
PLA25725	Placer County	Education Street (Phase 1)	Education Street, from SR 49 to Rock Creek: Construct 2-lane roadway and signal modifications.	\$750,000	49
PLA25726	Placer County	Richardson Drive	Richardson Drive, from Dry Creek Road to Bell Road: Construct new 2-lane road.	\$6,733,000	50

ID	Lead Agency	Title	Description	Cost	Project Index
PLA25853	Placer County	Fiddymment Road Widening (Phase 1)	Fiddymment Road, from City of Roseville to Sunset Boulevard: widen from 2 to 6 lanes.	\$2,960,000	51
PLA25858	Placer County	Foothills Boulevard Widening (Phase 2)	Foothills Boulevard, from Sunset Boulevard to Placer Parkway: widen from 2 to 4 lanes	\$2,600,000	52
REG17300	RT	SRTD Satellite Bus Maintenance Facility #2	In Sacramento: purchase/lease building in McClellan Park to be converted to a new bus maintenance facility. Phase 1 Plans for this facility include two fueling stations, one land bus wash, and a revenue collection center. Also includes site work for parking and building modifications to support 125 buses (this number includes both large transit buses and cut-aways).	\$25,404,767	53
REG17943	RT	Green Line (DNA) Light Rail - Overall	This project will redefine a Minimum Operable Segment (MOS) 2 and a MOS 3. REG17935 includes the Final Design and Construction for the project (excluding MOS-1). This phase of the Green Line to the Airport (DNA) Light Rail Project will consist of two discreet, yet connected efforts. For the segment of the Green Line near and adjacent to the Sacramento Intermodal Transfer Center (SITF), the effort will entail the preparation of Draft EIS (and EIR), its circulation for public review and comment, addressing the comments and will culminate with a Final EIS (and EIR). The segment of the project adjacent to the SITF will be coordinated with on-going Sacramento Streetcar planning, environmental review, and design development. For the remainder of the 13-mile corridor, the effort will entail the preparation of a Draft EIS (and EIR) only and its circulation for public review and comments. An MOS will also be identified for this segment. The effort will also evaluate low-floor LRT vehicles and their integration into the RT system, evaluate LRT vehicle maintenance locations for the Green Line, evaluate downtown Sacramento rail/traffic effects of the proposed service, prepare the necessary technical information and for a New Starts evaluation under MAP-21, and involve the community and stakeholders in an outreach program for both efforts. Advanced conceptual engineering and preliminary engineering in key areas with potential for environmental impacts that may require mitigation strategies for the EIS will be completed.	\$13,546,336	54
REG18023	RT	Dos Rios Light Rail Station	On Blue Line light rail, on the east side of 12th St., south of Richards Blvd.: build new light rail station. The station is part of the redevelopment of Twin Rivers public housing development. (Emission Benefits in kg/day: 1.02 ROG, 0.97 NOx, 0.58 PM10)	\$21,732,000	55

ID	Lead Agency	Title	Description	Cost	Project Index
REG18024	RT	Horn Light Rail Station	On the Gold Line, between Butterfield and Mather/Mills stations, at Horn Rd. and Old Winery Pl, construct new light rail station. (Emission Benefits in kg/day: 0.27 ROG, 0.26 NOx, 0.15 PM10)	\$13,000,000	56
REG18035	RT	Railyards Boulevard Station	In Sacramento, on the Green Line, at Railyards Boulevard: Design and construct single platform light rail station . (Environmental covered by REG17943.) (A second platform station will be completed separately, as part of SVS Loop REG18043.)	\$2,367,200	57
REG18043	RT	SVS Loop (Final Design & Construction)	In Sacramento, to accommodate the future Streetcar Project as well as future Green Line service: (1) SVS Loop - segment of the Green Line at the Sacramento Valley Station including: Relocate the existing/temporary LRT Station on H Street to a new north-south axis west of 5th Street; New platform and LRT station near the existing Amtrak station; new Station on the east side of N 7th near Railyards Boulevard that would serve the future MLS Stadium area; double-tracking on H Street from 7th to west of 5th, from west of 5th north to new station near Amtrak, and east along F Street and up 7th St to the Township 9 Light Rail Station. SacRT has been working with the City of Sac and SACOG to advance this concept. Expanded SacRT facilities will include track, special trackwork, Overhead Catenary System, traction power system, signaling system, platforms, and storage tracks.	\$121,830,762	58
REG18047	RT	Folsom Gold Line Service Enhancements	Construct side tracking needed to increase Gold Line frequencies from 30 minutes to 15 minutes on the segment between Sunrise Station in Rancho Cordova and Historic Folsom station in Folsom.. Toll Credits for ROW	\$37,497,820	59
SAC18170	City of Sacramento	I-5 at Richards Blvd. Interchange	Sacramento, Richards Blvd. and I-5; reconstruct interchange (ult). (HPP #3784)(T15165100)	\$55,598,000	60
SAC19290	Sacramento County	South Watt Avenue Widening	In Sacramento County: South Watt Avenue from Florin Road to Jackson Road (Route 16): widen from 2 to 4 lanes. (PE and ROW only. See SAC25192 and SAC25193 for CON phase).	\$0	61
SAC19620	Sacramento County	Elverta Road Widening with Bridge Replacement at Dry Creek	In Sacramento County: Elverta Road from Dutch Haven Boulevard to Watt Avenue; Widen Elverta Road from Dutch Haven Boulevard to Watt Avenue from 2 to 4 lanes plus bike lanes. Replace the existing two-lane bridge over North Channel Dry Creek, between Gibson Ranch Park Road and 28th Street, with a new six-lane bridge. Modify the traffic signal at the intersection of Elverta Road and 28th Street.. Toll Credits for CON	\$29,110,012	62
SAC19710	Sacramento County	Sunrise Blvd.	In Sacramento County, Sunrise Blvd., from Jackson Highway to Grant Line Road: Widen from 2 to 4 lanes.	\$12,000,000	63

ID	Lead Agency	Title	Description	Cost	Project Index
SAC19890	City of Folsom	US 50 at Empire Ranch Road	US 50 at Empire Ranch Road: Construct 4 lane interchange with US 50 at Empire Ranch Road (formerly Russell Ranch Road). HPP #343 (Toll Credits for PE). Toll Credits for ENG	\$70,695,856	64
SAC21270	City of Folsom	Sibley Street	In Folsom, Sibley Street from Glenn Drive to Blue Ravine Road: widen from 2 to 4 lanes.	\$1,800,000	65
SAC22530	City of Sacramento	Bridging I-5/Riverfront Reconnection Phase 3	In Sacramento, at N St over I-5: construct a new bridge with one travel lane in each direction, Class II bike lanes, and sidewalks (T15998100). Phase 1 constructed under SAC24705.	\$42,432,709	66
SAC24035	Sacramento County	Gerber Road Widening	Widen Gerber Road between Elk Grove-Florin Road and Bradshaw Road from 3 to 4 lanes. (This road is already 3 lanes (two westbound and one eastbound)from Elk Grove-Florin Road to about 1/4-mile west of Bradshaw Road.)	\$3,854,000	67
SAC24094	City of Elk Grove	Kammerer Rd Extension (Connector Segment A)	In Elk Grove, Kammerer Rd. from Bruceville Rd. to Interstate 5/Hood Franklin Interchange: Extend road. Modify the I-5/Hood Franklin interchange (signalization and turn lanes at the ramps), construct a grade separation at the UPRR tracks, Class 2 bike lanes, and signalized intersections at major road crossings. Environmental phase (CEQA and NEPA) covers full project scope, to be built in phases: Kammerer Road: In Elk Grove, from Lent Ranch Parkway to I-5/Hood Franklin Interchange: Widen and extend from 2 to 4 lanes (see MTP/SCS project SAC24114).. Toll Credits for ROW	\$63,168,000	68
SAC24098	City of Elk Grove	Whitelock Parkway/SR 99 Interchange Project	In Elk Grove, Whitelock Parkway and SR 99: Construct new Interchange with new pedestrian bridge over SR 99 to Elk Grove Regional Park and High School.	\$100,400,000	69
SAC24111	City of Elk Grove	Lotz Parkway	In Elk Grove, Lotz Parkway from Whitelock Parkway to 0.5 miles south of Whitelock Parkway at the northern boundary of the new Sterling Meadows development area: Construct new 2-lane roadways. Also, extend 2-lane Promenade Parkway from northern boundary of the new Sterling Meadows development area to new Lotz Parkway.	\$9,662,500	70
SAC24114	City of Elk Grove	Kammerer Road Widening (Connector Segment)	In Elk Grove, Kammerer Rd, from Lent Ranch Parkway to I/5/Hood Franklin Interchange: Widen from 2 to 4 lanes. This Project is included in the Environmental Studies (NEPA and CEQA) for SAC24094.	\$55,100,000	71
SAC24220	City of Rancho Cordova	US 50 / Rancho Cordova Parkway Interchange	At US 50 and Rancho Cordova Pkwy.: Construct new interchange including auxiliary lanes on U.S. 50 between Hazel Ave. and Sunrise Blvd. and a four lane arterial connection to US 50 of Rancho Cordova Pkwy. to White Rock Rd.(CP05-2003)	\$117,154,170	72

ID	Lead Agency	Title	Description	Cost	Project Index
SAC24255	Sacramento County	Hazel Avenue/U.S. 50 Interchange Project	In Sacramento County: Hazel Avenue between Folsom Boulevard and U.S. Highway 50; Modify the existing Hazel Avenue interchange at U.S. Highway 50 including US 50 eastbound off ramp modifications at Aerojet Road and Folsom Boulevard (PM 15.0/17.2), extend and grade-separate Hazel Avenue over Folsom Boulevard and the Sacramento-Placerville Transportation Corridor Joint Powers Authority (SPTC-JPA) rail line corridor, widen Hazel Avenue from 4 lanes to 6 lanes between Folsom Boulevard and U.S. Highway 50, and provide multi-modal corridor improvements from Folsom Boulevard to the American River Parkway.	\$104,971,000	73
SAC24268	Sacramento County	Hazel Ave. Improvements	In Sacramento County and City of Rancho Cordova: Between Easton Valley Parkway and Folsom Boulevard; joint project with the City of Rancho Cordova to construct a new 6-lane expressway with special treatment.	\$15,000,000	74
SAC24374	City of Rancho Cordova	Kiefer Boulevard, Phase 2	Widen Kiefer Blvd. from 2-4 lanes from Sunrise Blvd. to Rancho Cordova Parkway.	\$5,474,000	75
SAC24468	City of Rancho Cordova	Sunrise Blvd - Kiefer Blvd to SR16	Sunrise Boulevard, from Kiefer Boulevard to State Route 16 (Jackson Highway): Widen from 2 to 4-lanes and construct partial intersection improvements at Sunrise Boulevard and State Route 16. The project includes modifications to the bridge on Sunrise Boulevard over Laguna Creek. (The \$5,227,000 of local agency funds is Sac County funding. City will advance costs and enter into MOU with County for reimbursement for County share.)	\$12,604,760	76
SAC24470	City of Rancho Cordova	White Rock Rd. - Construct Sunrise Blvd. to City Limits; Environmental Sunrise to Grant Line	Environmental will be for both this project and the County of Sacramento project SAC24249. Environmental will be done for White Rock Road Sunrise Blvd to Grant Line Road. Construction will include: On White Rock Rd., from Sunrise Blvd. to Luyung Dr.: construct improvements, including Class II bikeway. On White Rock Rd from Luyung Dr. to eastern City Limits: widen and reconstruct from 2 to 4 lanes and construct Class II bikeway. White Rock and Luyung Drive intersection: Construct new signal. (CMAQ funds only to be used for new bicycle facilities.) (Emission Benefits in kg/day: 0.03 ROG, 0.03 NOx, 0.02 PM10). Additional construction will be completed under the Sacramento County project SAC24662. Additional construction will be completed under Rancho Cordova projects: SAC25270, SAC25271, & SAC25272	\$1,700,000	77

ID	Lead Agency	Title	Description	Cost	Project Index
SAC24473	City of Rancho Cordova	Douglas Rd. Widening	Widen Douglas Rd. from 2 to 4 lanes from Sunrise Blvd. to the West City Limit. Includes the addition of a new bridge over the Folsom South Canal adjacent to the existing bridge. (See SAC20240)	\$15,183,000	78
SAC24511	City of Rancho Cordova	Rancho Cordova Parkway, Douglas Road to Chrysanthy Boulevard	Construct a new 4 lane road Rancho Cordova Parkway, from Douglas Road to Chrysanthy Boulevard.	\$2,188,000	79
SAC24512	Sacramento County	Metro Air Parkway	In Sacramento County, Metro Air Parkway from north of I-5 to Elverta Road: Widen roadway from 2 to 4 lanes.	\$7,904,240	80
SAC24610	City of Sacramento	14th Ave. Extension Phase 1	Sacramento. Extension of 14th Avenue from Power Inn Rd to Florin-Perkins. Phase I includes environmental/PE for four lane roadway and construction of two-lane roadway with class II bicycle lanes and landscape planter/sidewalks on the south side of the roadway. Also includes new water and drainage facilities, new streetlights, new traffic signal at 14th Ave/Florin Perkins Rd, and modification to existing traffic signal. (Phase 2 SAC24656, Phase 3 SAC24657)	\$11,855,000	81
SAC24622	Sacramento County	Zinfandel Drive Extension & Realignment	In Sacramento County: Zinfandel Drive, from Douglas Rd. to 7,100 ft south of Douglas Rd.: reconstruct Zinfandel Drive as a two lane road. From 7,100 ft south of Douglas Rd. to Kiefer Blvd.: extend Zinfandel Dr. as a two lane road on a slightly different alignment than the existing dirt road. Construct concrete box culvert over creek just north of Kiefer Blvd.	\$5,848,000	82
SAC24662	Sacramento County	White Rock Road - Grant Line Rd. to Rancho Cordova City Limits	White Rock Road, from Grant Line Road to Rancho Cordova easterly City limits: Widen from 2 to 4 lanes. Environmental cleared as part of SAC24470. See SAC25270, SAC25271, & SAC25272 for related work.	\$10,000,000	83
SAC24683	City of Sacramento	I St. Bridge Replacement	I Street Bridge, over Sacramento River and complex of bridge approach structures. Replace existing 2 lane bridge with a 2 lane bridge on a new alignment. Project includes bridge approaches 22C0154, 24C0006, 24C0364L, 24C0364R, 24C0351J.. Toll Credits for ENG, CON	\$239,031,818	84
SAC24707	City of Rancho Cordova	Kiefer Blvd Extension	In Rancho Cordova, extend Kiefer Blvd from Rancho Cordova Pkwy to Grant Line as 4 lane road. Includes intersection improvements at Americanos and Grant Line. Developer will deliver project	\$17,975,000	85
SAC24773	City of Elk Grove	Big Horn Blvd. Extension - Bilby to Kammerer	In Elk Grove, Big Horn Blvd. from Bilby Rd. to Kammerer Rd, Construct (4-lanes) extension	\$8,181,000	86

ID	Lead Agency	Title	Description	Cost	Project Index
SAC25051	City of Sacramento	Broadway Complete Street Phase I	Phase I: In Sacramento, Broadway from 3rd St to 16th St, convert four lane arterial to two lane arterial with buffered bike lanes, median improvements, sidewalk improvements and streetscape enhancements. Create surface street (29th St.) from X St. to Hwy 99 South. PA&ED will be completed for the entire 2-mile corridor, from 29th St. to 3rd St.	\$4,414,000	87
SAC25080	Southeast Connector JPA	Capital SouthEast Connector - D3b	In Folsom/Sacramento County: White Rock Rd, from East Bidwell St to Carson Crossing Rd; Construct 4 lanes (Expressway).	\$48,000,000	88
SAC25186	Sacramento County	Madison Avenue Widening, Phase 1	In Sacramento County: Madison Avenue from Sunrise Boulevard to Hazel Avenue; Widen from 4 to 5 lanes between Fair Oaks Boulevard to 150' east of Kenneth Avenue. Add bifurcated sidewalks, continuous bike lanes, drainage facilities, landscaped median, rubberized asphalt overlay, traffic signal modifications, and new signal interconnect on Madison Avenue between Sunrise Boulevard and Hazel Avenue. (CMAQ funds for new sidewalks and new bike lanes only.)	\$30,335,776	89
SAC25192	Sacramento County	South Watt Avenue Improvements - Florin Road to Jackson Road	In Sacramento County: South Watt Avenue from Florin Road to Jackson Road (SR 16); widen from two to four, and construct landscaped medians, ADA upgrades, bike and pedestrian facilities, and intersection upgrades.. Toll Credits for CON	\$52,997,000	90
SAC25193	Sacramento County	South Watt Avenue Improvement Project, Phase 2	In Sacramento County: South Watt Avenue from Florin Road to Fruitridge Road; widen from 2 to 4 lanes. (See PE and ROW on SAC19290)	\$0	91
SAC25272	City of Rancho Cordova	White Rock Rd - .5 Mile East of Rancho Cordova Parkway to Easterly City Limits	On White Rock Rd from .5 mile east of Rancho Cordova Parkway to Easterly City Limits: widen from 2 to 4 lanes, center medians, landscaping, bike lanes, drainage and road construction. Environmental completed for this project under SAC24470.	\$20,392,000	92
SAC25275	Sacramento County	Waterman Road Extension	Waterman Road, from Gerber Road to Florin Road: Extend Waterman Road from Gerber Road to Florin Road with an at-grade railroad crossing.	\$21,900,000	93
SAC25277	City of Elk Grove	Lotz Parkway between Sterling Meadows northern boundary and Kyler Road	In Elk Grove, Lotz Parkway from northern boundary of the Sterling Meadows development area to Kyler Road: Construct new 4-lane roadway, bike lanes, curb, gutter, landscaping and sidewalk. Part of SAC24111.	\$1,725,000	94

ID	Lead Agency	Title	Description	Cost	Project Index
SAC25312	Sacramento County	Capital Region Freight - Elkhorn Boulevard Extension	In Sacramento County, from West Elkhorn Boulevard to Crossfield Drive at Sacramento International Airport, construct an approximately 1 mile long 4 lane roadway. Project also includes the extension of utility corridor along roadway and two roundabouts on Crossfield Drive and a signalized intersection at Power Line Road.	\$26,000,000	95
SAC25313	City of Elk Grove	Lotz Pkwy - Kyler Road to Kammerer Road	In Elk Grove, Lotz Pkwy. from Kyler Rd to Kammerer Rd: Construct remaining 2-lanes of 4-lane roadway, bike lanes, curb, gutter, landscaping and sidewalk	\$1,500,000	96
SAC25314	Sacramento County	Elkhorn Boulevard Widening	In Sacramento County, Elkhorn Boulevard from Rio Linda Boulevard to SR 99: widen from 2 to 4 lanes, including bridge over Natomas east main drain, landscaping, new RR crossing. (Part of SAC15180 from 2020 MTP/SCS)	\$56,576,000	97
SAC25317	Sacramento County	Bradshaw Road at Jackson Road Intersection Improvements	The project proposes intersection improvements at Bradshaw Road and Jackson Road (State Route 16). The improvements will include traffic signal modifications to accommodate an additional lane and two dual left turn lanes in each direction of travel.	\$5,325,000	98
SUT10250	City of Yuba City	Bridge Street Widening	In Yuba City, Widen Bridge Street from Cooper Street to Gray Avenue: widen to 4 lanes.	\$18,073,729	99
SUT18865	City of Live Oak	Live Oak Collaborative Highway 99 Streetscape Improvements	In Live Oak, SR 99, from Ash Street to Ramsdell Drive: widen from 2 to 4 lanes and build streetscape improvements. (Total project cost is \$36.5m. The remaining work is programmed on two SHOPP projects: CAL20763, CAL20731.). Toll Credits for ENG, ROW, CON	\$11,370,000	100
SUT18933	City of Yuba City	Tuly Parkway – Queens Avenue Extension	East of Elmer Rd and west of Blevin Road, construct Tuly Parkway as four lane road, from Butte House Road to Queens Avenue extension, and Queens Avenue from Tuly Parkway extension to Blevin Road, construct two lane road. Work will include road and traffic signal improvements.	\$3,300,000	101
VAR56133	Southeast Connector JPA	Capital Southeast Connector - D2a Douglas to White Rock	In Rancho Cordova: Grant Line Road from Douglas Rd to White Rock Rd: Widen from 2 lanes to a 4-lane expressway. (D2 PE phase programmed under VAR56128).	\$38,500,000	102
VAR56199	Capitol Corridor JPA	Sacramento to Roseville Third Main Track - Phase 2	On the UP mainline, from Sacramento Valley Station approximately 9.8 miles toward the Placer County line: Construct third mainline track including all bridges and required signaling. Project improvements will permit service capacity increases for Capitol Corridor in Placer County, with up to seven additional round trips added to Phase 1-CAL18320 (for a total of ten round trips) between Sacramento to Roseville including track and station improvements.	\$224,000,000	103

ID	Lead Agency	Title	Description	Cost	Project Index
YCT18198	RT	Downtown Riverfront Streetcar Project	The Downtown Riverfront Streetcar Project will connect the Sacramento Valley Station (SVS) (Sacramento's intermodal transportation facility) to Sutter Health Park (AAA Professional Baseball Park, formerly known as Raley Field) in West Sacramento. (Total Project Cost: \$ 130,518,142, which includes Project Development programmed separately under VAR56127, for \$21,666,284.)	\$108,851,858	104
YOL17140	City of Davis	I-80/Richards Interchange	In Davis: At the I-80/Richards interchange; reconstruct the north side of Richards Blvd. interchange to remove the loop on- and off-ramps and replace with new ramp in diamond configuration. Includes traffic signal installation. Install new Class II bike lanes and a parallel Class I trail (0.5 mi of Class I and 1 mi of Class II).. Toll Credits for CON	\$17,042,084	105
YOL19328	City of West Sacramento	Broadway Bridge	From West Sacramento to Sacramento, across the Sacramento River, construct the Broadway Bridge, a new southern crossing of the Sacramento River. Project includes: Auto, transit, bicycle and pedestrian facilities. (Local funding is split between the Cities of Sacramento and West Sacramento)	\$338,500,000	106
YOL19385	City of West Sacramento	Riverfront Street Extension	Riverfront Street, from Mill Street extending .3 miles south, and 5th Street, from Bridge Street to 15th Street: Extend Riverfront Street as a two-lane roadway with sidewalks, lighting, wet and dry utilities and landscaping. Widen 5th Street between Mill Street and 15th Street to accommodate a cycle track (two way bike lane), underground overhead utilities, wet and dry utilities, and sidewalk. The cycle track will extend from Bridge Street to 15th Street and intersection enhancements at 15th Street and Bridge Street.. Toll Credits for ROW, CON	\$12,620,206	107
YUB15877	Yuba County	North Beale Road Improvements	North Beale, from Linda Ave to Griffith Rd.: Widen Roadway from 2-lanes to 4-lanes and install curb gutter and sidewalk.	\$2,750,000	108
Group13		Grouped Projects for Traffic Signal Synchronization		\$6,554,120	109
PLA25840	Town of Loomis	Sub-Project of Group13 - Loomis Traffic Signal Improvements and coordination	In Loomis, at the : intersections of Taylor Rd and King Rd, King Road and Swetzer Rd, and Taylor Rd and Horseshoe Bar Rd: signal synchronization and pedestrian and bicycle improvements.	\$938,120	110

ID	Lead Agency	Title	Description	Cost	Project Index
SAC25310	City of Folsom	Sub-Project of Group13 - ITS Master Plan and Implementation	The project will design and provide Plans, Specifications and Estimates (PS&E) of traffic signals, fiber-optic communications, and ITS equipment. The purpose of the ITS Master Plan / HSIP Cycle 10 Implementation Project is to interconnect the City's seven (7) traffic signals where no communication exists; install and terminate Single Mode Fiber Optic (SMFO) where Multimode Fiber Optic (MMFO) exists, replace end of lifecycle traffic signal equipment including cabinets, traffic signal heads, and emergency vehicle preemption, design and install Changeable Message Boards (CMS) at sixteen (16) locations within the City of Folsom to provide real time driver information and travel times, install and connect adaptive signal timing to improve traffic flow, reduce delays and maximize capacity; upgrade obsolete Type 820A signal controllers to Cobalt EOS signal controllers; and upgrade the Traffic Management Center (TMC) equipment, and ensure that signal timing remains robust and responsive to actual traffic conditions by utilizing Signal Performance Measures (SPM).. Toll Credits for ENG, CON	\$5,616,000	111
Group34		Grouped Projects for Bridge Rehabilitation and Reconstruction - SHOPP Program		\$703,147,000	112
CAL20719	Caltrans D3	Sub-Project of Group34 - I-80 Bridge Rehab	On I-80 near Dutch Flat and Cisco Grove, at Crystal Springs Road Overcrossing #19-0112 (PM 46.3), Baxter Overcrossing #19-0113 (PM 46.9), Drum Forebay Overcrossing #19-0114 (PM 49.0), and Cisco Overcrossing #19-0118 (PM R63.5): Replace bridges at four locations.	\$53,235,000	113
CAL20774	Caltrans D3	Sub-Project of Group34 - I-5 Permit Load Mobility Improvement	On I-5 in the City of Sacramento, at South Connector Undercrossing #24-0267 (PM 22.4): Strengthen structure for permit loads.. Toll Credits for ENG	\$26,690,000	114
CAL20771	Caltrans D3	Sub-Project of Group34 - I-5 at West End Viaduct (SHOPP Long Lead)	On I-5 in the City of Sacramento, at West End Viaduct #24-0069R/L (PM 23.6/24.3): Improve to standard truck capacity. (SHOPP Long Lead)	\$51,434,000	115
CAL21389	Caltrans D3	Sub-Project of Group34 - SR 51 American River Bridge Child Project #2	On SR 51 (Business 80, Capital City Freeway) in the City of Sacramento, from north of B Street Underpass to north of Exposition Boulevard Overcrossing at the American River Bridge No. 24-0003 and Cal Expo Undercrossing No. 24-0133 (PM 2.0/3.5): Procure steel girders. (Early Work Package No. 2 for Construction Manager/General Contractor (CMGC). The parent project is 3F070/CAL21379 and this is one of three child projects: 3F071/CAL21379, 3F072/CAL21389, 3F073/CAL21390.)	\$10,950,000	116

ID	Lead Agency	Title	Description	Cost	Project Index
CAL21390	Caltrans D3	Sub-Project of Group34 - SR 51 American River Bridge Child Project #3	On SR 51 (Capital City Freeway, Business 80) in the City of Sacramento, from north of B Street Underpass to north of Exposition Boulevard Overcrossing at the American River Bridge No. 24-0003 and Cal Expo Undercrossing No. 24-0133 (PM 2.0/3.5): Construct American River Bridge widening foundation. (Early Work Package No. 3 for Construction Manager/General Contractor (CMGC) parent project EA 3F070/CAL21379, which was split into three child projects: 3F071/CAL21379, 3F072/CAL21389, 3F073/CAL21390.)	\$64,198,000	117
CAL20691	Caltrans D3	Sub-Project of Group34 - SR 51 Bridge Deck Replacement (G13 Contingency)	On SR 51 in the City of Sacramento, from north of B Street Underpass to north of Exposition Boulevard Overcrossing at the American River Bridge No. 24-0003 and Cal Expo Undercrossing No. 24-0133 (PM 2.0/3.5): Widen and replace bridge deck and construct 0.14 mile of Class 1 bike and pedestrian path as a complete streets element. This is a Construction Manager/General Contractor (CMGC) project. (G13 Contingency) (Three child projects: 3F071/CAL21379, 3F072/CAL21389, 3F073/CAL21390). Toll Credits for ENG	\$97,526,000	118
CAL21350	Caltrans D3	Sub-Project of Group34 - SR 99 Construct McConnell OH Structure - Cosumnes Bridge Project	On SR 99 in and near Elk Grove, from 0.3 mile south of Dillard Road OC to 0.6 mile south of Grant Line Road (PM 7.1/9.4): Construct bridge over the railroad at McConnell Overhead No. 24-0048L.	\$20,210,000	119
CAL21355	Caltrans D3	Sub-Project of Group34 - SR 99 River Bridges - Cosumnes Bridge Project	On SR 99 in and near Elk Grove, from 0.3 mile south of Dillard Road OC to 0.6 mile south of Grant Line Road (PM 7.1/9.4): Remove and replace the Cosumnes River Bridge #24-0020L/R and Cosumnes River Overflow Bridge #24-0021L/R.	\$70,360,000	120
CAL20470	Caltrans D3	Sub-Project of Group34 - SR 99 Seismic Retrofit and Bridge Rail Upgrade - Cosumnes Bridge Project	On SR 99 in and near Elk Grove from 0.3 mile south of Dillard Road OC to 0.6 mile south of Grant Line Road (replace Cosumnes River Bridge #24-0020L/R and Cosumnes River Overflow Bridge #24-0021L/R; upgrade bridge rails at Dillard Road OC #24-0163; construct new McConnell OH #24-0392): Bridge seismic retrofit, bridge scour retrofit, bridge rail replacement, and bridge replacement (PM 7.1/9.4). This is a Construction Manager/General Contractor (CMGC) project.. Toll Credits for ENG	\$73,767,000	121
CAL20790	Caltrans D3	Sub-Project of Group34 - US 50 / I-5 Paint Bridge	On US 50 in the City of Sacramento, from the Sacramento River Viaduct (Pioneer Bridge) to 4th Street (PM L0.0/L0.5); also on I-5, from 0.2 mile south of Broadway to S Street (PM 22.15/22.91): Clean and paint steel bridge within I-5/US 50 interchange.	\$25,610,000	122

ID	Lead Agency	Title	Description	Cost	Project Index
CAL21396	Caltrans D3	Sub-Project of Group34 - Willow Slough Bridge Replacement	On SR 99 near Elk Grove, from Arno Road to south of Dillard Road at Willow Slough Bridge No. 24-0046L/R (PM 6.0/7.1): Replace existing south bridge, close the median gap between southbound and northbound bridges, widen shoulders, upgrade guardrail, and install Transportation Management System (TMS) elements.	\$17,520,000	123
CAL21381	Caltrans D3	Sub-Project of Group34 - Bridge Deck Preservation - Various Counties	On Route 80 in Placer County at Troy Undercrossing No. 19-0106L/R (PM 68.55) and Kingvale Undercrossing No. 19-0107L (PM 69.23); also on Route 99 in Chico at Cohasset Overcrossing No. 12-0168 (PM R34.3): Polyester concrete overlay to one bridge deck, and deck-on-deck replacement and bridge rail replacement at three bridges.	\$4,470,000	124
CAL20775	Caltrans D3	Sub-Project of Group34 - I-5 Vertical Clearance Improvements in Yolo and Colusa Counties	On I-5 near Woodland, at County Road 96 OC #22-0155 (PM R14.27), County Road 95 OC #22-0156 (PM R15.85) and Zamora OC #22-0157 (PM R17.62); also in Colusa County, in and near Williams, at E Street OC #15-0067 (PM R17.98) and Lurline Avenue OC #15-0075 (PM R22.74): Establish standard vertical clearance.. Toll Credits for ENG	\$22,490,000	125
CAL20712	Caltrans D3	Sub-Project of Group34 - I-80 Sacramento River BOH (Bryte Bend)	On I-80 in West Sacramento, from 0.2 mile west to 0.4 mile east of Sacramento River Bridge and Overhead #22-0026L/R (PM R11.1/R11.7); also in Sacramento County, from Yolo County line to 0.9 mile west of West El Camino Avenue (PM M0.0/M0.5): Rehabilitate bridge.. Toll Credits for ENG	\$39,497,000	126
CAL20788	Caltrans D3	Sub-Project of Group34 - Rio Vista Bridge Operation Overhaul	On SR 12 in and near Rio Vista, at the Sacramento River Bridge #23-0024 (PM 0.0/0.7); also in Solano County from PM 26.1 to 26.4; also on SR 160 in Sacramento County from PM L10.6 to R0.1: Rehabilitate bridge and upgrade Americans with Disabilities Act (ADA) facilities.	\$10,745,000	127
CAL20769	Caltrans D3	Sub-Project of Group34 - Standard Vehicle Clearance on I-5 in Yolo County	On I-5 near Woodland, at Wye Line Road OC Bridge #22-0158 (PM 4.49), County Road 6 OC Bridge #22-0138 (PM R25.57), County Line Road OC Bridge #22-0139 (R28.92): Establish standard vertical clearance.. Toll Credits for ENG	\$18,315,000	128
CAL20950	Caltrans D3	Sub-Project of Group34 - SR 70 Bridge Rail Upgrade	On SR 70 near Marysville at the Feather River Blvd OC #16-0033 and at the South Marysville UC #16-0035 (PM R11.2/13.5): Upgrade bridge rails and construct median concrete barrier between project limits.	\$13,230,000	129
CAL20472	Caltrans D3	Sub-Project of Group34 - SR 70 Simmerly Slough Bridge Replacement	On SR 70 near Marysville, from 0.1 mile north of Binney Junction Underpass to 0.3 mile north of Laurellen Road, at Simmerly Slough Bridge #16-0019 (PM 15.5/16.5): Replace bridge.. CAL20785	Caltrans D3	Sub-Project of Group19 - SR 51 (Capital City Freeway) Roadside Safety	On SR 51 in the City of Sacramento, from 0.1 mile south of B St. Underpass to 0.4 mile north of Arden Way (PM 1.6/4.4): Pave areas behind the gore and at narrow and miscellaneous locations, place vegetation control, and construct Maintenance Vehicle Pullouts (MVPs) to reduce maintenance and improve highway worker safety.	\$6,395,000	137
CAL21053	Caltrans D3	Sub-Project of Group19 - SR 51 Marconi Curve Barrier	On SR 51 in the City of Sacramento, between Marconi Ave and Howe Ave (PM 5.6/5.9): Construct outer separation barrier.	\$4,932,000	138
CAL21411	Caltrans D3	Sub-Project of Group19 - Sac 16 Eagles Nest Safety Project	On SR 16 near Sloughhouse at the intersection of Eagles Nest Road (PM 10.2/10.7): Add traffic signal and widen lanes and shoulders for safety.	\$4,789,000	139
CAL20731	Caltrans D3	Sub-Project of Group19 - SR 99 City of Live Oak Safety Improvements	On SR 99 in Live Oak, at intersections with Elm Street and Pennington Road (PM 40.0/40.5): Intersection safety improvements. The Live Oak Streetscape, Rehab and Safety project (3F99U) combines SR 99 City of Live Oak Safety Improvements (2H230/CAL20731), SR 99 Live Oak Rehab (1H150/CAL20763), and Live Oak Collaborative Highway 99 Streetscape Improvements (3F990/SUT18865) for construction.	\$6,310,000	140
CAL21388	Caltrans D3	Sub-Project of Group19 - SR 99 Oswald Road Intersection Improvements	On SR 99 near Yuba City, from 0.6 mile south to 0.4 mile north of Oswald Road (PM 25.0/26.0): Construct intersection improvements.	\$14,585,000	141
CAL21378	Caltrans D3	Sub-Project of Group19 - SUT-99 Lomo Crossing	On Route 99 near Live Oak, from south of Encinal Road/Live Oak Boulevard to north of Kent Avenue (PM R34.8/36.6); also at Eager Road (PM R33.8/R34.0): Eliminate cross traffic access to Route 99 at Encinal Road/Live Oak Boulevard and improve acceleration features in proximity to the railroad crossing approach/departure for both directions of travel for vehicles required by law to stop at the railroad crossing, and improve/enhance access to the Eager Road interchange.	\$12,310,000	142
CAL21367	Caltrans D3	Sub-Project of Group19 - SR 99 & 113 Bike ADA Safety Improvements	On SR 99 in the city of Sacramento, at 12th Avenue (PM 23.1) and at Florin Road (PM 19.7); also in Yolo County on SR 113 at Russel Boulevard (PM R1.1) and at County Road 31 (PM R2.1): Reconstruct and upgrade existing pedestrian infrastructure, enhance crosswalk and bike lane markings, add lighting and signs to improve pedestrian and bicyclist safety.	\$4,745,000	143

ID	Lead Agency	Title	Description	Cost	Project Index
CAL21377	Caltrans D3	Sub-Project of Group19 - Sac & Sutter Counties Multi Location Bike and Ped Improvements	In Sacramento and Sutter Counties on Routes 20, 50, and 80 at various locations: Enhance crosswalk visibility, add bike lane delineation, install signs, flashing beacons and countdown pedestrian signal heads, and construct curb ramps and pedestrian barricades to improve bicycle and pedestrian safety.	\$5,852,000	144
CAL21274	Caltrans D3	Sub-Project of Group19 - Esparto Improvements	On SR 16 in Esparto, from Orleans Street 0.2 mile west of County Road 86A (PM 27.5/28.3): Improve pedestrian safety by improving crosswalks, curb bulb-outs, and lighting.	\$7,167,000	145
CAL20514	Caltrans D3	Sub-Project of Group19 - SR 20 Shoulder Widening (Timbuctoo)	On SR 20 near Smartsville, from the Yuba River Bridge to 0.1 mile east of Smartville Road (PM R18.1/20.1): Realign and widen roadway.. Toll Credits for ENG	\$67,321,000	146
CAL20679	Caltrans D3	Sub-Project of Group19 - SR 70 Safety Improvements - Segments 4 & 5	On SR 70 near Marysville from Laurellen Road to Butte County line (PM 16.2/25.8): Widen shoulders and improve clear recovery zone, add continuous a two-way left turn lane (TWLTL) throughout the project, 2 separate slow moving vehicle lanes are planned in each direction (each one is less than a mile in length), overlay with RHMA, replace and extend culverts, install TMS elements, fiber optic system elements, lighting intersection, and install a classification station. The Yuba 70 Segments 4 & 5 project (4F38U) combines SR 70 Safety Improvements - Segments 4 & 5 (4F380/CAL20679) and SR 70 Passing Lanes - Segments 4 & 5 (3F282/CAL18815) for construction.. Toll Credits for ENG	\$109,982,000	147
Group26		Grouped Projects for Emergency Repair - SHOPP Emergency Response Program		\$21,615,000	148
CAL20796	Caltrans D3	Sub-Project of Group26 - US 50 - Fresh Pond Slipout	On US 50 near Pollock Pines, from 0.6 mile to 0.2 mile west of Forest Road/ Outer Limits Lane (PM 33.8/34.2): Permanently restore roadway by mitigating the progression of recurring roadway slipout.	\$18,410,000	149
CAL21352	Caltrans D3	Sub-Project of Group26 - US 50 Drain Repair & Slope Stabilization	On US 50 near Kyburz, at 1.4 miles east of Alder Creek Tract (PM 45.2): Repair the storm damaged down drain and stabilize hillside slope.	\$2,805,000	150
CAL17380	Caltrans D3	Sub-Project of Group26 - SACOG Region Emergency Repair Program	Lump Sum - Emergency Repair (excluding Federal Emergency Relief Program funds)for non-capacity increasing projects only.	\$400,000	151

ID	Lead Agency	Title	Description	Cost	Project Index
Group06		Grouped Projects for Safety Improvements - SHOPP Mobility Program		\$131,330,000	152
CAL20718	Caltrans D3	Sub-Project of Group06 - US 50 Advance Warning and TMS Elements	On US 50 in El Dorado County, from the Sacramento County Line to east of Stateline Avenue at various locations (PM 0.0/80.4): Upgrade new Transportation Management System (TMS) elements.. Toll Credits for ENG	\$13,000,000	153
CAL20693	Caltrans D3	Sub-Project of Group06 - I-5 Fiber Optics	On I-5 in Sacramento, from 1.1 miles south of Elk Grove Boulevard to US 50 (PM 9.7/22.7): Install fiber optic cable. The I-5 Corridor Enhancement project (03-0H10U) combines the I-5 HOV Lanes - Phase 1 (03-3C001/CAL20466), I-5 HOV Lanes - Phase 2 (03-3C002/CAL20467), I-5 Road Rehab (03-0H100/CAL20700), I-5 Elk Grove Aux Lane (03-3H570/CAL20777), and the I-5 Fiber Optics (03-4F450/CAL20693) for construction.. Toll Credits for ENG, ROW	\$10,580,000	154
CAL21349	Caltrans D3	Sub-Project of Group06 - SR 99 Auxiliary Lanes & Ramp Meters	On SR 99 in Elk Grove from Elk Grove Blvd to south of Calvine Road (PM 12.7/16.0): Construct two southbound auxiliary lanes (southbound SR 99 Cosumnes River Blvd/Calvine Road to Sheldon Road and southbound SR 99 from Laguna Blvd/Bond Road to Elk Grove Blvd), construct concrete median barrier, extend storage lane at southbound Elk Grove Boulevard offramp, and upgrade five ramp metering systems.	\$24,630,000	155
CAL20379	Caltrans D3	Sub-Project of Group06 - US 50 Auxiliary Lanes, Bradshaw to Mather	On US 50 in and near Rancho Cordova, from Bradshaw Road to Mather Field Road (PM R7.7/R9.5): Operational improvements that construct auxiliary lanes in both westbound and eastbound directions.	\$10,140,000	156
CAL20722	Caltrans D3	Sub-Project of Group06 - District 3 LED Upgrades	On I-80 in Placer, Nevada, and Yolo Counties, at various locations: Upgrade Extinguishable Message Signs (EMS) to LED. . Toll Credits for ENG	\$2,565,000	157
CAL20708	Caltrans D3	Sub-Project of Group06 - I-80 Fiber Optics at Various Locations	On I-80 in and near the cities of Sacramento and Citrus Heights, from 0.3 mile east of the Yolo County Line to the Placer County Line (PM M0.3/18.0); also on I-80 in Placer County in the City of Roseville, from the Sacramento County Line to 0.7 mile east of the Sacramento County Line (PM 0.0/0.7): Install fiber optic communication lines.. Toll Credits for ENG	\$16,750,000	158
CAL20791	Caltrans D3	Sub-Project of Group06 - Sac/Yol Counties TMS Field Elements	On US 50 in and near the cities of Sacramento, Rancho Cordova and Folsom, from Yolo County line to 0.8 mile east of Folsom Blvd (L0.0/18.3) and in Yolo County, in West Sacramento, from I-80 to Sacramento County line (PM 2.5/3.2): Install Transportation Management System (TMS) field elements.	\$46,660,000	159

ID	Lead Agency	Title	Description	Cost	Project Index
CAL20772	Caltrans D3	Sub-Project of Group06 - US 50 in Sacramento and El Dorado Counties ITS	On US 50 in and near Rancho Cordova and Folsom, from Hazel Ave to the county line (PM 15.7/23.1); also in El Dorado County near El Dorado Hills, from the county line to 0.1 mile east of White Rock Road (PM 0.0/R1.9): Install fiber optic cable and wireless communication systems.	\$7,005,000	160
Group33		Grouped Projects for Shoulder Improvements - SHOPP Roadside Preservation Program		\$9,179,000	161
CAL20768	Caltrans D3	Sub-Project of Group33 - Habitat Mitigation	In Placer, Butte, El Dorado, Glen, Nevada, Sacramento, Yolo, and Yuba Counties, at various locations. Purchase advance mitigation credits for future SHOPP projects expected to impact wetland, riparian and to other waters.	\$2,639,000	162
CAL20792	Caltrans D3	Sub-Project of Group33 - I-5 Highway Planting Rehab	On I-5 in the City of Sacramento, from south of Broadway to 0.12 mile south of R Street underpass (PM 22.4/22.9): Highway planting rehabilitation.	\$3,070,000	163
CAL21398	Caltrans D3	Sub-Project of Group33 - SAC 80 Planting Rehab	On I-80 near the City of Sacramento, from east of SR 51 (Business 80, Capital City Freeway) to 0.6 mile east of Madison Avenue (PM 11.8/13.1): Replace existing vegetation and rehabilitate irrigation system.	\$3,470,000	164
Group01		Grouped Projects for Pavement resurfacing and/or rehabilitation - SHOPP Roadway Preservation Program		\$1,392,333,000	165
CAL21392	Caltrans D3	Sub-Project of Group01 - ED US 50 Pavement Rehab	On US 50, Near Pollock Pines, Kyburz, and Strawberry, from west of Icehouse Road to 0.5 mile east of Cedar Street (PM 39.7/58.9): Rehabilitate pavement and drainage systems, and upgrade lighting and guardrail.	\$37,720,000	166
CAL20781	Caltrans D3	Sub-Project of Group01 - US 50 Culvert Rehab	On US 50 near Cameron Park and Shingle Springs, from 0.9 mile east of Silva Valley Parkway to 0.2 mile west of El Dorado Road (R2.7L/R/R13.8): Rehabilitate culverts. The ED 50 Culvert Rehab project (1H80U) combines CAL20782/1H800 and CAL20781/1H040 for construction.	\$6,760,000	167
CAL20782	Caltrans D3	Sub-Project of Group01 - US 50 Culvert Rehab	On US 50 in and near Placerville, from 0.3 mile west of El Dorado Road to 0.2 mile west of Schnell School Road (PM R13.7/18.9): Rehabilitate deteriorated culverts. The ED 50 Culvert Rehab project (1H80U) combines CAL20782/1H800 and CAL20781/1H040 for construction.	\$5,500,000	168

ID	Lead Agency	Title	Description	Cost	Project Index
CAL20802	Caltrans D3	Sub-Project of Group01 - US 50 Culvert Rehab and Wildlife Crossing	On US 50 in and near Placerville, from Mosquito Road to 0.3 mile west of 5 Mile Road (PM 18.5/22.5): Rehabilitate deteriorated culverts and provide access for wildlife crossing the route. The Camino Safety Project (4E62U) combines US 50 Culvert Rehab and Wildlife Crossing (4H370/CAL20802) and US 50 Camino Operational/Safety Improvements (4E620/CAL18190) for construction.	\$3,830,000	169
CAL21391	Caltrans D3	Sub-Project of Group01 - US 50 Placerville & Camino Pavement Rehab	On US 50 in and near Placerville, from west of Carson Road Overcrossing to west of Still Meadows Road (PM 18.7/21.9); also near Camino, from 1.1 miles west of Snow Road Undercrossing to east of Sawmill Undercrossing (PM 24.2/R29.1): Rehabilitate pavement, upgrade facilities to Americans with Disabilities Act (ADA) standards, rehabilitate drainage systems, upgrade concrete barrier, signs, and Transportation Management System (TMS) elements, and construct maintenance vehicle pullouts.	\$37,470,000	170
CAL21393	Caltrans D3	Sub-Project of Group01 - Alta CAPM	On I-80 near Colfax, from east of Route 174 Separation to east of Alta Road Undercrossing (PM 33.3/44.9): Rehabilitate pavement and drainage systems, and upgrade guardrail, signs, and Transportation Management System (TMS) elements.	\$32,390,000	171
CAL20844	Caltrans D3	Sub-Project of Group01 - Blue Canyon Truck Climbing Lane (G13 Contingency)	On I-80 near Applegate, from east of Crother Road OC to east of Weimar OH (PM R26.5/28.8); also near Magra from PM 39.5 to 41.3; also near Emigrant Gap from PM 53.0 to 54.7: Rehabilitate roadway, construct truck climbing lanes in EB direction, widen shoulders, replace or widen structures, upgrade median barrier and Transportation Management System (TMS) elements. (G13 Contingency)	\$115,472,000	172
CAL20845	Caltrans D3	Sub-Project of Group01 - Monte Vista Truck Climbing Lane	On I-80 near Gold Run, from west of Monte Vista OC to east of Drum Forebay OC (PM 42.7/49.3R): Rehabilitate roadway, construct truck climbing lane, replace or widen structures, upgrade median concrete barrier, sign panels, Transportation Management Systems (TMS) elements and rehabilitate drainage systems.	\$93,583,000	173
CAL20764	Caltrans D3	Sub-Project of Group01 - I-80 Pavement Rehab	On I-80 near the city of Sacramento and Citrus Heights, from 0.2 mile east of Longview Drive to 0.4 mile east of Madison Avenue (PM M9.6/12.9); also on Route 244, from Route 80 to 0.3 mile west of Auburn Boulevard (PM 0.0/0.8): Pavement rehabilitation.	\$18,230,000	174

ID	Lead Agency	Title	Description	Cost	Project Index
CAL21401	Caltrans D3	Sub-Project of Group01 - North Sac I-5 Rehab	On I-5 near the City of Sacramento, from American River Bridge to Sacramento River Bridge (PM 25.3/34.4): Rehabilitate pavement and drainage systems, upgrade facilities to Americans with Disabilities Act (ADA) standards, and upgrade guardrail, signs, and Transportation Management System (TMS) elements.	\$57,500,000	175

Stanford Ranch Rd.; Park Dr., from Sunset Blvd. to Crest Dr.; Sierra College Blvd. from Rocklin Rd. to Southside Ranch Rd.; Sierra College Blvd., from Clover Valley Road to North Clover Valley Road: Rehabilitate roads. (NEPA covered by PLA25551, STPL-5095-025). Toll Credits for ENG, CON	\$1,900,463	291
VAR56280	FHWA	Sub-Project of Group04 - Ponderosa Way Bridge Replacement	In El Dorado National Forest, Remove and replace 190 lf single span Ponderosa Way Bridge. Regravel approaches. Minor roadway rehabilitation of 2.4 miles of Ponderosa Way.	\$4,663,138	292
SAC25261	City of Citrus Heights	Sub-Project of Group04 - San Juan Ave. Complete Streets Rehabilitation - Phase 1	Phase 1: On San Juan Ave., from Madison Ave. to Spicer Dr.: Design and complete right-of-way to rehabilitate pavement; repair curb, gutter, and sidewalk; infill pedestrian paths; add buffered class II bike lanes, ADA and transit stop improvements, and streetlights at sidestreet intersections and other key points. Phase 1A: On San Juan Ave. from Madison Ave. to Chesline Dr.: Construct road rehabilitation, repair curb, gutter, and sidewalk, infill pedestrian paths; add buffered class II bike lanes, ADA and transit stop improvements, and streetlights at sidestreet intersections and other key points.(Phase 1B to be constructed under separate ID, SAC25316.)	\$3,283,000	293

ID	Lead Agency	Title	Description	Cost	Project Index
SAC25316	City of Citrus Heights	Sub-Project of Group04 - San Juan Ave. Complete Streets Rehabilitation - Phase 1B	On San Juan Ave., from Chesline Dr. to Spicer Dr.: Rehabilitate pavement; repair curb, gutter, and sidewalk; infill pedestrian paths; add buffered class II bike lanes, ADA and transit stop improvements, and streetlights at sidestreet intersections and other key points. (Environmental programmed as part of SAC25261, San Juan Ave. Complete Streets Rehabilitation - Phase 1)	\$3,000,000	294
SAC25011	City of Elk Grove	Sub-Project of Group04 - Arterial Roads Rehabilitation Project	In Elk Grove, Roadway Rehabilitation on Waterman Rd from 700 ft south of Bond to Elk Grove Blvd, on Waterman Road from Charolais Way to Grant Line Road, and on Elk Grove Florin Road from Elk Grove Blvd to Valley Oak Lane. Segments will include Class II bike lanes and may include minor shoulder improvements.. Toll Credits for CON	\$8,215,160	295
SAC25263	City of Elk Grove	Sub-Project of Group04 - Elk Grove-Florin Road Complete Street and Resurfacing	In the City of Elk Grove, on Elk Grove-Florin Road, from Elk Grove Boulevard to Calvine Road: resurface pavement, sidewalk gap closures, ADA curb ramp upgrades, the addition of new class II and class III bikeways, upgrades to video detection, and pedestrian interval prioritization.	\$3,794,782	296
SAC25306	City of Galt	Sub-Project of Group04 - Walnut Ave Improvements	In Galt, on Walnut Ave, from Carillion to Elk Hills Dr: Overlay the street and upgrade the bike lanes to high-visibility green standard. On Walnut Ave, west of Vintage Oak Ave for 400 feet, construct sidewalk gap closure. At Walnut Ave and Emerald Vista Dr construct pedestrian improvements.	\$2,260,000	297
SAC25259	City of Isleton	Sub-Project of Group04 - Main Street Road Rehabilitation and Streetscape Improvements	In Isleton on Main St. from E St. to H St.: Design and construct pavement rehabilitation, sidewalk repairs, ADA ramps, and streetscape improvements.	\$394,132	298
SAC25298	City of Rancho Cordova	Sub-Project of Group04 - Mather Field Road Rehabilitation Project	In the City of Rancho Cordova, on Mather Field Road between Folsom Boulevard and International Drive: rehabilitate the roadway, Class II bicycle lanes, medians improvements, install & replace sidewalks, improve ADA access & ramps, striping and traffic signal upgrades.	\$4,657,000	299
SAC24719	City of Sacramento	Sub-Project of Group04 - Complete Streets Rehabilitation - Bell Ave.	Bell Ave. from Bollenbacher Ave. to Astoria St.: Rehabilitate pavement, fill in sidewalk gaps, add new bicycle lanes, add two-way left turn lanes, and add bus pullouts. (CMAQ funds for new bike lanes and new bike/ped facilities). Toll Credits for ENG, CON	\$5,759,968	300

ID	Lead Agency	Title	Description	Cost	Project Index
SAC24722	City of Sacramento	Sub-Project of Group04 - Complete Streets Rehabilitation - Fruitridge Rd.	Fruitridge Rd., from 65th St. to Power Inn Rd.; rehabilitate pavement, upgrade signals and improve pedestrian crossings at intersections. Evaluate lane reduction for complete street improvements. (Toll Credits for PE and CON). T15036300. Toll Credits for ENG, CON	\$3,100,000	301
SAC25302	Sacramento County	Sub-Project of Group04 - Complete Streets Rehabilitation - Multiple Locations	1. Andrea-Antelope-Watt Complete Streets Rehabilitation: Andrea Boulevard, from Roseville Road to Elkhorn Boulevard; on Antelope North Road, from Olive Avenue to 250' north of Great Valley Drive; on Watt Avenue from A Street to Don Julio Boulevard: Construct Complete Street improvements consisting of an asphalt concrete overlay, installing new Class II bike lanes, performing traffic signal upgrades including new video detection cameras with bicycle detection, installing new ADA curb ramps, performing sidewalk repairs, and re-striping the roadway to enhance safety. 2. Greenback Lane Complete Streets Rehabilitation: Greenback Lane, from Fair Oaks Boulevard to Kenneth Avenue: Construct Complete Street improvements consisting of an asphalt concrete overlay, installing new Class II buffered bike lanes, performing traffic signal upgrades including new video detection cameras with bicycle detection, constructing new sidewalk areas at infill locations, installing new ADA curb ramps, performing sidewalk repairs, and re-striping the roadway to enhance safety.3. Central Ave and Greenback Lane Complete Streets Rehabilitation: Central Avenue from Main Avenue to Hazel Avenue; Greenback Lane from Kenneth Avenue to Beech Avenue: Construct Complete Street improvements consisting of an asphalt concrete overlay, upgrading shoulders and installing new Class II bike lanes, performing traffic signal upgrades including new video detection cameras with bicycle detection, installing new ADA curb ramps, performing sidewalk repairs, and re-striping the roadway to enhance safety. 4. 65th Street Complete Streets Rehabilitation: On 65th Street from Florin Road to Stockton Boulevard: Construct Complete Street improvements consisting of an asphalt concrete overlay, installing new Class II buffered bike lanes, installing new ADA curb ramps, performing sidewalk repairs, and re-striping the roadway to enhance safety.. Toll Credits for CON	\$19,176,000	302

ID	Lead Agency	Title	Description	Cost	Project Index
SAC25301	Sacramento County	Sub-Project of Group04 - Fruitridge Road Complete Streets Rehabilitation	In Sacramento County and in the City of Sacramento on Fruitridge Road, from SR 99 to Stockton Boulevard: Construct Complete Street improvements consisting of rubberized asphalt concrete (RAC), installing new Class II bike lanes and bicycle detection at signalized intersections, repairing damaged sidewalks, installing ADA improvements including new curb ramps, traffic signal upgrades including installation of video detection cameras, and re-striping the roadway to enhance safety.. Toll Credits for CON	\$5,139,000	303
SUT18858	City of Live Oak	Sub-Project of Group04 - Pennington Rd. Complete Streets Rehabilitation	Pennington Rd., from Connecticut Ave. to Broadway: reconstruct roadway and restripe existing bicycle lanes.. Toll Credits for CON	\$1,178,255	304
CAL20753	Caltrans D3	Sub-Project of Group04 - SR 20 In and Near Marysville Asphalt Overlay	On SR 20 in and near the City of Marysville, from Buchanan Street to 0.1 mile east of Levee Road (PM 1.6/R3.4): Maintenance asphalt overlay. [HM1 - Pavement Preservation Fed-Funded]. Toll Credits for ENG, ROW, CON	\$1,666,000	305
YUB16054	City of Marysville	Sub-Project of Group04 - 5th Street Road Rehabilitation	5th St., from SR 70 to J St., including the Medical Arts District: Rehabilitate road. On Second St. (2nd St.) from Hwy 70 to J St., including the Medical Arts District: Extend and realign (PSR only).. Toll Credits for CON	\$3,291,000	306
YUB16087	City of Wheatland	Sub-Project of Group04 - Wheatland Road Complete Streets Project	On Wheatland Rd. from State Route (SR-65) to Wheatland Park Rd.: Complete the design phase to rehabilitate pavement, improve and extend existing sidewalks and Class 2 bike lanes, and add safety lighting. On Wheatland Rd. from Wheatland Park Rd. to Oakley Ln.: Complete the design phase to rehabilitate pavement and add buffered Class II bike lanes.. Toll Credits for ENG	\$2,593,000	307
YUB16088	Yuba County	Sub-Project of Group04 - Feather River Blvd- State of Good Repair Project	On Feather River Blvd. in the unincorporated community of West Linda from Garden Ave. to Alicia Ave.: design and construct road rehabilitation, sidewalk gap closure on the southeast side of Feather River Blvd.; add sidewalks on the northwest side of Feather River Blvd., Class II bicycle lanes, crosswalks, storm drains, striping, signage, curbs, gutters, ADA compliant ramps, LED street lights, and transit stop shelters and benches.. Toll Credits for ENG, CON	\$2,402,000	308

ID	Lead Agency	Title	Description	Cost	Project Index
YUB16091	Yuba County	Sub-Project of Group04 - Hammonton -Smartsville Road Overlay and Shoulder Widening Project	East of the town of Linda: Between 2 miles and 4.9 miles east of Doolittle Drive: Widen shoulder.	\$3,122,000	309
Group20		Grouped Projects for Widening narrow pavements or reconstructing bridges (no additional travel lanes)		\$1,400,000	310
SAC25329	City of Galt	Sub-Project of Group20 - Kost Road Improvements at UPRR Crossing	Kost Road at Union Pacific railroad crossing, west of Joy Dr., east of Maria Wy.: Widen 400 feet of Kost Rd. on each side of the UPRR to construct a widened travel lanes, Class II bike lanes, and ADA-compliant pedestrian pathways. . Toll Credits for ENG	\$1,400,000	311
Group28		Grouped Projects for Bicycle and pedestrian facilities		\$324,164,198	312
ELD19509	City of Placerville	Sub-Project of Group28 - Placerville Drive Bicycle and Pedestrian Facilities	In the City of Placerville along Placerville Drive from west of the US 50 undercrossing to Armory Road: Construct bicycle facilities and sidewalks; on the west side of Green Valley Road from Placerville Drive to Mallard Lane: construct sidewalk. (Both Class II bike lanes and Class IV bikeways will be evaluated during the preliminary engineering phase.) (Phase 1 programmed as ELD19545). Toll Credits for ENG	\$11,868,444	313
ELD19545	City of Placerville	Sub-Project of Group28 - Placerville Drive Bicycle and Pedestrian Facilities Ph 1	In the City of Placerville, along Placerville Drive between Cold Springs Road and the Ray Lawyer Drive/Green Valley Road intersection and Green Valley Road from Placerville Drive to Mallard Lane: construct Class 2 and Class 4 bicycle facilities, sidewalks, crossing improvements, curb ramps, and transit improvements. (PA & ED completed under ELD19509).	\$14,618,000	314
ELD19380	El Dorado County	Sub-Project of Group28 - El Dorado Trail - Missouri Flat Road Ph 2 Bike/Pedestrian Overcrossing	Construct a multi-use bike and ped over-crossing structure with a 12 to 14 foot wide concrete deck on the El Dorado Trail over Missouri Flat Road. (CIP #97015). Toll Credits for ENG, ROW	\$5,772,000	315
ELD19543	El Dorado County	Sub-Project of Group28 - El Dorado Trail Extension - Halcon to US 50	In El Dorado County, in the community of Camino, existing Class 1 trail (El Dorado Trail), from Halcon Road to US 50 interchange: Extend trail.. Toll Credits for ENG, ROW	\$1,999,864	316

ID	Lead Agency	Title	Description	Cost	Project Index
ELD19541	El Dorado County	Sub-Project of Group28 - Pollock Pines - Pony Express Trail Bicycle and Pedestrian Improvements	In El Dorado County, in the community of Pollock Pines, Pony Express Trail, from Sanders Drive to Sly Park Road: Install 1.7 miles of Class II bike lanes and approximately 4600 linear feet of new and reconstructed pedestrian path and other improvements.. Toll Credits for ENG, ROW	\$2,830,000	317
ELD19542	El Dorado County	Sub-Project of Group28 - Ponderosa Road Bicycle and Pedestrian Improvements	El Dorado County, Shingle Springs, on Ponderosa Road, between Foxwood Lane and Ponderosa High School (at Meder Road): Install 0.72 miles of Class II bike lanes, 0.36 miles sidewalk, ADA upgrades, and other improvements.. Toll Credits for ENG, ROW, CON	\$2,216,500	318
PLA25645	City of Lincoln	Sub-Project of Group28 - Lincoln Boulevard Streetscape Improvements Project Phase 3	Lincoln Boulevard for a half mile and sections of First Street, Third Street, Fifth Street, Sixth Street and Seventh Street: construct streetscape improvements, including improved sidewalks and 0.3 miles of NEV/Bike Lanes.. Toll Credits for ENG, CON	\$3,079,980	319
PLA19910	City of Roseville	Sub-Project of Group28 - Dry Creek Greenway Trail, Phase 1	In Roseville, along Dry Creek, Cirby Creek and Linda Creek, construct class 1 bike trail from Riverside Avenue/Darling Way to Rocky Ridge Drive.	\$19,867,108	320
PLA25833	City of Roseville	Sub-Project of Group28 - Dry Creek Greenway Trail, Phase 2	In Roseville, along Linda Creek: Construct Class I bike trail from Rocky Ridge Drive to Old Auburn Way, a distance of approximately 1.4 miles.	\$5,000,000	321
PLA25849	City of Roseville	Sub-Project of Group28 - Mahany Park Trail Design and Construction	From Woodcreek Oaks Blvd. to Fiddymment Rd. construct Class 1 Trail through Mahany Park open space. Trail distance is approximately 1.5 miles.	\$3,925,000	322
PLA25702	City of Roseville	Sub-Project of Group28 - Washington Boulevard Bikeway and Pedestrian Pathways Project	In Roseville, on Washington Blvd. between All America City Blvd. and just south of Pleasant Grove Blvd.: Construct bicycle and pedestrian improvements adjacent to roadway.	\$5,982,000	323
PLA25670	PCTPA	Sub-Project of Group28 - Highway 49 Sidewalk Gap Closure	Along SR 49 from I-80 to Dry Creek Road In the City of Auburn and County of Placer construct sidewalks and ADA curb ramps at various locations and implement a Safe Routes to School program at six area schools.. Toll Credits for ENG, ROW, CON	\$18,083,176	324
SAC25064	City of Citrus Heights	Sub-Project of Group28 - Electric Greenway (Class I Multi-Use Trail)	In Citrus Heights: Between Arcade Creek Park Preserve and Wachtel Way; Construct a 2.9 mile long Class I Multi-Use Trail. (Also titled Arcade-Cripple Creek Trail).	\$9,326,000	325

ID	Lead Agency	Title	Description	Cost	Project Index
SAC25294	City of Citrus Heights	Sub-Project of Group28 - Old Auburn Road Complete Streets - Phase I	In the City of Citrus Heights, on Old Auburn Road, from Garry Oak Drive (east of Fair Oaks Blvd) to Tiara Way (west of Sunrise Blvd): Construct Class IV separated bikeways, sidewalk, pedestrian crossing upgrades, and pedestrian-scale lighting.	\$12,096,000	326
SAC25188	City of Elk Grove	Sub-Project of Group28 - Elk Grove Creek Trail Gap Closure	In Elk Grove, along the south side of Elk Grove Creek from Laguna Springs Drive to Oneto Park: Construct a separate Class I (off-street) bicycle/pedestrian trail. Along Laguna Springs Drive, from Elk Grove Boulevard to Laguna Palms Way: Construct Class II (on-street) bike lanes.	\$1,381,000	327
SAC25074	City of Elk Grove	Sub-Project of Group28 - Elk Grove Florin Road Sidewalk Infill SRTS	In Elk Grove: On Elk Grove Florin Road, between Valley Oak Lane and East Stockton Blvd, eliminate sidewalk gaps and improve ADA access, bus stop access, bicycle and pedestrian crossings, and overall safety in the corridor. Provide walking and biking education for three school communities: Florence Markofer Elementary, Joseph Kerr Middle School, and Elk Grove High School.	\$1,101,000	328
SAC25295	City of Elk Grove	Sub-Project of Group28 - Laguna Creek Inter-Regional Trail Crossing at State Route 99	In Elk Grove at Laguna Creek and State Route 99, between Sheldon Road and Bond Rd./Laguna Blvd.: Construct a Class I bicycle and pedestrian crossing over State Route 99.. Toll Credits for ENG, ROW	\$8,360,000	329
SAC25172	City of Elk Grove	Sub-Project of Group28 - Laguna Creek Trail and West Stockton Blvd. Multi Modal Improvements	In Elk Grove, Lewis Stein Road, from Sheldon Road to West Stockton Boulevard; and West Stockton Boulevard, from Lewis Stein Road to Dunisch Road: Construct approximately 2,800 feet of Class I multi-use trail parallel and south of West Stockton Blvd. and replace 34 non-compliant ADA curb ramps, install detectable warning surfaces at commercial driveways along Lewis Stein Rd.	\$1,435,110	330
SAC25307	City of Elk Grove	Sub-Project of Group28 - North Laguna Creek Area Big Horn Blvd and Franklin Blvd Improvements	Franklin Boulevard from Big Horn Boulevard to Laguna Boulevard: Replace the existing class II bike lanes with one-way class IV bikeways or cycle track for completion of the Franklin Boulevard Cycle Track Phase 2, add green pavement markings in high conflict areas. Big Horn Boulevard from Franklin Boulevard to Laguna Creek High School (Vicino Drive): Pavement maintenance and rehabilitation, create buffered bike lanes, add green pavement markings in high conflict areas, and upgrade curb ramps.	\$2,575,000	331
SAC25020	City of Folsom	Sub-Project of Group28 - Folsom/Placerville Rail Trail	On Folsom/Placerville Rail Trail parallel to East Bidwell St. between the existing Humbug-Willow Creek Trail and Scholar Way, and from Broadstone Pkwy. to Iron Point Rd.: Construct approximately 1.3 miles of Class I multi-use trail. (Emissions Benefits in kg/day: 0.04 ROG, 0.03 NOx, 0.01 PM10, 0.01 PM2.5). Toll Credits for CON	\$2,809,036	332

ID	Lead Agency	Title	Description	Cost	Project Index
SAC25175	City of Galt	Sub-Project of Group28 - C Street Enhancements	On C Street, from Civic Drive to Sixth Street: Construct new Class IV bikeway, new and replacement sidewalks, ADA improvements, crosswalks with stamped asphalt, refuge median islands, pedestrian scale lighting, and street furniture.. Toll Credits for CON	\$3,700,000	333
SAC25299	City of Rancho Cordova	Sub-Project of Group28 - Chase Drive - American River Parkway Connection Project	In Rancho Cordova, on Chase Drive, from Coloma Road to Hagan Community Park: construct active transportation connectivity and safety improvements including a Class I multiuse path, landscaped parkway including Low Impact Development features, pedestrian-level lighting, ADA curb ramps, curb and gutter, and high visibility crosswalks.	\$3,300,000	334
SAC25177	City of Rancho Cordova	Sub-Project of Group28 - Zinfandel Drive Bicycle and Pedestrian Crossing	In Rancho Cordova, from White Rock Road to Folsom Boulevard (crossing the interchange at US 50): Create a Class 1 path. . Toll Credits for ENG	\$22,541,000	335
SAC25296	City of Sacramento	Sub-Project of Group28 - American River Bridge Shared-Use Trail	In Sacramento, adjacent to the American River Bridge of State Route 51 [post mile 2.3 to 2.9]: Construct a shared-use trail as part of the American River Bridge Deck Replacement Project (CAL20691).	\$0	336
SAC24999	City of Sacramento	Sub-Project of Group28 - Del Rio Trail	In Sacramento, along unused rail corridor near Freeport Blvd from Sutterville Road to south of Meadowview/Pocket Road (4.5 miles): Build rails to trails project.. Toll Credits for CON	\$14,801,000	337
SAC25063	City of Sacramento	Sub-Project of Group28 - Northwood School and Transit Access Improvements	Northern Sacramento City near the Northwood Elementary School and Swanston Light Rail Station: Construct curbs, gutters, sidewalks, crosswalks, and curb ramps on Fienza Ave, Clay St., Lexington St., and El Camino Ave.. Toll Credits for ENG, CON	\$4,611,000	338
SAC25264	City of Sacramento	Sub-Project of Group28 - Sacramento River Parkway Phase 1	In Sacramento, adjacent to the Sacramento River, on top of the levee from Garcia Bend Park to Arabella Way (Phase 1): Build a multi-use trail to close the gap in the existing trail between Garcia Bend Park and Zacharias Park. PE is for both Phase 1 (Garcia Bend Park to Arabella Way) and Phase 2 (Arabella Way to Zacharias Park). [Phase 2 is programmed separately as SAC25265]. Toll Credits for ENG, ROW	\$5,260,000	339
SAC25265	City of Sacramento	Sub-Project of Group28 - Sacramento River Parkway Phase 2	In Sacramento, adjacent to the Sacramento River, on top of the levee from from Arabella Way to Zacharias Park (Phase 2): Build a multi-use trail to close part of the gap in the trail between Garcia Bend Park and Zacharias Park. Also establish trail connections in the Pocket neighborhood. [PE is programmed on Sacramento River Parkway Phase 1 SAC25264]. Toll Credits for CON	\$7,835,000	340
SAC24745	City of Sacramento	Sub-Project of Group28 - South Sacramento Parkway Trail - West	Adjacent to I-5, south of Pocket Road/Meadowview Road and Freeport Boulevard, build Class I bike trail connecting the Freeport Shores Bike Trail to the existing North Delta Shores Bike Trail.	\$914,000	341

ID	Lead Agency	Title	Description	Cost	Project Index
SAC24486	City of Sacramento	Sub-Project of Group28 - Two Rivers Trail Phase II	Study and design bike/ped connections between the Northern Bicycle Trail and western side of Sutter's Landing Park (Phase 3) and between the eastern side of Sutter's Landing Park and H St (Phase 2). Build Phase 2: construct the eastern segment of the multi-use path, connecting the American River Parkway at H St. in East Sacramento to the trail at Sutter's Landing Park in Midtown. Additional study of future bicycle trail connections across the American River, crossing the Capitol City Freeway, and extending east along the American River towards California State University at Sacramento. Construction of Phase 3 project will be programmed in SAC24755. (Emission Benefits in kg/day: 0.02 ROG, 0.02 NOx, 0.02 PM10) K15125000. Toll Credits for ENG	\$6,398,422	342
SAC25182	Sacramento County	Sub-Project of Group28 - Arden Way Complete Streets, Phase 1	In the Arden-Arcade area of Sacramento County, Arden Way from Ethan Way to Morse Avenue: Complete Street Master Plan. Arden Way, from Morse Avenue to Watt Avenue: Environmental clearance, final design, right-of-way clearance, and construction of complete street improvements for the segment, specifically sidewalks, continuous Class II or IV bikeways, traffic signal modifications, improved crossings, bus turnouts, bus stations, channelized landscaped medians, and improved street lighting.. Toll Credits for ROW, CON	\$8,065,000	343
SAC25297	Sacramento County	Sub-Project of Group28 - Arden Way Complete Streets, Phase 2	In the Arden-Arcade area of Sacramento County, Arden Way from Ethan Way to Morse Avenue: Environmental Clearance. Arden Way, from Fulton Avenue to Morse Avenue: design, acquire right-of-way, and construct complete street improvements including separated sidewalk, curb and gutter, new Class II or IV bikeways, bus turnouts, and landscaping.	\$5,225,000	344
SAC25086	Sacramento County	Sub-Project of Group28 - Fair Oaks Blvd. Bicycle and Pedestrian Mobility Project, Phase 2	Fair Oaks Boulevard between Howe Avenue and Munroe Street: Create a smart growth corridor with barrier-separated bicycle lanes, widening and/or separating sidewalks, and installing landscaping, shade trees, and street lighting. The project will also include a road diet from 6 to 4 lanes, two new traffic signals at University Avenue and Fulton Avenue and signal modifications at Sierra Boulevard to improve safety, enhance circulation for bicycle and vehicles, and provide ADA accessibility for pedestrians.(See Fair Oaks Boulevard. Bicycle and Pedestrian Mobility Project Phase 1, SAC24749.). Toll Credits for CON	\$6,800,002	345

ID	Lead Agency	Title	Description	Cost	Project Index
SAC25257	Sacramento County	Sub-Project of Group28 - Fern Bacon Middle School SRTS Improvements	Martin Luther King Jr. Boulevard from 41st Avenue to 48th Avenue, Wesley Avenue from 48th Avenue to Cuny Avenue, and Cuny Avenue from Wesley Avenue to Bowling Drive: Install sidewalks, buffered bike lanes, new crosswalks, curb paint, and signage.	\$1,721,000	346
SAC25076	Sacramento County	Sub-Project of Group28 - Howe Avenue Bicycle and Pedestrian Improvements	In Sacramento County: On Howe Avenue from Cottage Way to El Camino Avenue, construct 0.6 miles of Class 2 bike lanes, 850 lineal feet of new sidewalk, 675 feet of separated lighted pedestrian walkway, a road diet from 4 to 2 lanes, the modification of two intersections and traffic signals for bike lanes, accessibility, bike detection, and safety enhancements.	\$3,611,000	347
SAC25281	Sacramento County	Sub-Project of Group28 - South Sacramento County Safe Routes to School Project	In unincorporated South Sacramento County, surrounding Ethel Baker ES, Nicholas ES, and Pacific ES: Construct curb extensions, crosswalks, curb ramps, hardened median, expanded transit stop, widened sidewalk, speed humps, and provide bike/ped education programming at 3 schools.	\$2,344,000	348
SAC25303	Sacramento County	Sub-Project of Group28 - South Sacramento Sidewalk Gap Closure Project	Various locations in the South Sacramento area of Sacramento County, along Power Inn Road, Stevenson Avenue, Elsie Avenue, and Cottonwood Lane: Construct sidewalk gap closures, including crossing upgrades and ADA curb ramp upgrades, and install streetlights. (Some locations are near Anna Kirchgator Elementary School and Florin High School). Toll Credits for ENG	\$3,394,000	349
SAC25187	Sacramento County	Sub-Project of Group28 - Watt Avenue Complete Street Improvements, Phase 1	In Sacramento County: Watt Avenue from Orange Grove Avenue to Roseville Rd.: Construct buffered bike lanes, separated sidewalks and landscape medians and improve signalized intersections. The project also extends bike lane and sidewalk improvements south from Orange Grove Avenue to I-80 westbound ramps.	\$14,060,000	350
SAC25269	Southeast Connector JPA	Sub-Project of Group28 - Capital SouthEast Connector - D3a Class I Multi-Use Path	In Folsom/Sacramento County, on White Rock Rd from Prairie City Rd to neighborhood east of East Bidwell St: Construct Class I multi-use path. (See D3a SAC24250).	\$5,200,000	351
SAC25285	Southgate Rec. and Park	Sub-Project of Group28 - Tillotson Parkway Extension	In Sacramento County, from current path north of Smedberg Middle School to east of the school, construct class I multi-use path gap closure.	\$400,000	352
SUT18838	City of Live Oak	Sub-Project of Group28 - Live Oak Community Trail Segment 4	West of SR 99 in the City of Live Oak, along the abandoned Sacramento Northern Railroad corridor, from Kola St. to Epperson Wy. (approx. 1/4 mi): Construct class 1 pedestrian/bicycle trail with landscaping and benches.	\$555,000	353

ID	Lead Agency	Title	Description	Cost	Project Index
SUT18932	City of Yuba City	Sub-Project of Group28 - Harter Parkway and Sutter Bike Path Gap Closure	In Yuba City: From Hooper Road to Harter Parkway on the north side of Jefferson Avenue and on Harter Parkway from Butte House Road to Spirit Way, extend the existing 4.6-mile-long Sutter Bicycle Path from Hooper Road to Harter Parkway and build a Class I shared use path on Harter Parkway from Butte House Road to State Route 20.	\$2,510,000	354
YOL19382	City of Davis	Sub-Project of Group28 - 14th Street / Villanova Corridor Improvements	In Davis, on 1) Fourteenth Street between F Street and Oak Ave; and 2) Villanova Drive between Anderson Road and Sycamore Lane, construct bike/ped safety improvements along 14 St. and Villanova Dr., including Safe Routes to School infrastructure improvements for North Davis Elementary School. . Toll Credits for CON	\$2,518,175	355
YOL19332	City of Davis	Sub-Project of Group28 - Bicycle and Pedestrian Wayfinding & Data Collection Program	In Davis, citywide, implement a bicycle and pedestrian wayfinding system and install permanent and temporary automated bicycle and pedestrian counters at strategic locations. (Emission Benefits in kg/day: 0.61 ROG, 0.35 NOx, 0.14 PM10, 0.14 PM2.5)	\$207,000	356
YOL19536	City of Davis	Sub-Project of Group28 - H Street Pathway & Parking Improvements- Phase II	Davis, on H Street, from the H Street bike/pedestrian tunnel entrance to just south of the Davis Little League fields: Construct parking, roadway improvements, and traffic calming improvements. On H Street, between J Street and H Street: Construct pathway improvements at existing H Street tunnel, retaining wall improvements, new sidewalk, installation of fencing, utility adjustments, and new pathway along H Street.	\$2,225,000	357
YOL19531	City of West Sacramento	Sub-Project of Group28 - I Street Bridge Deck Conversion for Active Transportation Project	In the Cities of West Sacramento and Sacramento, I Street Bridge. Transform the upper deck of a historically significant railroad bridge (NRHP No. 82002233) from vehicle access to a dedicated bikeway and walkway connecting West Sacramento and Sacramento.	\$21,646,000	358
YOL19534	City of West Sacramento	Sub-Project of Group28 - Sycamore Trail Extension (Phase 3)	In West Sacramento, along the easement from Westmore Oaks School to the Park Blvd and Stone Blvd. intersection: construct Class 1 trail extension.	\$2,689,000	359
YOL19386	City of West Sacramento	Sub-Project of Group28 - Sycamore Trail Phase 2 and 3 Bicycle and Pedestrian Overpass	Sycamore Trail, from Westmore Oaks School over US 50 connecting with Joey Lopes Park (Phase 2) and from Westmore Oaks Elementary School to the intersection of Park Blvd. and Stone Blvd (Phase 3): Clear environmental for a 1,500 foot concrete overpass. From Westmore Oaks Elementary School over US 50, connecting with Joey Lopes Park (Phase 2): Construct bicycle/pedestrian 1,500 foot concrete overpass. (Phase 3 construction to be programmed separately).	\$11,538,808	360

ID	Lead Agency	Title	Description	Cost	Project Index
YOL19456	City of West Sacramento	Sub-Project of Group28 - Washington District Gateway (River Walk North) - Phase 1	In the City of West Sacramento, Washington District, along the levee, from I Street Bridge to Broderick Boat Ramp, along D Street and 2nd Street into heart of Washington District at 3rd Street: Construct Class I trail extension. On 3rd Street between D Street and E Street: Construct mid-block crossing. On West side of 3rd Street between C and D Streets, and on south side of C Street between 3rd and 4th Streets: Construct streetscape improvements. . Toll Credits for ENG	\$5,670,573	361
YOL19538	City of West Sacramento	Sub-Project of Group28 - Washington District Gateway (River Walk North) - Phase 2	In the City of West Sacramento, Washington District, at 3rd St railroad crossing: Construct pedestrian rail crossing improvements.	\$191,000	362
YOL19529	City of Winters	Sub-Project of Group28 - SR128/I-505 Overcrossing (Br. 22-0110)/Russell Blvd Bicycle and Pedestrian Improvements	In Winters, On Grant Ave/SR128 from Matsumoto Lane over Interstate 505 (SR 128-505 Sep. Br. 22-0110) then easterly on Russell Blvd/CR32 to Shams Way, a residential street in El Rio Villa: Modification of interchange ramps, widening of Br. 22-0110, widen existing sidewalk, construct sidewalks, bike lanes, crosswalks, and ADA improvements. See YOL19392 for previous phase.. Toll Credits for ENG	\$11,351,000	363
YUB16085	Yuba County	Sub-Project of Group28 - Cedar Lane Elementary - Safe Routes to Schools Project	Around Cedar Lane Elementary School in the community of West Linda, Alicia Avenue, between Riverside Drive and Feather River Boulevard; Cedar Lane between Alicia Avenue and Garden Avenue: New sidewalks, crosswalks, striping, signage, ADA compliant ramps, storm drains, curbs, gutters, and Class III bicycle routes.. Toll Credits for CON	\$2,985,000	364
YUB16089	Yuba County	Sub-Project of Group28 - Garden Avenue Safe Route to School Project	In the unincorporated community of West Linda in Yuba County, along Garden Avenue between Riverside Drive and Feather River Boulevard: Design and construction of Class II bicycle lanes, sidewalks, new crosswalks, striping, ADA compliant ramps, and curbs and gutters.	\$2,500,000	365
YUB16065	Yuba County	Sub-Project of Group28 - McGowan Parkway Bicycle Lane and Pedestrian Route Improvements	In Olivehurst, along McGowan Parkway between SR 70 and Olive Ave.: Construct sidewalks, Class II bicycle lanes, ADA-compliant ramps, striping, traffic control devices, storm drain, and new crosswalks. Project includes a locally funded continuous left-turn lane. (SB 1 funds are LPP Formula that Yuba County receives.)	\$3,072,000	366

SAC25330	City of Folsom	Sub-Project of Group16 - Central Business Dist. Streetscape Study	Conduct a study to evaluate current roadway configurations along East Bidwell Street and Riley Street in the Central Business District (defined as south of Natoma Street and north of Blue Ravine Road). The goal of this study is to determine if bicycle and pedestrian improvements are feasible, whether these arterials could be re-configured as a one-way couplet, and an assessment of any mid-block bicycle and pedestrian connections, particularly in the vicinity of existing and planned affordable housing projects.	\$100,000	368
SAC25331	City of Isleton	Sub-Project of Group16 - General Plan Update Phase 4	Analysis of development capacity within city limits and other statistical analysis that will help guide the General Plan update process.	\$100,000	369
SUT56275	City of Live Oak	Sub-Project of Group16 - General Plan Update	In Live Oak: Update the Land Use Element, Circulation Element, Public Utilities Services and Facilities Element, Public Safety, and Environmental Justice Element, and the associated Environmental Impact Report in Live Oak's General Plan.	\$250,000	370
SUT18938	City of Live Oak	Sub-Project of Group16 - Live Oak Housing Element Update and Community Visioning Plan	In Live Oak: Complete a housing element update and a City of Live Oak Visioning Plan.	\$110,000	371
VAR56196	SACOG	Sub-Project of Group16 - PPM Sacramento, Sutter, Yolo, Yuba Counties	For SACOG staff to plan, program and monitor (non-construction) for the counties of Sacramento, Sutter, Yolo, and Yuba. (Previous phases: SAC21710, SUT10450, YOL17010, YUB15630) [COVID-Relief Funds- STIP are state-only funds.]	\$8,795,000	372
VAR56281	SACOG	Sub-Project of Group16 - Regional Transit Network Plan	This planning effort will begin implementation the Next Generation Transit Strategies and will focus on developing a regional transit network that improves transit travel speed and near-term infrastructure improvements to support high-capacity transit services to assist our regional transit operators in their post-pandemic transit recovery activities, which includes surveying efforts. This project is funded by FFY 2021 American Rescue Plan Act funds. No matching funds are required for these federal stimulus funds.	\$1,000,000	373
YOL19539	City of West Sacramento	Sub-Project of Group16 - Sacramento Avenue Complete Streets Corridor Improvement Plan	In West Sacramento: Outline a vision of transportation and land enhancements for the Sacramento Avenue Corridor. Planning work includes documenting existing conditions and challenges, providing design recommendations, and presenting an implementation plan.	\$308,370	374

ID	Lead Agency	Title	Description	Cost	Project Index
YOL19457	City of Winters	Sub-Project of Group16 - General Plan Refresh and Sustainability Element	In Winters: Update General Plan Elements to address key planning goals, adopt a new Sustainability Element, revise elements and goals to include previous master plans and goals, and develop an online presentation of the City's Plan and objectives.	\$0	375
YOL19533	Yolo County	Sub-Project of Group16 - CR 32A Railroad Crossing Relocation Project Positioning	A Project Study Report (PSR) for County Road (CR) 32A Railroad Crossing Relocation was completed in November 2021. The PSR proposed alternatives for relocating the existing at-grade Union Pacific Railroad crossing currently located on the CR 32A at CR 105 for improved railroad crossing safety and preservation of farming access. This "Project Positioning" work is expected to include, but not be limited to: beginning very preliminary right-of-way research/exploration for the PSR-recommended alternative, creating a feasible funding plan for the project, assembling a reasonable schedule for project completion. This "Project Positioning" work is also expected to roll into preliminary engineering and environmental for the PSR-recommended alternative.	\$100,000	376
YCT18288	Yolobus/YCTD	Sub-Project of Group16 - YCTD SRTP and Zero Emission Fleet Plan	Prepare Short Range Transit Plan (SRTP) and Zero Emission Fleet Conversion Plan. Includes FFY20 5307 Sac UZA Competitive funds of \$127,600.	\$400,000	377
YUB16081	City of Marysville	Sub-Project of Group16 - Gavin and Veterans Park Modernization Project	In Marysville, at Gavin Park and Veterans Park: Improve pedestrian circulation and bicycle linkages and construct park modernization elements.	\$110,000	378
VAR56276	SACOG	Sub-Project of Group16 - Planning Programming and Monitoring (RSTP) Phase 4	Conduct necessary planning, state and federal programming, and monitoring activities, including updates to the MTP, revisions to the MTIP and STIP, ensuring timely delivery of projects using state and federal funds, coordination with FHWA, FTA, Caltrans, CTC, transit operators, and local project sponsors. Ongoing. (See VAR56008, VAR56101, VAR56197). Toll Credits for CON	\$1,650,939	379
Group02		Grouped Projects for Activities that do not lead to construction		\$28,317,314	380
CAL21403	Caltrans HQ	Sub-Project of Group02 - FTA 5310 El Dorado County Transit - Dispatching/Scheduling Software	El Dorado County Transit will use FTA 5310 funds awarded by Caltrans to upgrade their dispatching/scheduling software. The project received \$60,000 in small urban funds and \$120,000 in Sacramento UZA funds. This project is 100% federally funded and does not require a local match.	\$180,000	381

ID	Lead Agency	Title	Description	Cost	Project Index
CAL21407	Caltrans HQ	Sub-Project of Group02 - FTA 5310 - Nevada-Sierra Connecting Point Public Authority - Mobility Management	Nevada-Sierra Connecting Point Public Authority will use FTA 5310 funds awarded by Caltrans to provide mobility management services in Placer County including trip planning assistance to seniors and people with disabilities, and assistance with signing up for discounted fares and/or paratransit services. The project received \$556,010 in Sacramento UZA funds. This project is 100% federally funded and does not require a local match.	\$556,010	382
PLA25468	PCTPA	Sub-Project of Group02 - Placer County Congestion Management Program FY 2011 - 2022	Provide educational and outreach efforts regarding alternative transportation modes to employers, residents, and the school community through the Placer County Congestion Management Program (CMP). CMP activities will be coordinated with the City of Roseville and SACOG's Regional Rideshare / TDM Program. (Emission Benefits kg/day: ROG 7.68; NOx 6.30; PM2.5 3.53). Toll Credits for CON	\$1,256,813	383
PLA25839	PCTPA	Sub-Project of Group02 - Placer County Congestion Management Program FY 2023+	Provide educational and outreach efforts regarding alternative transportation modes to employers, residents, and the school community through the Placer County Congestion Management Program (CMP). CMP activities will be coordinated with the City of Roseville and SACOG's Regional Rideshare / TDM Program. (Emission Benefits kg/day: ROG 7.68; NOx 6.30; PM2.5 3.53)	\$89,371	384
PLA25679	PCTPA	Sub-Project of Group02 - Planning, Programming, Monitoring 2019-2027	PCTPA plan, program, monitor (PPM) for RTPA related activities.	\$886,000	385
CAL21404	Caltrans HQ	Sub-Project of Group02 - FTA 5310 - ACC of Sacramento Valley - Computers and Monitors	Asian Community Center of Sacramento Valley will use FTA 5310 funds awarded by Caltrans to purchase not computers to allow them to continue operating their ACC Rides transportation services. The project received \$7,795 in Sacramento UZA funds. This project is 100% federally funded and does not require a local match.	\$7,795	386
PAR10035	Paratransit Inc.	Sub-Project of Group02 - Paratransit- Travel Training (Mobility Management)	Expansion of Paratransit, Inc.'s regional travel instruction programs (for older adults, persons with disabilities, and youth) to a program eligible to anyone interested in accessing the region's fixed route, light rail and shared mobility services.	\$625,000	387
CAL21408	Caltrans HQ	Sub-Project of Group02 - FTA 5310 - Paratransit, Inc. - Mobility Management	Paratransit, Inc. will use FTA 5310 funds awarded by Caltrans to provide mobility management regional travel training for seniors and people with disabilities. The project received \$300,000 in Sacramento UZA funds. This project is 100% federally funded and does not require a local match.	\$300,000	388

ID	Lead Agency	Title	Description	Cost	Project Index
VAR56208	SACOG	Sub-Project of Group02 - Connect Card Implementation	Implementation and operational activities associated with Connect Card. Connect Card is an electronic transit fare collection system for the transit agencies in the Sacramento Region. (See VAR56207.). Toll Credits for CON	\$198,089	389
VAR56277	SACOG	Sub-Project of Group02 - Remix software and transit technical assistance	Remix Software, Inc. is the sole manufacturer and service provider of the only cloud-based software service that offers an integrated package of data tools to analyze a broad range of transit route planning considerations. SACOG staff will provide transit planning and other technical assistance using Remix. Toll/Transportation Development Credits will be used for match.. Toll Credits for CON	\$200,000	390
VAR56195	SMAQMD	Sub-Project of Group02 - SECAT Program Phase 3	Phase 3 of Sacramento Emergency Clean Air Transportation Program (SECAT), Heavy-Duty NOx control strategies. (Phase 1 SAC22090, Phase 2 VAR56037) (Emission Benefits in kg/day: 236 NOx, 21 PM10, 9 ROG. And in kg/day for each \$3m increment: 835 NOx, 109 ROG) (Toll Credits). Toll Credits for CON	\$20,019,428	391
VAR56201	SMAQMD	Sub-Project of Group02 - Spare the Air Phase 3	Sacramento Federal Non-attainment Area: Spare The Air Voluntary Driving Curtailment Program. [Continued from SAC21080 and VAR56006] (Emission Benefits in kg/day: ROG 0.2, NOx 0.2)	\$3,058,808	392
YCT18289	Yolobus/YCTD	Sub-Project of Group02 - YCTD Automatic Passenger Counters (APCs) and GTFS-Realtime Enhancements	Purchase and install Automatic Passenger Counters (APCs) and technology tools and software to enable GTFS-Realtime enhancements. Includes FFY21 5339 Sac UZA competitive funds of \$299,900.	\$940,000	393
Group10		Grouped Projects for Transportation enhancement activities		\$47,883,242	394
SAC24732	City of Citrus Heights	Sub-Project of Group10 - Auburn Blvd. Complete Streets - Phase 2 (Rusch Park to Whyte Avenue intersection)	Auburn Blvd. from the northern city limits, including Whyte Ave intersection in City of Roseville, to Rusch Park: Construct class II bicycle lanes, landscape buffered sidewalks, transit stop improvements. On Auburn Blvd. near Whyte Ave., construct new gateway traffic signal/intersection. On Whyte Ave at Auburn Blvd., close left turns from Whyte. Ave. (CMAQ funds only for eligible activities.) (\$1,512,000 ATP for CON and \$13,000 for CON Non-Infrastructure) (\$1,000,000 of this project is for undergrounding, which will be non-participating. Therefore the project is still 100% federal with toll credits, excluding the \$1m from the federal participating amount.) (\$2,860,000 in CON is Solutions for Congested Corridor Funds from SB 1)	\$30,663,242	395

ID	Lead Agency	Title	Description	Cost	Project Index
SAC24169	City of Elk Grove	Sub-Project of Group10 - Old Town Elk Grove Streetscape Phase 2	In Elk Grove, Elk Grove Boulevard, from School St. to Waterman Rd.: Street frontage improvements, including: expanded decorative sidewalks & landscape strips, corner bulb-outs,landscaped median islands at intersections/pedestrian crossings, crosswalks, bike lanes/routes, signs and striping, bus shelters, related frontage improvement features and potential utility undergrounding. Project may include bike and bus improvements at the City proposed Railroad Avenue Plaza. The Plaza improvements would be along Elk Grove Boulevard near Railroad Avenue, just east of the UPRR Railroad Tracks in Old Town Elk Grove.	\$7,036,800	396
SAC25017	City of Sacramento	Sub-Project of Group10 - 16th Street Streetscape - H st. to Richards Blvd.	North 16th St./Lincoln Highway, from H St. to Richards Blvd.: Streetscape improvements, including restriping travel lanes to 11 feet, on street parking on both sides, curbs, six foot separated sidewalk, and pedestrian lighting.	\$4,001,000	397

YST10535	Yuba Sutter Transit	Sub-Project of Group35 - Commuter Bus Fleet Replacement & Minor Fleet Expansion	Purchase six heavy-duty, high floor, clean diesel commuter buses (40' - 45') to replace six buses	\$3,600,000	469
YST10453	Yuba Sutter Transit	Sub-Project of Group35 - Demand Response Fleet Replacement	Purchase six demand response gasoline powered replacement buses to replace six diesel powered demand response buses.	\$960,000	470
YST10538	Yuba Sutter Transit	Sub-Project of Group35 - Demand Response Fleet Replacement	Purchase ten demand response gasoline powered replacement buses to replace ten gasoline powered demand response buses.	\$1,600,000	471
CAL21406	Caltrans HQ	Sub-Project of Group35 - FTA 5310 - Dignity Community Care - Buses	Dignity Community Care will use FTA 5310 funds awarded by Caltrans to purchase two gasoline powered buses to allow them to continue and expand their transportation services. The project received \$168,000 in Sacramento UZA funds. This project is 100% federally funded and does not require a local match.	\$168,000	472
UNI10479	Unitrans	Sub-Project of Group35 - City of Davis & Unitrans Rolling Stock Purchases	For the FY 2023 - FY 2026 quadrennial period:City of Davis/Davis Community Transit - Purchase one replacement gasoline-fueled paratransit vehicle per year for Davis Community Transit operations to maintain service reliability. Unitrans - Purchase two replacement diesel-fueled high-capacity buses and eight full size, heavy duty, 35-40 passenger, replacement battery-electric buses to maintain service reliability. All vehicles purchased by the City of Davis and Unitrans will be fully accessible in compliance with the Americans with Disabilities Act (ADA).	\$6,648,000	473
YCT18277	Yolobus/YCTD	Sub-Project of Group35 - Battery Electric Bus Purchase	Purchase four (4) 40-foot Battery Electric Buses.	\$4,100,000	474
Group38		Grouped Projects for Safety Improvements, Shoulder Improvements, Pavement resurfacing and/or rehabilitation - Minor Program		\$1,000,000	475
CAL21387	Caltrans D3	Sub-Project of Group38 - SAC and SUT Bridge Rehab	In Sacramento and Sutter Counties, at the Route 99/5 Connector Overcrossing No. 24-0241F (PM R32.13), at the Garden Highway Undercrossing No. 18-0025R and at Arcade Creek Bridge No. 24-0126: Replace approach slabs.	\$1,000,000	476
Group22		Grouped Projects for Intersection Channelization		\$48,630,610	477

ID	Lead Agency	Title	Description	Cost	Project Index
PLA25673	City of Roseville	Sub-Project of Group22 - Washington Bl/All America City Bl Roundabout	In Roseville, at the intersection of Washington Blvd/All America City Blvd., design and construct a 2-lane roundabout.. Toll Credits for CON	\$6,339,276	478
PLA25671	Placer County	Sub-Project of Group22 - Bell Road at I-80 Roundabouts	The project will replace the existing traffic signal and all-way stop control at the Bell Road / Interstate 80 interchange with two roundabouts.. Toll Credits for ENG, ROW, CON	\$7,424,177	479
SAC25171	City of Elk Grove	Sub-Project of Group22 - Laguna Blvd Right Turn Lane to W. Stockton Blvd	In Elk Grove, from the southbound State Highway 99 off-ramp to West Stockton Boulevard: Construct a dedicated right-turn lane on Laguna Boulevard.	\$2,048,000	480
YOL19333	Yolo County	Sub-Project of Group22 - CR 98 Safety and Bicycle Improvement - Phase 2	In Yolo County, along County Road (CR) 98 from 1,300 feet south of CR 29 (extent of CR 98 Phase I Project) to Solano County: Widen the road, adding shared eight-foot paved shoulders, roundabouts at intersections with CR 31, CR 32 and Hutchison Dr., and connect the University of California at Davis to the existing Class I Bikeway along the south side of Russell Boulevard (CR 32), west of the City of Davis.. Toll Credits for ROW	\$31,979,157	481
YUB16090	Yuba County	Sub-Project of Group22 - Hammonton Smartsville & Doolittle Drive Intersection Project	In unincorporated Yuba County, at the intersection of Hammonton-Smartsville Road (HSR) and Doolittle Drive: Add left-turn lane for westbound HSR; add right-turn lane and acceleration lane on eastbound HSR; and widen shoulders on both sides of HSR. Project will also construct a vertical curve correction to improve sight distance east of the HSR and Doolittle Drive intersection.	\$840,000	482
Group11		Grouped Projects for Intersection Signalization		\$20,743,500	483
SAC25270	City of Rancho Cordova	Sub-Project of Group11 - White Rock Road - Sunrise Blvd to Fitzgerald Rd	On White Rock Road, from Sunrise Blvd to Fitzgerald Road: Install a new traffic signal at Gold Valley Dr, center medians, bike lanes, striping and road rehabilitation. (Environmental completed for this project in SAC24470.)	\$2,442,500	484
SAC25287	City of Sacramento	Sub-Project of Group11 - Pedestrian Crossing at R and 29th/30th Street	On R Street, at the 29th and 30th Street intersections: Signalize both intersections, construct bulb‐outs, interconnect the signals with light rail operations, and relocate existing crossing signals.	\$3,750,000	485

ID	Lead Agency	Title	Description	Cost	Project Index
SAC25273	Sacramento County	Sub-Project of Group11 - Greenback Lane Complete Street Improvements	Greenback Lane, from Chestnut Avenue to Folsom City Limits: Install Class II Bike lanes, separated sidewalks, ADA upgrades that include curb ramps, bicycle detection, bus stop and transit access improvements, and landscape/streetscape enhancements. The project also includes signalization of the Chestnut Avenue/Greenback Lane intersection and the undergrounding of overhead utility lines.	\$14,551,000	486
Group12		Grouped Projects for Interchange Reconfiguration		\$45,167,000	487
PLA25847	City of Rocklin	Sub-Project of Group12 - I-80/Rocklin Rd. Interchange Improvements	In Rocklin, at the I-80 and Rocklin Road interchange: reconfigure interchange to diverging diamond interchange with class II bike lanes and sidewalks. (Formally PLA25345 with different scope.)	\$40,000,000	488
SAC25309	City of Folsom	Sub-Project of Group12 - US 50/East Bidwell Improvement Project	In Folsom, on East Bidwell Street at Iron Point Road: Convert one westbound through lane at East Bidwell Street to a third left turn lane. At westbound on-ramp from East Bidwell Street onto US Highway 50: Add a second mixed flow lane or add HOV improvements.. Toll Credits for ENG	\$5,167,000	489
Group39		Grouped Projects for Changes in Vertical and Horizontal Alignment		\$3,821,000	490
SAC25300	Southeast Connector JPA	Sub-Project of Group39 - Scott Road Realignment	In Folsom unincorporated Sacramento County, on Scott Road from approximately 1-mile south of White Rock Road to Prairie City Road: Reconstruct existing 2-lane road to meet current geometric standards. Construct new roundabout intersection at California State Parks entrance.	\$3,821,000	491
Group05		Grouped Projects for Engineering		\$8,493,000	492
PLA25859	City of Rocklin	Sub-Project of Group05 - I-80 Westbound Auxiliary Lane	In Rocklin, Westbound I-80 from Rocklin Road to Highway 65, Construct Auxiliary Lane (4,500 feet) (PE only, Total Cost = \$10,000,000). Toll Credits for ENG	\$1,400,000	493

ID	Lead Agency	Title	Description	Cost	Project Index
SAC25332	City of Elk Grove	Sub-Project of Group05 - Grant Line Rd and Wilton Rd Operational Improvements	In Elk Grove, on Grant Line Rd., from Sherman Oaks Ct. to Aleilani Lane: Intersection operational improvements, consistent with the JPA future project. The project would improve traffic operations to the intersection of Grant Line Rd./Wilton Rd. and immediate vicinity, in the form of a signal modification or a roundabout, with possible realignment of Wilton Road to the south, modification of the intersection of Grant Line Rd. and Pleasant Grove School Rd, and modification of adjacent commercial driveways to address conflicts. (PE Only. Total Project Cost: \$12,000,000)	\$1,000,000	494
SAC25009	City of Sacramento	Sub-Project of Group05 - Franklin Boulevard Streetscape (PE Only)	In Sacramento, Franklin Blvd., from 38th Ave. to Sutterville Rd: Reduce from four lanes to two lanes with a two-way left-turn lane (on-street parking as appropriate, construction of curb, gutter, and sidewalk, installation of Class IV protected bikeways, pedestrian-scale lighting, and landscaping. (This is PE only for the entire project, both Phase 1 SAC25195 and Phase 2 SAC25196.)	\$843,000	495
SAC25288	City of Sacramento	Sub-Project of Group05 - Stockton Boulevard Complete Street	In Sacramento, on Stockton Boulevard between Alhambra Boulevard and 47th Avenue: Construct multimodal improvements, varying at different segments of the corridor, including lane reductions (road diet), bike lanes, widening for shared-use bicycle and pedestrian paths, and shared bus/bike lanes. (PE only. Total Project Cost \$64,225,000)	\$1,000,000	496
CAL21374	SACOG	Sub-Project of Group05 - SAC-PLA I-80 Managed Lanes: Project Study Report	On Interstate 80 from El Camino Boulevard in Sacramento County to Rocklin Road in Placer County: Project Study Report- Project Development Support (PSR-PDS) to study the potential conversion of the existing High Occupancy Vehicle (HOV) lane to a different facility, including an evaluation of pricing and/or tolling.. Toll Credits for CON	\$250,000	497
SAC25048	Southeast Connector JPA	Sub-Project of Group05 - Capital SouthEast Connector - B3	In Elk Grove: Grant Line Rd from Bradshaw Rd to Bond Rd; Widen from 2 to 4 lanes (thoroughfare). PE Only. Total Project Cost is \$23,100,000.	\$2,000,000	498
SAC25049	Southeast Connector JPA	Sub-Project of Group05 - Capital SouthEast Connector - C	In Elk Grove: Grant Line Rd from Bond Rd to Calvine Rd; Widen from 2 to 4 lanes. PE Only. Total Project Cost is \$32,600,000.	\$2,000,000	499

FED ID: 6203-050	23-00	2023	<23		\$9,618,918	\$1,156,881	\$29,800,000	\$40,575,799
PPNO: 5835					\$9,618,918	\$1,156,881	\$29,800,000	\$40,575,799
Project Description								

On I-5 in Sacramento County, from US 50 to Morrison Creek (PM 12.9/22.5): Construct High Occupancy Vehicle (HOV) lanes and soundwalls in both directions. The I-5 Corridor Enhancement project (03-0H10U) combines the I-5 HOV Lanes - Phase 1 (03-3C001/CAL20466), I-5 HOV Lanes - Phase 2 (03-3C002/CAL20467), I-5 Road Rehab (03-0H100/CAL20700), I-5 Elk Grove Aux Lane (03-3H570/CAL20777), and the I-5 Fiber Optics (03-4F450/CAL20693) for construction. See 03-3C000 (CAL17840) for PA&ED.

Listed for Information Only

. Toll Credits for ENG, ROW

Emission Benefits in kg/day: [50.4] ROG, [52.9] NOx, [10.5] PM10

Federal Project	Total Cost	\$40,575,799

Project Title

Lincoln Blvd Streetscape Improvement Project Phase 4

EA Number: n/a

Last Revised

23-00

Completion Year

2027

Project Description

The overall goal of the Lincoln Boulevard Streetscape Improvement Project is to provide for a more pedestrian, bicycle, and neighborhood Electric Vehicles (NEV) friendly environment along and across the main street through the City. This will be accomplished by closing gaps between and improving existing sidewalks, upgrading and shortening pedestrian crossings with curb bulb outs and ADA compliant pedestrian ramps, and installing combined Class 2 bike lanes and NEV lanes along Lincoln Boulevard. This project will continue the streetscape improvements to construct improved sidewalks, curb bulb outs, curb ramps, and traffic signal improvements on Lincoln Boulevard between 1st Street and 2nd Street and at the intersections of Lincoln Boulevard at 7th Street.

Green Line (DNA) Light Rail - Overall

EA Number: n/a

Last Revised

23-00

Completion Year

2023

Fed FY	Revenue Source	Engineering	Right of Way	Construction	Total Revenue
<23		\$13,546,336	\$0	\$0	\$13,546,336
		\$13,546,336	\$0	\$0	\$13,546,336

Project Description

This project will redefine a Minimum Operable Segment (MOS) 2 and a MOS 3. REG17935 includes the Final Design and Construction for the project (excluding MOS-1).

This phase of the Green Line to the Airport (DNA) Light Rail Project will consist of two discreet, yet connected efforts. For the segment of the Green Line near and adjacent to the Sacramento Intermodal Transfer Center (SITF), the effort will entail the preparation of Draft EIS (and EIR), its circulation for public review and comment, addressing the comments and will culminate with a Final EIS (and EIR). The segment of the project adjacent to the SITF will be coordinated with on-going Sacramento Streetcar planning, environmental review, and design development. For the remainder of the 13-mile corridor, the effort will entail the preparation of a Draft EIS (and EIR) only and its circulation for public review and comments. An MOS will also be identified for this segment. The effort will also evaluate low-floor LRT vehicles and their integration into the RT system, evaluate LRT vehicle maintenance locations for the Green Line, evaluate downtown Sacramento rail/traffic effects of the proposed service, prepare the necessary technical information and for a New Starts evaluation under MAP-21, and involve the community and stakeholders in an outreach program for both efforts. Advanced conceptual engineering and preliminary engineering in key areas with potential for environmental impacts that may require mitigation strategies for the EIS will be completed.

PPNO: n/a
Project Description

In Sacramento, to accommodate the future Streetcar Project as well as future Green Line service: (1) SVS Loop - segment of the Green Line at the Sacramento Valley Station including: Relocate the existing/temporary LRT Station on H Street to a new north-south axis west of 5th Street; New platform and LRT station near the existing Amtrak station; new Station on the east side of N 7th near Railyards Boulevard that would serve the future MLS Stadium area; double-tracking on H Street from 7th to west of 5th, from west of 5th north to new station near Amtrak, and east along F Street and up 7th St to the Township 9 Light Rail Station. SacRT has been working with the City of Sac and SACOG to advance this concept. Expanded SacRT facilities will include track, special trackwork, Overhead Catenary System, traction power system, signaling system, platforms, and storage tracks.

2024

PPNO: n/a

Project Description

The project will design and provide Plans, Specifications and Estimates (PS&E) of traffic signals, fiber-optic communications, and ITS equipment. The purpose of the ITS Master Plan / HSIP Cycle 10 Implementation Project is to interconnect the City's seven (7) traffic signals where no communication exists; install and terminate Single Mode Fiber Optic (SMFO) where Multimode Fiber Optic (MMFO) exists, replace end of lifecycle traffic signal equipment including cabinets, traffic signal heads, and emergency vehicle preemption, design and install Changeable Message Boards (CMS) at sixteen (16) locations within the City of Folsom to provide real time driver information and travel times, install and connect adaptive signal timing to improve traffic flow, reduce delays and maximize capacity; upgrade obsolete Type 820A signal controllers to Cobalt EOS signal controllers; and upgrade the Traffic Management Center (TMC) equipment, and ensure that signal timing remains robust and responsive to actual traffic conditions by utilizing Signal Performance Measures (SPM).. Sub-Project of Group16 - CR 32A Railroad Crossing Relocation Project Positioning																	
EA Number: n/a		Last Revised		Completion Year		Fed FY		Revenue Source		Engineering		Right of Way		Construction		Total Revenue	
		23-00		2023		<23				\$0		\$0		\$100,000		\$100,000	
										\$0		\$0		\$100,000		\$100,000	
Project Description																	
A Project Study Report (PSR) for County Road (CR) 32A Railroad Crossing Relocation was completed in November 2021. The PSR proposed alternatives for relocating the existing at-grade Union Pacific Railroad crossing currently located on the CR 32A at CR 105 for improved railroad crossing safety and preservation of farming access. This “Project Positioning” work is expected to include, but not be limited to: beginning very preliminary right-of-way research/exploration for the PSR-recommended alternative, creating a feasible funding plan for the project, assembling a reasonable schedule for project completion. This “Project Positioning” work is also expected to roll into preliminary engineering and environmental for the PSR-recommended alternative.

Sub-Project of Group30 - Light Rail Low Floor Station Conversion

EA Number: n/a	Last Revised	Completion Year	Fed FY	Revenue Source	Engineering	Right of Way	Construction	Total Revenue
FED ID: 6005-057, 6005-063	23-00	2030	<23		\$1,863,774	\$0	\$20,338,458	\$22,202,232
PPNO: n/a			>26		\$0	\$0	\$27,897,768	\$27,897,768
Project Description					\$1,863,774	\$0	\$48,236,226	\$50,100,000

In Sacramento Region, for the 29 light rail stations along the Gold Line, design and construct improvements to convert stations to accommodate future low-floor vehicles. Ultimately all 48 stations will be converted to low floor, at an estimated cost of \$69M. The first phase of the Gold Line stations conversions must be completed in order to deliver 2018 TIRCP grant-funded Gold Line Service Enhancements project.

Amendment #2 to the 2020 Metropolitan Transportation Plan/ Sustainable Communities Strategy

SACOG's Metropolitan Transportation Improvement Program (MTIP) is required to be consistent with its long-range plan, the 2020 Metropolitan Transportation Plan/Sustainable Communities Strategy (2020 MTP/SCS). Since the 2023 MTIP revises scope and schedule for projects that are also listed in the 2020 MTP/SCS, both documents need to be updated. Therefore, the 2023 MTIP project list is considered Amendment #2 to the 2020 MTP/SCS, in that it revises cost, scope, and schedule of projects in the 2020 MTP/SCS.

GLOSSARY OF TERMS AND ACRONYMS

The following glossary is intended to serve as a reference for anyone involved in the planning process, or for those less involved in the planning process, to understand the terms used in the MTIP.

AB 1012: Assembly Bill 1012, approved by the Governor in 1999, requires regions to obligate RSTP and CMAQ funds within three years, or the state will redirect the funding to other projects.

Air Quality Conformity Analysis: Analysis that determines if certain transportation plans and programs conform to federal air-quality goals, namely that forecasts of vehicular emissions resulting from transportation plans stay within acceptable levels. These acceptable levels of future pollution are determined by the State Implementation Plan (SIP) for air quality. This analysis is required by federal law.

APCD: Air Pollution Control District, a countywide agency which develops a countywide air quality plan. APCDs may be multi-county, such as the Yolo-Solano APCD.

AQMD: Air Quality Management District, same role as APCDs above, but created and entitled by the state legislature specifically for the Sacramento metropolitan area, the Bay Area, and the South Coast region. AQMDs may be multi-county bodies, although the Sacramento Metropolitan AQMD includes only Sacramento County. State enabling legislation typically grants AQMDs statutory powers beyond those of APCDs.

ATP: The Active Transportation Program, created in 2013, is a competitive state and regional funding program for active transportation projects. The ATP consolidates existing federal and state transportation programs, including the Transportation Alternatives Program (TAP), Bicycle Transportation Account (BTA), and State Safe Routes to School (SRTS), into a single program with a focus to make California a national leader in active transportation. The ATP is administered by the Division of Local Assistance, Office of State Programs.

Bipartisan Infrastructure Law (BIL) / Infrastructure Investment and Jobs Act (IIJA): On November 15, 2021, President Biden signed the Infrastructure Investment and Jobs Act (IIJA) (Public Law 117-58, also known as the “Bipartisan Infrastructure Law”) into law. The Bipartisan Infrastructure Law is the largest long-term investment in our infrastructure and economy in our Nation’s history. It provides \$550 billion over fiscal years 2022 through 2026 in new Federal investment in infrastructure, including in roads, bridges, and mass transit, water infrastructure, resilience, and broadband.

Caltrans: The California Department of Transportation, responsible for planning, building, and maintaining the state highway system, and for planning and developing inter-regional transportation services such as the Capitol Corridor train service, among other duties.

CARB: California Air Resources Board

CMP: Congestion Management Program, a countywide program designed to keep traffic congestion within an acceptable standard. The CMP must include traffic flow standards, standards for public transit service, a program to analyze the traffic impacts of land use decisions, a trip reduction/travel demand element to reduce vehicular use, and a seven-year capital improvement program.

Conformity: See Air Quality Conformity Analysis above.

COVID-19: an acute respiratory illness in humans caused by a coronavirus. It was originally identified in China in 2019 and became a global pandemic in 2020, with more than 53 million cases and 1.3 million deaths suffered worldwide as of November 2020.

CRRSAA – STIP CRRSAA and non-STIP CRRSAA: The Federal Coronavirus Response and Relief Supplemental Appropriations Act of 2021 apportioned \$911.8 million to California (COVID Relief Funds). Under the Act, the COVID Relief Funds may be used for a broad range of surface transportation purposes listed in Section 113(b) of Title 23 of the U.S. Code and are meant to “prevent, prepare for, and respond to coronavirus.” Specifically, the Act allows states to cover revenue losses and allows COVID Relief Funds to be used on new or existing projects, and for preventive and routine maintenance; operations; personnel; salaries; contracts; debt service payments; and availability payments; as well as transfers to public tolling agencies. The COVID Relief funds were apportioned to the State (60%) and Local Agencies (40%). The local funds were further apportioned to the local agencies in the STIP-COVID (Mid-Cycle STIP) and the new CRRSAA Program. The CRRSAA Program will make available approximately \$182 million beginning May 2021. The apportionment distribution for the CRRSAA Program, approved on March 14, 2021 by the CTC, is consistent with the formula distribution of the Surface Transportation Block Grant Program; with a minimum guarantee of \$200,000 for each county per CTC Guidelines. The Division of Local Assistance (DLA) manages California’s local agency share of the CRRSAA funding.

CTC: California Transportation Commission, a state level appointed body that reviews Regional Transportation Improvement Programs (see RTIP below) and accepts them with or without modifications into the State Transportation Improvement Program (see STIP below).

EDCTC: El Dorado County Transportation Commission, the state-designated Regional Transportation Planning Agency (RTPA) for El Dorado County.

EPA: Environmental Protection Agency, a federal agency which reviews our air quality conformity analyses and advises FHWA and FTA regarding approval of the conformity finding.

FAST Act: Fixing America’s Surface Transportation Act, is the current federal transportation act. Its provisions authorize tax dollars to be spent on transportation related projects.

FHWA: Federal Highway Administration, one of two primary federal agencies that SACOG partners with on transportation planning in the region. FHWA provides a joint air quality conformity approval on the Metropolitan Transportation Plan (MTP) and MTIP, allocates federal transportation funds (non-transit) to the state for distribution to the region, and authorizes funding to individual projects before the project sponsor may begin work.

Financial Constraint: The MTIP must be financially constrained by year and include a financial plan that demonstrates which projects can be implemented using current revenue sources and which projects are to be implemented using proposed revenue sources. Only projects for which construction and operating funds can reasonably be expected to be available may be included in the MTIP (23 CFR, Part 450, Section 450.324).

FSTIP: Federal Statewide Transportation Improvement Program, the state version of the TIP. The FSTIP includes all projects with federal funds, those that require a federal action, and regionally significant

transportation projects throughout the state.

FTA: Federal Transit Administration, one of two primary federal agencies that SACOG partners with on transportation planning in the region. FTA provides a joint air quality conformity approval on the MTP and MTIP, allocates federal transit funds to the state for distribution to the region, and allocates capital and operating funds for individual public transit projects.

Grouped Projects: Air quality exempt projects of a small scale are often suitable for combining into a single larger project listing or grouped project. Grouped projects are identified in the MTIP under various counties and are shown under the appropriate air quality exempt category listing.

HIP: Highway Infrastructure Program is a federal program currently funded by the Consolidated Appropriations Acts of 2018 and 2019. HIP funding is distributed by FHWA and further divided by states, which are required to coordinate with the relevant Metropolitan Planning Organizations (MPOs) and/or rural planning organizations as required by the Fixing America's Surface Transportation (FAST) Act. Eligible projects include highways, bridges, and tunnels, elimination of hazards and the installation of protective devices at railway-highway crossings, and necessary charging infrastructure along corridor-ready or corridor-pending alternative fuel corridors.

HBP: Highway Bridge Program was a federal funding program used to repair and replace bridges on state highways and local roads. Caltrans now uses a combination of federal funds to keep repairing and replacing bridges and calls that suite of funds the HBP.

Interstate Maintenance: A federal funding program used to pay for maintenance projects on interstate freeways.

Lead Agency: The project sponsor charged with the lead for implementing a transportation project or programs in the MTIP. Local agencies include but are not limited to public works and planning agencies, air districts, regional agencies, transit operators, and special districts.

LRT: Light Rail Transit, such as the light rail system in Sacramento.

LTE: Local Transportation Fund, the funds derived from the one-quarter sales tax and returned to the jurisdiction of collection.

Metropolitan Transportation Improvement Program (MTIP): Also known as the federal TIP, a four-year list of specific transportation projects and programs which SACOG submits to Caltrans and is ultimately approved by FHWA and FTA. SACOG amends the MTIP on a quarterly cycle. The MTIP and its amendments are subject to air-quality conformity analysis under federal air-quality conformity regulations.

MOU: Memorandum of Understanding, a bilateral or multilateral agreement between parties. SACOG has MOUs with the Placer County Transportation Planning Agency and the El Dorado County Transportation Commission regarding SACOG's MPO responsibilities in those areas.

MPA: Metropolitan Planning Area, the boundary includes the entire federal air quality non-attainment area for the purposes of federal transportation planning, programming, and determining air quality conformity of plans and programs.

MPO: Metropolitan Planning Organization, a federal designation granted to the agency charged with conducting regional transportation planning. SACOG is the designated MPO for Sacramento, Sutter, Yolo, and Yuba Counties, and El Dorado and Placer Counties outside of the Tahoe Basin.

MTP/SCS: Metropolitan Transportation Plan / Sustainable Communities Strategy, a 20-year constrained plan for transportation and sustainable community strategies for the region, developed and updated by SACOG.

MVEB: Motor Vehicle Emissions Budget, identified in the State Implementation Plan. This target identifies the allowable on-road emissions levels to attain air quality standards.

Non-Attainment Area: A federally-designated area that fails to meet air-quality standards. Non-attainment areas are defined by the Environmental Protection Agency, based on topography, climate, and wind patterns.

PCTPA: Placer County Transportation Planning Agency, the state-designated regional transportation planning agency for Placer County, and its locally-designated congestion management agency.

PPP: Public Participation Plan, the procedures SACOG follows for interagency review, public review and comment, and MTIP revisions.

Regional Planning Partnership: A committee of representatives from local, regional, state, and federal agencies, as well as representatives of business, environmental, and minority organizations and associations. The RPP assists SACOG with its transportation and air quality planning responsibilities. The RPP meets monthly.

RTIP: Regional Transportation Improvement Program, a seven-year list of specific transportation projects which SACOG submits to the CTC as a request for state funding. This document must be submitted in December of every odd-numbered year.

RTPA: Regional Transportation Planning Agency, a state designation of the agency responsible for regional transportation planning to meet state planning requirements. The RTPA is not always the same agency as the federally-designated MPO (see MPO above).

SACTrak: SACOG's database of transportation projects included in the MTIP.

SAFETEA-LU: Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users is a prior federal transportation act. Its provisions authorize tax dollars to be spent on transportation related projects.

The Safer Affordable Fuel Efficient Vehicle Rule (SAFE Vehicle Rule): The National Highway Traffic Safety Administration (NHTSA) and the Environmental Protection Agency (EPA) updated Corporate Average Fuel Economy (CAFE) and greenhouse gas emissions standards for passenger cars and light trucks and establish new standards, covering model years 2021 through 2026. The rule extended 2020 standards for model years 2021 through 2026.

The Road Repair and Accountability Act of 2017 (SB 1): Senate Bill 1, the Road Repair and Accountability Act of 2017, was signed into law on April 28, 2017. This legislative package invests \$54 billion over the first decade to fix roads, freeways and bridges in communities across California and puts more dollars toward transit and safety.

SB 45: Senate Bill 45 regarding transit system safety. SB 45 set aside a portion of bond funds to be made available for capital projects that provide increased protection against security and safety threats for transit operators.

SB 375: Senate Bill 375, The Global Warming Solutions Act, requires the state to reduce greenhouse gas emissions to 1990 levels by 2020.

SHOPP: State Highway Operation and Protection Program, a list of all operations and maintenance projects greater than \$300,000 on the state highway system which the California Transportation Commission has approved for state funding. Caltrans prepares the SHOPP with input from regional transportation planning agencies.

SIP: State Implementation Plans, also referred to as Air Quality Plans. The federally approved plan for compliance with the Clean Air Act.

SMAQMD: Sacramento Metropolitan Air Quality Management District, the agency responsible for state-required air quality planning in Sacramento County.

RT, SacRT, or SRTD: Sacramento Regional Transit District, the agency that operates Sacramento's public transit system, including bus and light rail service. RT is the largest transit operator in the SACOG region, and the largest in California north of the San Francisco Bay Area.

SRTP: Short Range Transit Plan, a five-year plan required periodically from public transit operators that receive federal funds.

State Cash: This term refers to funds that do not include any federal or local funds. This terminology is used by Caltrans to distinguish these funds from the State Highway Account which is often a mix of federal and state dollars. State cash is used as a source of matching funds for the federal dollars used in the State Transportation Improvement Program (STIP).

TCM: Transportation Control Measure, a measure aimed at reducing vehicular emissions and thereby improving air quality. TCMs, are developed jointly by air pollution control districts or air quality management district's when developing SIPs.

TDM: Transportation Demand Management, techniques to reduce the use of motor vehicles or shift the use of vehicles to uncongested times of the day. TDM could include employer-sponsored rideshare programs, or flexible working hours that enable people to commute to work before or after rush hour, for example.

Title VI: Of the Civil Rights Act of 1964, prohibits discrimination on the basis of race, color, income, and national origin in programs and activities receiving federal financial assistance. The decision process by which projects are selected for inclusion into SACOG's MTIP considers Title VI requirements.

Unitrans: A public transit operators headquartered at UC Davis, running bus routes that connect the UC campus to various Davis neighborhoods.

YCTD/Yolobus: Yolo County Transportation District, a public transit operator running bus routes in Yolo County and neighboring areas.

Response to Public Comments

Comment #1

Edgar Medina, City of Rancho Cordova, 7/19/2022

SAC25159 Should not be marked completed. Please carry over to the 2023 MTIP and update funding years and completion year.

Response to Comment #1

We made the changes.

Comment #2

Joan Davis, Caltrans D3, 7/22/2022

CAL20689 SR 51 (Capital City) Managed Lanes Project: N St to El Camino Ave

The \$100k CMAQ in ROW should be in PE, and move the \$2,000,000 of CMAQ from 2026 to prior year 2022, as we plan to obligate it this year. STIP State Cash in ROW should be in PE.

Response to Comment #2

We made the changes.

Comment #3

Cecilyn Foote, City of Sacramento, 7/22/2022

SAC25058 and SAC25304: carry over changes from Admin Mod #16.

Response to Comment #3

We made the changes.

Comment #4

Matt McClure, City of Rocklin, 7/21/2022

This email is to confirm that the City of Rocklin is requesting that the I-80 WB Aux Lane to be included in the 2023 MTIP.

Response to Comment #4

We made the changes. The project is shown as I-80 Westbound Auxiliary Lane, PLA25859. It is programmed as PE-only as part of the grouped project listing for engineering projects.

Comment #5

Angie Raygani, County of Sacramento, 8/3/2022

1. SAC25187 - Watt Avenue Complete Street Improvements, Phase 1: Change completion year from 2023 to 2024
2. SAC25192 - South Watt Avenue - Florin Road to Jackson Road: Change completion year from 2024 to 2025
3. SAC25182 - Arden Way Complete Streets, Phase 1: Change completion year from 2023 to 2024

Response to Comment #5

1. We made the change to this air quality exempt project.
2. We made the change to this air quality non-exempt project. As the completion year change does not cross a conformity milestone year, it does not require changes or re-evaluation of air quality conformity.
3. We made the changes. This is an air quality exempt project; therefore, the completion year change has no impact on air quality conformity.

Comment #6

Randeep Lally, Caltrans D3, 8/1/2022

CAL20689 - SR 51 (Capital City) Managed Lanes Project: N St to El Camino Ave

Change the project description as shown below.

Current:

On SR 51, from N Street to 0.5 mile north of El Camino Ave (PM 0.7/4.8): Extend managed lanes, widen the American River Bridge to 10 lanes (4 lanes NB and SB plus managed lane in both directions) and add new Class I bike path on the American River Bridge, new auxiliary lane from Exposition Blvd to E St in both directions, SB auxiliary lane from Arden Way on-ramp to Exposition Blvd off-ramp, replace B St UP, A St OC, and Elvas UP, construct new Capital Corridor 3rd Track UP, widen EB SR 160/SR 51 separation structure, and widen Tribute Rd UC.

Proposed Revision:

On SR 99 and SR 51, from 16th Avenue to 0.3 Miles South of Fulton Interchange (SAC99 PM 23/SAC51 PM 6.4): Extend managed lanes, widen the American River Bridge to 10 lanes (4 lanes NB and SB plus managed lane in both directions) and add new Class I bike path on the American River Bridge, new auxiliary lane from Exposition Blvd to E St in both directions, SB auxiliary lane from Arden Way on-ramp to Exposition Blvd off-ramp, replace B St UP, A St OC, and Elvas UP, construct new Capital Corridor 3rd Track UP, widen EB SR 160/SR 51 separation structure, and widen Tribute Rd UC."

CAL21276 - I-80 and US 50 Managed Lanes.

Change the project description as shown below.

Current:

On I-80 just from the I-80/Kidwell Road interchange in Solano County, through Yolo County, and to the W. El Camino interchange; also on US 50 from the I-80/US 50 interchange to the I-5/US 50 interchange in Sacramento County: Construct improvements consisting of managed lanes in each direction,

pedestrian/bicycle facilities, park-n-ride, and Intelligent Transportation System (ITS) elements.

Proposed:

On I-80 just from the I-80/Kidwell Road interchange in Solano County, through Yolo County, and to the Truxel Road interchange; also on US 50 from the I-80/US 50 interchange to the SR 99/US 50 interchange in Sacramento County: Construct improvements consisting of tolled managed lanes in each direction, with direct I-80 connectors at the I-80/US 50 separation, pedestrian/bicycle facilities, park-n-ride, and Intelligent Transportation System (ITS) elements."

CAL20700 - I-5 Road Rehab: Change the funding amounts for prior year funds. The cost went up.

Project EA: 03-0H460 (SACOG ID: PLA25647) I-80 Atlantic/Eureka W/B On-ramp Widening was completed as of 08/03/22. Will you be able to mark complete as I cannot at the moment with FTIP cycle changing?

Response to Comment #6

Regarding the two projects:

1. CAL20689 - SR 51 (Capital City) Managed Lanes Project: N St to El Camino Ave and
2. CAL21276 - I-80 and US 50 Managed Lanes.

We reviewed the proposed changes. We do not recommend that SACOG make these changes. Instead, we have passed on the requested changes to the MTP Team for their review in the development of Blueprint 2024.

These are both regionally significant projects and the proposed changes to the limits would require a new analysis of air quality conformity. Such an important change would best be handled as part of the update of the long-range plan, Blueprint 2024.

Regarding the two other projects:

3. CAL20700 - I-5 Road Rehab
4. PLA25647 - I-80 Atlantic/Eureka W/B On-ramp Widening

We made the changes, updating the cost on CAL20700 and marking PLA25647 completed.

Comment #7

Jacqueline Kahrs, Caltrans Office of Federal Programs, 8/12/2022

Hi Jose Luis,

Thank you for the opportunity to review SACOG's Draft 2023 MTIP: [2023 MTIP Adoption - Sacramento Area Council of Governments \(sacog.org\)](#).

Below are the public comments provided by the Caltrans Division of Financial Programming. Please address each comment below and include these comments along with the responses to each comment in the final 2023 MTIP submittal.

General Comments:

- SACOG is commended for a detailed description of how the MTIP is designed to achieve progress of the federal transportation performance measures.
- Please indicate the RTP reference information for all projects. Once the projects are identified in the California Transportation Improvement Program System (CTIPS), please reference the RTP location for each project in the "Project Location and Description" field or the "MPO Comments" field.
- In the Endnotes and Electronic References Section, please replace the weblink for the FSTIP using this link: [Federal Programming Branch | Caltrans](#)

Financial Summary Comments:

- For both the Revenue and Programmed Tables, please review and ensure the amounts for FY 23, 24, and 25 for the Highway Bridge Program (HBP) are consistent with the HBP listing provided to SACOG on March 23, 2022. The totals for FY 26 appear to be correct. Please make any necessary updates to the programmed HBP programmed projects accordingly.
- For both the Revenue and Programmed Tables, please review and ensure the amounts for FY 23-26 for the Highway Safety Improvement Program (HSIP) are consistent with the HSIP listing provided to SACOG on May 23, 2022. Please make any necessary updates to the HSIP programmed projects accordingly.
- For both the Revenue and Programmed Tables, please review and ensure the amounts for the SHOPP program are revised. Attached is an updated CTIPS report (8/8/2022) of the 2022 SHOPP for FY 23-26. Please make any necessary updates to the SHOPP programmed projects accordingly.
- For the Revenue Table, please correct footnote #2 for the CMAQ Revenues. FFY 2025 is listed twice, however the final loan amounts for SLOCOG and KCAG are for FFY 2026.
- For any 2020 STIP projects that have received CTC time extensions during the prior STIP cycle, please ensure STIP (RIP or IIP) funding is identified under "STIP Prior" in the financial summary tables.

Project Specific Comments:

- MPO ID# CAL21276 – Please identify if toll credits will be used.

Appendix 11

- MPO ID# SAC19620 – Please correct programming to ensure consistency with the 2022 STIP detail in CTIPS. Construction costs for Highway Bridge Program should be programmed for FY 2024.
- MPO ID # SAC24094 - Please correct programming to ensure consistency with the 2022 STIP detail in CTIPS. FY 2023 RIP should be programmed in CON phase.
- Group 38 – Please update the grouped project listing title to “Grouped Projects for Safety Improvements, Shoulder Improvements, Pavement resurfacing and/or rehabilitation - Minor Program,” to be consistent with the approved grouped project listings. This comment was also provided during the review of the Draft 2021 MTIP.

Comments for the Air Quality Conformity Analysis 7-14-22

- On the FHWA Checklist for MPO TIPs/RTP page 21, under section 93.110 (a, b), Appendix C Table 8 is reference, however, Table 8 appears to be missing. Please make the necessary corrections.
- On page 17, under the ANALYSIS TECHNIQUES section on page 18, it states: *“SACOG also performed a PM2.5 analysis for the Yuba City-Marysville PM2.5 Maintenance Area employing its SACSIM travel demand model for the Yuba City-Marysville Maintenance Area to generate trips and daily VMT, and the outputs from the SACSIM model were then inputted into EMFAC 2014 to generate emissions.”*
 - EMFAC2017 must be used for all new regional emissions analyses for transportation conformity purposes that are started on or after August 16, 2021, and for all new carbon monoxide (CO) and particulate matter (PM 10 and PM 2.5) hot-spot analyses that are started on or after August 17, 2020. Please correct or state why EMFAC2014 was used to perform a PM2.5 analysis for the Yuba City-Marysville Maintenance Area.

Please let me know if you have any questions.

Response to Comment #7

General Comments:

1. Thank you for the compliments.
2. Re: RTP reference, each project ID in the MTIP corresponds to the RTP ID in the regional transportation plan. In this way, they are referenced.
3. Re: Endnotes, we made the change.

Financial Summary Comments:

4. Re: Revenue and Programmed Tables in the Financial Summary, we made changes to multiple bridges with funding years that needed updating to be consistent with the March 2022 HBP listing. We also made the changes to the financial tables accordingly.
5. Re: HSIP Programming, we made changes to multiple HSIP projects with funding years that needed updating to be consistent with the May 2022 listing. We also made the changes to the financial tables accordingly. In some cases, we are aware of HSIP projects that have already

Appendix 11

obligated their funds in a current or prior year, where the HSIP list programs the funds in a future year. In these cases, we chose to put the funds in the year that matched their obligation rather than in a future year.

6. Re: SHOPP Programming, Caltrans District 3 has identified 28 SHOPP projects that recently have been revised by the CTC. Rather than make these changes to the draft 2023 MTIP, SACOG will process these as part of the first administrative modification to the 2021 MTIP.
7. Re: CMAQ loans footnotes in the Financial Summary, we corrected the revenue table footnote to change it from 2025 to 2026. We have also added the following changes and footnotes due to loans:
 - a. In 2024, SACOG will repay \$4,000,000 CMAQ to VCTC.
 - b. In 2026, SACOG will repay \$6,300,000 CMAQ to FCOG and \$872,397 CMAQ TCTC.
 - c. In 2023, Caltrans Local Assistance will repay to SACOG \$9,552,155 NHPP (SACOG loaned RSTP in a prior year)
8. Re: STIP Prior, we have one such project, the I-80/Richards Interchange (YOL17140). It has \$7,700,000 RIP STIP Prior programmed in FFY 2023.

Project Specific Comments:

9. Re: CAL21276, toll credits are being used for PE, and are planned to be use for ROW. We have also added toll credits for CON.
10. Re: SAC19620 consistency with the STIP and HBP, this project is programmed correctly, consistent with the 2022 STIP and the March 2022 HBP list.
 - a. The CTC programmed \$10,000,000 STIP funds in SFY 2023-24 (pg. 38 of 66, 2022 Report of STIP Balances, August 1, 2022). The 2023 MTIP proposes the project for programming in FFY 2023. The state fiscal year 2023-24 overlaps with FFY 2023 in the months of July, August, and September 2023. Therefore, the programming of the of the STIP funds is consistent between the 2023 MTIP and the 2022 STIP.
 - b. The Caltrans HBP project list, published in March 2022, does not program HBP funds for this project in FFY 2024. Instead, the funds are shown as "beyond 2026" (pg. 38, HBP Individually Listed Projects). Consistent with the Caltrans list, SACOG does not include the HBP funds in the four years of the MTIP.
11. Re: SAC24094 consistency with the STIP, the project is correct, consistent with what SACOG submitted and the CTC approved, in spite of the detail in CTIPS.
 - a. We will follow up with CTC staff and ask them to correct the project in the CTIPS database.
 - b. When the CTC adopted the 2022 STIP, it did not specify whether the funds are for ROW or CON. This is detail from within a state database that, unfortunately, is incorrect. SACOG requested that the CTC program the STIP to ROW.
 - c. Furthermore, the funds are not eligible, per STIP Guidelines, to be programmed to CON.
12. Re: Group38, our apologies. We have requested the change of our software developer. We hope to have the change made before submittal of the final 2023 MTIP to Caltrans.

Comments for the Air Quality Conformity Analysis 7-14-22

13. The reference to Table 8 has been adjusted to Table 7.
14. The text reference to EMFAC 2014 has been adjusted to EMFAC 2017. This aligns with the analysis noted on Table 6B.

WHAT WE DO

The Sacramento Area Council of Governments (SACOG) is an association of local governments in the six-county Sacramento region. Its members include the counties of El Dorado, Placer, Sacramento, Sutter, Yolo, Yuba and the 22 cities within.

SACOG provides transportation planning and funding for the region and serves as a forum for the study and resolution of regional issues. In addition to preparing the region's long-range transportation plan, SACOG approves the distribution of affordable housing in the region and assists in planning for transit, bicycle networks, clean air and airport land uses.

This report was funded in part through grants from the Federal Highway Administration and Federal Transit Administration, U.S. Department of Transportation. The views and opinions of the authors or agency expressed herein do not necessarily state or reflect those of the U.S. Department of Transportation.
