**Attachments:** Yes

### **1. Issue:**

The purpose of this item is to provide the board, member and partner agencies, and interested stakeholders with an overview of the various state funding opportunities in both housing and transportation available in the 2020 calendar year.

### **2. Recommendation:**

None; this item is for information only.

### **3. Background/Analysis:**

There are a variety of state housing and transportation funding opportunities available to local governments, transportation providers, and affordable housing developers in the upcoming 2020 calendar year. These grants present an important opportunity to further the objectives, activities, and projects laid out in the 2020 Metropolitan Transportation Plan/Sustainable Communities Strategy (MTP/SCS).

As part of our commitment to implementing the MTP/SCS, we are available to help project sponsors understand grant requirements, identify the best fit between projects and various funding programs, and provide technical assistance, data, application review, and letters of support for projects that further our shared regional goals.

### **4. Discussion/Analysis:**

Several grant programs, particularly those related to housing, have application deadlines early in 2020. We have already reached out to make sure member and partner agencies are aware of and taking advantage of these programs.

To help facilitate early communication and planning for upcoming opportunities, the funding opportunities and milestones table in Attachment A provides an overview of programs available to the agencies throughout region in the coming year. This table provides basic information about each program, including total funding available, maximum award amount, application deadline, eligible activities, and contact information for staff that are available to assist project sponsors. This table is also available on the SACOG website and will be shared with member and partner agency staff and other stakeholders.

We encourage potential applicants to reach out to us early about the types of data and technical assistance

we can offer as well as with any questions about specific program requirements or the competitiveness of potential projects.

**5. Fiscal Impact/Grant Information:**

Technical and application assistance for member and partner agencies is part of the ongoing MTP/SCS implementation programs included in SACOG's adopted Fiscal Year 2019-2020 Overall Work Plan and budget.

**6. This staff report aligns with the following SACOG Work Plan Goals:**

- 1 - Advance Economic Prosperity
- 4 - Connect Low-Income & Disadvantaged Populations to Jobs & Opportunity
- 7 - Deliver Key High-Profile Transportation Projects
